

College of  
**Biological Sciences**  
UNIVERSITY OF MINNESOTA  
Driven to Discover<sup>SM</sup>

**Are you a creative investigator who excels at working collaboratively and pushing disciplinary boundaries?**

**Then we want to hear from you.**

The College of Biological Sciences at the University of Minnesota is hiring faculty for **three interdisciplinary research clusters in emerging areas of biology: genome variation, cellular biophysics and synthetic biology.**

All positions are tenure track. Successful candidates will have research expertise that complements current faculty and be committed to graduate and undergraduate education.

UNIVERSITY of  
**HOUSTON**

COLLEGE OF PHARMACY  
**Faculty Position in Immunology  
Department of Pharmacological and  
Pharmaceutical Sciences**

The Department of Pharmacological and Pharmaceutical Sciences at the University of Houston is accepting applications for a tenure-track faculty position in Immunology at either the Associate Professor or Professor level. The University of Houston is Carnegie-designated Tier1 public research university and also is a member institution of the world-renowned Texas Medical Center which houses major academic research programs in cancer, genetics, and neuroscience with a major focus on translational research. The successful candidate will be provided lab space will receive a start-up package commensurate with their qualifications. Department faculty members teach in the Pharm.D. professional program and also participate in departmental Ph.D. programs in Pharmacology and Pharmaceutics. The search is focused on adding expertise in the immunology, immunotherapy and vaccines along with other areas relevant to drug development.

Eligible candidates must have an earned doctoral degree, postdoctoral experience and a strong track record for establishing and maintaining an excellent extramurally-funded research program. Applications will be accepted until the position is filled, although an early application is recommended. Interested individuals should send a letter describing his/her research program, a curriculum vitae and the names of three references with postal and Email addresses, telephone and FAX numbers electronically in PDF format to:

*The University of Houston is an Affirmative Action/Equal Opportunity Employer. Minorities, women, veterans, and person with disabilities are encouraged to apply.*

**Washington University in St. Louis**

**SCHOOL OF MEDICINE**

**Faculty Positions in Biochemistry and  
Molecular Biophysics**

The Department of Biochemistry and Molecular Biophysics at Washington University School of Medicine invites applications for tenured and tenure-track faculty positions in computational biophysics and biochemistry.

Outstanding individuals working in the development and applications of computational approaches to the study of biological molecules are encouraged to apply. Research programs of successful candidates will have a focus on the next generation of computational methodology to describe fundamental principles of molecular mechanisms in basic science and medicine.

Research in the department spans a wide range of topics including membrane proteins, molecular motors, nucleic acid/protein interactions, molecular structure and dynamics, and signal transduction. The university environment is rich with opportunities for collaboration in a wide range of disciplines. Additional information about the department is available at <http://www.biochem.wustl.edu>.

Applicants should email their curriculum vitae and a brief description of their research interests to the Search Committee at [search@biochem.wustl.edu](mailto:search@biochem.wustl.edu). Applicants should include contact information for three individuals who can write letters of recommendation. The committee will request letters as necessary. **Completed applications will be reviewed on a rolling basis, starting immediately. For full consideration, applications should be received by January 1, 2014.**

*Washington University is an Equal Opportunity Employer. We are committed to the recruitment of candidates traditionally underrepresented on university faculties. Individuals of any race, ethnicity, gender or sexual orientation are encouraged to apply, as are disabled individuals and veterans. The School of Medicine at Washington University is committed to finding solutions to global health problems, including ones that affect minority and disadvantaged populations.*

University of Minnesota  
Medical School

**INFECTIOUS DISEASES – VIROLOGY  
TENURE TRACK**

The Program in HIV Medicine at the University of Minnesota is recruiting for a full-time faculty member at the Assistant, Associate, or Full Professor level in the physician/scientist tenure track pathway to join the newly established Program in HIV Medicine. The mission of this program is to investigate innovative strategies that will contribute to curing HIV infection and fully restore immunity. The successful candidate will have a MD, PhD, or MD/PhD degree and will focus on creating an interdisciplinary, extramurally funded research program to identify mechanisms of viral persistence in tissue reservoirs of HIV infection. This individual will have the opportunity to collaborate with faculty in the Center for Immunology, Department of Microbiology, Center for Drug Design, Center for Infectious Disease and Microbiology Translational Research, and the Institute for Molecular Virology at the University of Minnesota. The successful candidate will also have the opportunity to provide outpatient care for HIV-infected patients at the University of Minnesota HIV/Infectious Diseases clinic (if a licensed MD in the State of Minnesota) and to do inpatient ID consulting. Salary will be commensurate with qualifications and expertise.

Applicants should send a letter of interest describing their research interests and expertise, along with current curriculum vitae and the names of three references, by e-mail to: **Timothy Schacker, MD, Director of the Program in HIV Medicine, c/o: Lisa Turnquist ([turnq007@umn.edu](mailto:turnq007@umn.edu)).**

*The University of Minnesota School of Medicine is an Equal Opportunity, Equal Access, Affirmative Action Employer.*
