

The BD Accuri[®] C6 personal flow cytometer

Helping all people
live healthy lives

Flow cytometry within reach.[®]

The BD Accuri[®] C6 is a personal flow cytometer that puts flow cytometry within reach. It gives you 4-color cell analysis in an affordable, transportable, and easy-to-use format.

Measuring just 11 x 14.75 x 16.5 inches (27.9 x 37.5 x 41.9 centimeters) and weighing just 30 pounds (13.6 kilograms), the BD Accuri C6 gives both novice and experienced researchers the power of multicolor analysis, when and where you need it. BD CFlow[®] software's intuitive interface guides you through workflows, making it easy to begin collecting and analyzing data—even if you have little flow cytometry knowledge or know-how.

Setup and maintenance are also simplified to increase availability and up-time. In the event service is required, just pack up the system and return it. A loaner system will be provided while your system is serviced.

For more information about how you can more easily access the power of flow cytometry in your lab, visit bdbiosciences.com/go/accuri.
