POSITIONS OPEN

The Institute for Genome Research at The University of Tokushima, Japan, seeks candidates for a permanent position of **FULL PROFESSOR** in proteogenomics. Areas of interest include but are not restricted to the study of biomedical sciences in epigenomic and/or proteomic approaches. Please view full details online at **website: <http://www.genome.tokushima-u.ac.jp>**. Application should be received by January 31, 2012. *The University of Tokushima is an Equal Opportunity Employer.*

ANATOMIC AND CLINICAL PATHOLOGIST

Indiana University School of Medicine - Medical Sciences is searching for an anatomic and clinical pathologist with expertise in hematology/oncology to fill a 12-month, non-tenure-track position. The successful candidate is expected to have an M.D. and active American Board of Pathology certification, and will join in teaching undergraduate graduate and medical students. Experience in both human and rodent research is a plus. The successful candidate will be expected to (1) teach general and systemic pathology to second year medical students; (2) provide teaching for fourth-year medical student elective; (3) join other faculty in teaching ongoing courses in biomedical sciences to undergraduate students; and (4) develop a unique course in an appropriate area for junior and senior undergraduate students. Additionally, the successful candidate is expected to develop an active research in the Scholarship of Teaching and Learning and to join ongoing research projects in Medical Sciences. The appointment is effective beginning July 1, 2012. Candidates should send in a single PDF file their letter of interest, curriculum vitae, and the names of six references to **e-mail: cancerbi@indiana.edu**. Review of applications will begin December 15, 2011. *Indiana University is an Equal Employment/Affirmative Action Employer and has a strong commitment to diversity; we encourage applications from women, people of color, and persons with disabilities.*

POSTDOCTORAL POSITION

Mechanisms of mitochondrial Neurodegeneration and therapy (100%, multi-year), available immediately (California). We seek two postdoctoral fellows to study how inherited mitochondrial defects cause neurodegenerative disease and to use this information in therapeutic screening. Expertise in mouse models, neuron, and cellular studies, as well as molecular and biochemical excellence, are very strongly preferred. DRG/RGC injury models, Schwann cell co-culture, and/or microarray experience a plus. Salary depends upon experience (NIH scale). Send curriculum vitae to **e-mail: gcortopassi@ucdavis.edu**. **Website: <http://cortopassilab.ucdavis.edu/>**. *University of California, Davis is an Affirmative Action/Equal Opportunity Employer.*
