

# Better results — on any sequencing platform

Get the most from your NGS

Discover new and innovative solutions,  
dedicated for use with any NGS workflow

Streamline your next-generation sequencing (NGS) workflow and achieve high-quality results you can rely on.

- Highly specific and selective nucleic acid purification and target enrichment
- Unbiased whole genome amplification from a single cell
- High DNA library yields using optimized workflows that allow ~50% time-savings
- Easy-to-use, spin-column-based size selection of DNA for library construction
- Outstanding results on any sequencing platform
