Executive Director of the Emory Genetics Laboratory Emory University School of Medicine

The Department of Human Genetics of Emory University School of Medicine, is seeking candidates for the position of Executive Director for the Emory Genetics Laboratory (EGL). We are in search of an outstanding faculty member with the academic or industry experience necessary to provide leadership, vision, and strategic planning for one of the leading academic diagnostic genetic laboratories in North America.

Emory Genetics Laboratory has been a worldwide leader in comprehensive genetic diagnostic testing for more than 35 years. Our team of eight ABMG-certified laboratory directors oversees three comprehensive laboratories providing cytogenetic, biochemical, and molecular genetic testing. With four dedicated laboratory genetic counselors and a skilled technical and support staff, EGL has extensive expertise in genetic testing for rare diseases, metabolic diseases, autism, X-linked intellectual disabilities, and congenital disorders of glycosylation. We have experienced tremendous growth in recent years, currently testing >20,000 patient samples per year, by dramatically expanding the volume and scope of clinical test offerings through the adaptation of new technologies and development of novel tests (see www.geneticslab.emory.edu). We have a long-term local as well as a rapidly expanding national and international referral base that includes private physicians, hospitals, academic and commercial clients as well as government agencies and those who require clinical testing as a component of clinical trials.

The Department of Human Genetics, founded in 2001, is a combined basic science and clinical department with 40 primary faculty members, including 14 who are ABMG certified. The Department ranks among the top 10 genetics departments in the country based upon NIH funding. Emory University consistently ranks among the top 20 research universities in the nation and Emory Healthcare is the largest healthcare system in Georgia, serving more than 5 million individuals.

The qualified candidate must hold a Ph.D. and/or M.D. degree and be ABMG board certified in at least one of the three laboratory specialties. A minimum of five years of managerial experience in a high-volume clinical laboratory is required. The successful applicant will receive an academic appointment, at the level of Associate Professor or Professor with a very competitive compensation package.

Please send curriculum vitae and statement of experience to Dr. Stephen T. Warren, Chairman of Human Genetics care of Christi Bell at christi.bell@emory.edu.

Emory University is an Equal Opportunity/Affirmative Action Employer.

In 2012,
CNRS is recruiting
330 permanent
researchers

in all scientific fields

life sciences, chemistry, environmental sciences and sustainable development, humanities and social sciences, information technology, engineering, mathematics, physics, nuclear and particle physics, earth sciences and astronomy

Online registration at: www.cnrs.fr
from December 1, 2011
Registration deadline: January 5, 2012

Physician Scientists

Stony Brook University School of Medicine, Department of Medicine, seeks two full-time faculty members at the assistant or associate professor level.

Preferred: Physician Scientists with a focus on translational or basic research. Preferred areas of interest include but not exclusive to cardiovascular, digestive, or infectious diseases as well as cancer and regenerative medicine.

Required: M.D. or equivalent, board certified in internal medicine, board certified/board eligible in the respective subspecialty area and experience in clinical care and teaching. A minimum of two years of postdoctoral research experience and relevant publications. Applications will be accepted until the position is filled.

For a full position description, application procedures, and/or to apply online, visit www.stonybrook.edu/jobs (Jobs Reference #:

F-7009-11-10) or submit letter of interest and C.V. to: Vincent W. Yang, M.D., Ph.D. Professor and Chair, Department of Medicine Health Sciences Center, T-16, Room 020 Stony Brook University Stony Brook, NY 11794-8160 Fax: (631) 444-3144

Stony Brook University/SUNY is an equal opportunity, affirmative action employer.
