COVER

Illustration of the black hole in Cygnus X-1, a binary star system 6000 light-years away. A disk of stellar material feeds this black hole, which is 15 times as massive as the Sun but less than 60 kilometers across. As it falls toward the black hole, some of the material gets expelled in two opposite jets. A section highlighting recent research on black holes begins on page 535. For the story behind the cover, go to <http://scim.ag/cov6094>.

REVIEW

549 Transformation Optics and Subwavelength Control of Light
J. B. Pendry et al.

BREVIA

553 Cartwheel Architecture of *Trichonympha* Basal Body
P. Guichard et al.
Electron microscopy provides a close-up view of the ninefold symmetric stacked rings at the base of cilia and flagella.

REPORTS

554 Radio Detections During Two State Transitions of the Intermediate-Mass Black Hole HLX-1
N. Webb et al.
Observations of a candidate intermediate-mass black hole support the scale invariance of jets in black holes.

556 Kepler-36: A Pair of Planets with Neighboring Orbits and Dissimilar Densities
J. A. Carter et al.
The Kepler spacecraft detected a super-Earth and a Neptune-like planet in very tightly spaced orbits around the same star.

559 Non-Centrosymmetric Cylindrical Micelles by Unidirectional Growth
P. A. Rupal et al.
A capping approach is used to create asymmetrical block copolymer micelles through self-assembly.
>> Perspective p. 530

563 A Reversible and Higher-Rate Li-O₂ Battery
Z. Peng et al.
A viable lithium-oxygen battery is demonstrated using dimethyl sulfoxide electrolyte and a porous gold cathode.

566 Aerosols from Overseas Rival Domestic Emissions over North America
H. Yu et al.
Roughly half of all particulate matter found in the air above North America originates from sources overseas.

569 Aerial Photographs Reveal Late-20th-Century Dynamic Ice Loss in Northwestern Greenland
K. H. Kjær et al.
Archived photographs extending back to the mid-1980s help show the role of dynamic thinning in ice mass loss from Greenland.

574 Function, Targets, and Evolution of *Caenorhabditis elegans* piRNAs
M. P. Bagijn et al.
Piwi-bound piRNAs recruit endogenous small interfering RNAs to silence mobile genetic elements.
>> Perspective p. 529

578 Cuckoos Combat Socially Transmitted Defenses of Reed Warbler Hosts with a Plumage Polymorphism
R. Thorogood and N. B. Davies
Parasitic cuckoos sporting new colors flourish after their warbler hosts learn to defend against the mainstream fashion.
>> Perspective p. 532

580 Unraveling the Life History of Successful Invaders
D. Sol et al.
Allocating resources to long-lived adults is one means by which birds succeed in new niches.

584 Quantitative Modulation of Polycomb Silencing Underlies Natural Variation in Vernalization
V. Coustham et al.
Arabidopsis adjusts the onset of flowering to the length of winters via an epigenetic mechanism.

587 Mitochondrial Import Efficiency of ATFS-1 Regulates Mitochondrial UPR Activation
A. M. Nargund et al.
When stressed, the mitochondrion reduces import of a transcription factor, which enters the nucleus instead.

591 Opening and Closing of the Bacterial RNA Polymerase Clamp
A. Chakraborty et al.
Single-molecule fluorescence measurements define the clamp conformation during transcription initiation and elongation.

595 How Low Can You Go? Physical Production Mechanism of Elephant Infrasonic Vocalizations
C. T. Herbst et al.
Elephants produce low-frequency sounds via intrinsic vocal-fold vibrations similar to those in humans.
>> Science Podcast

599 Feedback Regulation of Transcriptional Termination by the Mammalian Circadian Clock PERIOD Complex
K. Padmanabhan et al.
A circadian rhythm regulator acts by altering the elongation stage of gene expression.

SCIENCE SIGNALING

www.sciencesignaling.org

The Signal Transduction Knowledge Environment

31 July issue: <http://scim.ag/ss073112>

EDITORIAL GUIDE: Focus Issue—Regulation of Lymphocyte Functions

E. Andrianantoandro and J. F. Foley

Similar modes of regulation across different cell types promote effective innate and adaptive immunity.

RESEARCH ARTICLE: The Scaffolding Protein Synapse-Associated Protein 97 Is Required for Enhanced Signaling Through Isotype-Switched IgG Memory B Cell Receptors

W. Liu et al.

PODCAST

S. K. Pierce and A. M. VanHook

A scaffolding protein clusters B cell receptors to promote antibody secretion by memory B cells.

RESEARCH ARTICLE: Differential RET Signaling Pathways Drive Development of the Enteric Lymphoid and Nervous Systems

A. Patel et al.

Cis and trans signaling mechanisms direct different developmental responses to ligands for the receptor tyrosine kinase RET.

PERSPECTIVE: T Cell Signaling Targets for Enhancing Regulatory or Effector Function

F. Pan et al.

The PD-1 receptor in effector T cells and the transcription factor Foxp3 in T_{regs} are promising targets for therapies.

PERSPECTIVE: Tyrosine Kinases Enabling Adaptor Molecules for Chemokine-Induced Rap1 Activation in T Cells

L. P. Malherbe and D. Wang

T cell migration requires phosphorylation of an adaptor protein by Abl family kinases to activate guanosine triphosphatase Rap1.

SCIENCE TRANSLATIONAL MEDICINE

www.sciencetranslationalmedicine.org

Integrating Medicine and Science

1 August issue: <http://scim.ag/stm080112>

RESEARCH ARTICLE: Drug Screening for ALS Using Patient-Specific Induced Pluripotent Stem Cells

N. Egawa et al.

Anacardic acid attenuates mutant TDP-43-associated abnormalities in motor neurons derived from ALS patient-specific induced pluripotent stem cells.

RESEARCH ARTICLE: Reversal of Paralysis and Reduced Inflammation from Peripheral Administration of β -Amyloid in T_H1 and T_H17 Versions of Experimental Autoimmune Encephalomyelitis

J. L. Grant et al.

FOCUS: β -Amyloid—Enemy or Remedy?

R. Hohlfeld and H. Wekerle

Amyloid β reduces inflammation and improves symptoms in a mouse model of multiple sclerosis.

RESEARCH ARTICLE: Inhibition of LTi Cell Development by CD25 Blockade Is Associated with Decreased Intrathecal Inflammation in Multiple Sclerosis

J. S. A. Perry et al.

FOCUS: Anti-CD25 Immunotherapy—Regulating the Regulators

J. W. Rose

Daclizumab inhibition of inflammation in human autoimmunity is associated with blockade of lymphoid tissue inducer cell development.

Free Weekly Show

On the 3 August *Science* Podcast: the quantum mechanics of black holes, analyzing elephant vocalizations, and chasing down the last of the polio virus.

SCIENCE (ISSN 0036-8075) is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1200 New York Avenue, NW, Washington, DC 20005. Periodicals Mail postage (publication No. 484460) paid at Washington, DC, and additional mailing offices. Copyright © 2012 by the American Association for the Advancement of Science. The title SCIENCE is a registered trademark of the AAAS. Domestic individual membership and subscription (51 issues): \$149 (\$74 allocated to subscription). Domestic institutional subscription (51 issues): \$990; Foreign postage extra: Mexico, Caribbean (surface mail) \$55; other countries (air assist delivery) \$85. First class, airmail, student, and emeritus rates on request. Canadian rates with GST available upon request, GST #1254 88122. Publications Mail Agreement Number 1069624. Printed in the U.S.A.

Change of address: Allow 4 weeks, giving old and new addresses and 8-digit account number. **Postmaster:** Send change of address to AAAS, P.O. Box 96178, Washington, DC 20090-6178. **Single-copy sales:** \$10.00 current issue, \$15.00 back issue prepaid includes surface postage; bulk rates on request. **Authorization to photocopy** material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that \$30.00 per article is paid directly to CCC, 222 Rosewood Drive, Danvers, MA 01923. The identification code for *Science* is 0036-8075. *Science* is indexed in the *Reader's Guide to Periodical Literature* and in several specialized indexes.
