About NUAA

Nanjing University of Aeronautics and Astronautics (NUAA) is a research-oriented national key university of “211 Project”. It also enjoys a well-balanced development of multiple disciplines in engineering, technology, natural sciences, economy, management and social sciences with the characteristics of aeronautics, astronautics and civil aviation. NUAA is qualified to be “Dominant Discipline Innovation Platform of 985 Project” and to independently recruit and receive international students who are granted the Chinese Government Scholarship. Now NUAA consists of 16 colleges with more than 3,000 staff members and approximately 26,000 degree students.

Academia and education at NUAA represent strong capacity among all the universities in China. It has acquired national status through the quality of its excellence research work, especially in the areas of Aerospace Engineering, Mechanics, Electromechanics, Economy and Management, etc.

NUAA gives a warm welcome to excellent experts, scholars and young students from both home and abroad, who are willing to serve the country, dedicate themselves to the development of aerospace science and make contributions to the industrialization, information technology of China. NUAA will provide teachers and researchers with a good academic environment, satisfactory working and living conditions and a stage on which they can put their talents to good use.

Faculty Positions Available in Southwest University, Chongqing, China

Southwest University is a national key university of the “211” project directly under the Ministry of Education. It is located in Chongqing, the youngest municipality of China. The university hosts approximately 50,000 students, covering undergraduate, postgraduate and other programs. For more detailed information, please visit the website: http://www.swu.edu.cn/#

Applications for full-time professors, associate professors and distinguished scientists are welcome. Competitive salaries and start-up funds will be provided to successful candidates, in line with the national Recruitment Program of Young Experts.

The Recruitment Program of Young Experts (i.e. the Plan for Recruiting 1,000 Professorship for Young Talents): The candidates are required to be under the age of 40 and have obtained a PhD degree in a world-renowned university with at least 3 years of research experience abroad, or have obtained a PhD degree in Mainland China with at least 5 years of research and teaching experience abroad. Special offers will be granted to those who have excellent research achievements during their doctoral study.

Further information is available at http://renshi.swu.edu.cn/rcgzbgs/
The Talents Recruitment Office, Southwest University, Beibei, Chongqing 400715, P. R. China. 0086-23-68254265.

Please kindly send applications or nominations in the form of an application letter enclosing a current CV to rencai@swu.edu.cn.
**LSU Health Shreveport**

**Faculty Positions in Microbiology and Immunology**

Two tenure track faculty positions at the rank of Assistant Professor or Associate Professor are open for scientists with a Ph.D., M.D. or M.D./Ph.D. and postdoctoral research experience. Responsibilities include teaching graduate and medical students and directing a nationally competitive research program in the areas of microbial pathogenesis and/or host defense mechanisms to infection. Ideal candidates will be those who have extramural funding and whose research integrates molecular aspects of pathogenesis with host defense mechanisms and the immune system. The Department faculty of 16 members directs a training program of 40 doctoral students and postdoctoral fellows and an NIH-funded Center for Molecular and Tumor Virology staffed with 18 interactive principal investigators in several Departments. Both the Department and the Center are well-equipped for molecular research and are augmented by the LSUHSC Research Core Facility that offers BSL-3PLUS laboratories and technologies such as flow cytometry, confocal microscopy, laser capture microdissection, DNA array analysis, proteomics, small animal imaging, and positron emission tomography. Information about the Department is provided at the two websites [http://www.lsuhsicmicrobiology.com](http://www.lsuhsicmicrobiology.com) and [http://www.lsuhsicmicrobiology.com/ctmt-overview.htm](http://www.lsuhsicmicrobiology.com/ctmt-overview.htm).

Applicants should send a curriculum vitae, statement of research goals and funding, and three letters of reference to: Dr. Dennis J. O’Callaghan, Boyd Professor & Head, Department of Microbiology and Immunology, LSU Health Sciences Center, 1501 Kings Highway, Shreveport, LA 71130-3932.

Louisiana State University is an Affirmative Action/Equal Opportunity Employer.

**Tufts University School of Medicine**

**Chair - Department of Integrative Physiology and Pathobiology**

Tufts University School of Medicine invites applications for Professor and Chairperson, Department of Integrative Physiology and Pathobiology. The candidate should have a Ph.D. or M.D. and be an internationally recognized scientist with an outstanding research program and a track record of institutional service and leadership at all levels.

The Department of Integrative Physiology and Pathobiology is a newly formed department of like-minded Tufts investigators. Members of the Department have an outstanding history in research and training, with expertise in tissue damage and repair, inflammation, immunity and regeneration. A core faculty of 20 well-funded researchers currently has $34 million in total costs for research from the NIH, foundations and industry. The Department is based in the Jahnens building and the Chair will be able to recruit new faculty into this modern research space, which also houses outstanding core facilities. An NIH-funded graduate training program in Immunology is based within the department, and departmental members are affiliated with eight other biomedical graduate programs.

This position provides an exciting opportunity to mold and develop the new department. The successful candidate is expected to embrace its wide-ranging interests and utilize new faculty recruitments to bring strength and focus in these areas. Candidates with the ability to develop a departmental research program in inflammation and chronic disease are of particular interest.

Please submit electronic applications including a CV, a statement of research interests and the names and contact information of at least three references by February 28, 2014 to:

[https://academicjobsonline.org/ajo/jobs/3773](https://academicjobsonline.org/ajo/jobs/3773).

Inquiries, but not application materials, may be directed to: IPPChairRecruitment@tufts.edu.

Tufts University is an Affirmative Action/Equal Opportunity employer, committed to increasing the diversity of our faculty.

---

**Medical University of South Carolina**

**DIRECTOR, CENTER FOR GENOMIC MEDICINE AND DIRECTOR, DARBY CHILDREN’S RESEARCH INSTITUTE**

The Medical University of South Carolina College of Medicine invites applications and nominations for the position of **PROFESSOR AND DIRECTOR** of the Center for Genomic Medicine and the Charles P. Darby Children’s Research Institute. Applicants must possess an MD and/or Ph.D. and have demonstrated administrative experience, strong leadership skills, an outstanding track record of extramural funding and accomplishment in research, and a commitment to education and academic excellence. The selected individual will have the experience and vision to lead multidisciplinary genomic programs across the College of Medicine as well as child health-related research.

The Director will promote and support basic, clinical, and translational research and training in genetics and genomics and will coordinate genomic resources across the College. This individual will also lead basic research in the Department of Pediatrics. A $2M endowed chair, the Charles P. Darby Chair for Pediatric Research, has been established for this position. More information regarding the Center for Genomic Medicine and Charles P. Darby Children’s Research Institute can be found at [http://dev.musc.edu/com-old/research/GenomicMedicine.pdf](http://dev.musc.edu/com-old/research/GenomicMedicine.pdf) and [http://www.musckids.org/pediatrics/research](http://www.musckids.org/pediatrics/research). The selected individual will report directly to the Dean of the College of Medicine and the Chair of the Department of Pediatrics.

The Medical University of South Carolina is in the midst of an exciting period of growth with NCI designation for the Hollings Cancer Center, a CTSA award, two new research buildings, and new clinical outreach facilities.

The Charles P. Darby Children’s Research Institute remains an integral part of the institution. This is an outstanding opportunity for the right candidate in a city known for its enviable quality of life. Nominations and inquiries may be directed to the search committee in care of Mary McConnell at mconnem@musc.edu. Interested individuals should submit a letter of interest, curriculum vitae, and the names and contact information of three references via the MUSC employment website at [http://www.jobs.musc.edu/postings/22569](http://www.jobs.musc.edu/postings/22569).

MUSC is an Equal Opportunity Employer, promoting workplace diversity.

---

**Seventh International Conference**

**SUMO, Ubiquitin, UBL Proteins: Implications for Human Diseases**

Organized by Edward T.H. Yeh and Guo-Qiang Chen

May 10-13, 2014

Shanghai, China
The Howard Hughes Medical Institute invites applications to its Investigator Program from scientists who have demonstrated originality and substantial accomplishments in biomedical research and who show exceptional promise for future achievement and leadership in research. The Institute seeks to appoint 20 to 25 outstanding scientists as HHMI investigators.

**Eligibility**

- PhD and/or MD (or the equivalent)
- Tenured or tenure-track position as an assistant professor or higher academic rank (or the equivalent) at an eligible US institution
- More than 5 but no more than 15 years of post-training, professional experience
- Principal investigator on one or more active national peer-reviewed research grants with a duration of at least 3 years

This competition is open to basic researchers and physician scientists who study significant biological problems in all biomedical disciplines, including plant biology, as well as in adjacent fields such as evolutionary biology, biophysics, chemical biology, biomedical engineering, and computational biology.

Additional information [www.hhmi.org/inv2015/sci](http://www.hhmi.org/inv2015/sci)

Deadline to establish eligibility: May 1, 2014, 3 PM ET

Deadline to submit application: June 3, 2014, 3 PM ET

---

**IOWA STATE UNIVERSITY OF SCIENCE AND TECHNOLOGY**

**Assistant Professor: Systems Biology of Plant-Microbe Interactions**

The Plant Pathology & Microbiology Department invites applications for an Assistant Professor in the area of Systems Biology of Plant-Microbe Interactions. This is one in a cluster of twelve Presidential High Impact Hires in the field of Big Data at Iowa State University.

We seek a creative individual who utilizes multidimensional datasets to investigate novel questions in pathogenic or symbiotic interactions between any type of microbe and its plant or plant-associated host(s). The incumbent will test hypotheses at multiple levels, integrating biochemical, synthetic, computational, and omics approaches. The successful candidate will establish an internationally recognized, externally-funded research program, teach in her or his area of expertise, and foster a culture of inclusion. Applications from women and members of underrepresented groups are encouraged.

This position is in an outstanding department on a highly collaborative campus. Iowa State University is located in Ames, Iowa, ranked as one of the most livable small cities in the nation.

To submit an application, see faculty vacancy number 131417 at [www.iastatejobs.com](http://www.iastatejobs.com). Consideration of applications will begin February 21, 2014, and position will start in the Fall of 2014. Send inquiries about this position to [plpsysb@iastate.edu](mailto:plpsysb@iastate.edu).

Iowa State University values diversity, supports work-life balance through an array of flexible policies, and is an AA/EO Employer.
AAAS is here –
promoting universal science literacy.

In 1985, AAAS founded Project 2061 with the goal of helping all Americans become literate in science, mathematics, and technology. With its landmark publications *Science for All Americans* and *Benchmarks for Science Literacy*, Project 2061 set out recommendations for what all students should know and be able to do in science, mathematics, and technology by the time they graduate from high school. Today, many of the state standards in the United States have drawn their content from Project 2061.

As a AAAS member, your dues help support Project 2061 as it works to improve science education. If you are not yet a member, join us. Together we can make a difference.

[aaas.org/plusyou/project2061](http://aaas.org/plusyou/project2061)

---

**Faculty Position in Translational Tumor Immunology**

The Wistar Institute, an NCI-designated Cancer Center and independent research institute in Philadelphia, is seeking outstanding candidates for faculty positions in the newly created program in Translational Tumor Immunology. We are seeking candidates at different ranks to develop or expand their extramurally-funded research programs in different areas of tumor immunology and tumor microenvironment.

Specific areas of interest include (but are not limited to): molecular and cellular mechanisms regulating immune responses in cancer; novel approaches to therapeutic manipulation of the immune system in cancer; the role of metabolic changes in the function of the immune system in cancer; the impact of conventional and targeted cancer therapeutics on the immune system; interaction between cells of the immune system and epithelium/endothelium/stroma. Interest in translational research is desirable.

The Wistar Institute, an NCI-designated Cancer Center, offers highly competitive start-up support including salary and fringe benefits in addition to a superb and interactive research environment, including a newly constructed state-of-the-art research tower and animal facility, along with outstanding core facilities in proteomics, genomics, microscopy, high-throughput molecular screening, bioinformatics, and flow cytometry. Investigators have access to wide range of clinical materials through a partnership with the Helen F. Graham Cancer Center, Newark, DE. The Institute’s location, adjacent to the University of Pennsylvania campus, provides for academic and clinical collaborations and opportunities for training graduate students from universities in the Philadelphia area.

Applications will be reviewed as received and will be accepted until the positions are filled. The application should include: a curriculum vitae, a brief summary of past and future research interests, a history of research funding support (if applicable), and the names of three referees (submitted as a single PDF). Applications should be sent by e-mail to: Dmitry Gablelovich, Search Committee Chair, c/o Maria Coletti (coletti@wistar.org), The Wistar Institute, 3601 Spruce Street, Philadelphia, PA 19104.

**For more information about us, visit our Web site at www.wistar.org**

---

**University of Florida Initiative in Neuroscience and Brain Research**

The University of Florida (UF) is recruiting preeminent faculty in a wide variety of brain and neuroscience research areas. This multidisciplinary search is in conjunction with UF’s Top 10 Initiative, with the goal of strategic faculty hires to further elevate our national academic and research standing to one of the top 10 public universities in the United States.

We seek 10-12 tenured and tenure-track colleagues (to be recruited at the associate and full professor ranks) to join faculty in the Colleges of Engineering, Liberal Arts & Sciences, Medicine, and Public Health & Health Professions who have expertise in one of our targeted areas:

1. **neuroimaging, cognitive, functional, and molecular mapping** of the central nervous system
2. **therapeutic and biomarker discovery** in neurodegenerative and neuromuscular diseases
3. **neuromuscular plasticity, neurorehabilitation, and neurotechnology**
4. **the “adaptive brain”**, including evolutionary, genetic, and epigenetic influences on brain structure and behavior

The brain and neuroscience research environment at UF is excellent and supported in part by the following programs:

- McKnight Brain Institute
- Center for Translational Research in Neurodegenerative Disease
- Center for NeuroGenetics
- VA Brain Research & Rehabilitation Center
- Center for Movement Disorders & Neurorestoration
- Institute on Aging
- Center for Addiction Research & Education
- Brain and Spinal Cord Injury Program
- Nanoscience Institute for Medical and Engineering Technology
- National High Magnetic Field Laboratory

Individuals may submit a letter of interest, detailed curriculum vitae, a statement of research, teaching goals and synergy with potential UF collaborators, and the names and email addresses of three or more references to NBR Search Committee c/o Ms. Lorie Martin, Phone: 352/273-6198; Email: lomartini@phhp.ufl.edu. Applications will be reviewed and considered on an ongoing basis until the positions are filled. The University of Florida is an Equal Opportunity Employer. The selection process will be conducted in accordance with Florida’s “Government in the Sunshine” and Public Records Laws.
**Postdoctoral Training in Multisensory Processes**

We seek strong candidates for postdoctoral training funded by an NIH T32 Training Grant. The training program provides a rich collaborative research environment that fosters interdisciplinary approaches to understanding how the brain integrates information from multiple senses to produce perception and adaptive behavior. Candidates with direct experience as well as those in related fields are encouraged to apply. Trainees will have access to any of 9 laboratories using human subjects and/or a variety of animal models (rodents-primates) with approaches spanning molecular/cellular to perceptual/behavioral. Fellowships are awarded on a competitive basis.

Applications including a current curriculum vitae or nominations should be sent to the Training Grant Director: Dr. Barry E. Stein (bestein@wakehealth.edu), or to its Co-Directors: Dr. Terrence R. Stanford (stanford@wakehealth.edu) and Dr. Dwayne Godwin (dgodwin@wakehealth.edu). Please also submit your application and CV to job opening 5432 at [www.wakehealth.edu/jobsearch/](http://www.wakehealth.edu/jobsearch/).

A description of the faculty and the program can be accessed via the website: [http://graduate.wfu.edu/admissions/332/training_t3mp.html](http://graduate.wfu.edu/admissions/332/training_t3mp.html)

Wake Forest School of Medicine is an Affirmative Action/Equal Opportunity Employer and especially encourages applications from women and minority candidates.

---

**FACULTY POSITION**

**Mood Disorders**

**CLINICIAN RESEARCHER**

Stony Brook University is launching an interdisciplinary faculty hiring initiative in affective neuroscience of anxiety and depression: [http://www.stonybrook.edu/commcms/clusterhires/clusters/canad.html](http://www.stonybrook.edu/commcms/clusterhires/clusters/canad.html)

Three tenure-track/tenured faculty positions are sought across Psychology, Neurobiology and Behavior, and Psychiatry departments. This hiring initiative focuses on understanding anxiety and depression in terms of fundamental disruptions in core neural systems related to emotion, especially threat and reward. The cluster of hires combined with existing strengths in each of the three lead departments will culminate in a world class multi-disciplinary group of scholars at Stony Brook University dedicated to research in the etiology, pathophysiology and treatment of depressive and anxiety disorders.

We are seeking an MD/PhD clinician researcher who would welcome the challenge of designing and implementing a program of research in mood disorders.

Stony Brook has a very large affected population with unmet clinical and research needs. Particular strengths of the institution are in epidemiology, services and outcomes research, all areas of animal high-resolution imaging and optical recording techniques and human imaging, such as fMRI and PET.

The additional two proposed tenure-track hires are described below. For all positions, we are particularly interested in applicants who study core neural systems relevant to anxiety and depression.

(1) **Developmental cognitive neuroscience of emotion**, to study the development of core emotion systems. We are particularly interested in applicants who study core neural systems from a developmental perspective using neuroimaging methods, but we will also consider strong candidates with other relevant interests and methods. [http://www.stonybrook.edu/commcms/clusterhires/searches/canad.html#1](http://www.stonybrook.edu/commcms/clusterhires/searches/canad.html#1)

(2) **Systems neurobiologist**, We are looking for a systems neuroscientist who utilizes the latest technologies (e.g., optogenetics, optoelectrophysiology, deep brain imaging) to study emotion in awake behaving animals.

Stony Brook University has excellent and rapidly expanding neuroimaging facilities for animal and human studies including a simultaneous PET/MRI and a research-dedicated 3T MRI. In addition, construction has begun on a cyclotron and radiochemistry facility that will incorporate a PET camera to be used solely for research purposes. This facility will be housed in a new 445,000-sq-ft. building dedicated to translational medicine and research. Information about the Psychology, Psychiatry, and Neurobiology and Behavior departments can be found at [http://www.psychology.sunysb.edu](http://www.psychology.sunysb.edu), [http://medicine.stonybrookmedicine.edu/neurobiology](http://medicine.stonybrookmedicine.edu/neurobiology), and [http://medicine.stonybrookmedicine.edu/psychiatry](http://medicine.stonybrookmedicine.edu/psychiatry), respectively.

Stony Brook is located in beautiful Suffolk County, on the North Shore of Long Island approximately 40 miles east of New York City. Stony Brook is a wonderful place to live and raise children, with abundant opportunities for recreation as well as ready access to Manhattan.

**Required**: MD with two years research experience and license to practice in the United States of America. Board Eligible/Board Certified in Psychiatry. Full time availability.

**Preferred**: MD and PhD with three years research experience and NIH funding. Licensed to practice in New York State and specialized in mood disorders.

To qualify for tenure and/or a senior faculty appointment, the candidate must meet the criteria established by the School of Medicine (School of Medicine’s Criteria for Appointment, Promotion and Tenure).

Applicants may submit a State employment application, cover letter, curriculum vitae to: Ramin V. Parsley, M.D., Ph.D., Chairman, Department of Psychiatry and Behavioral Science, Health Sciences Center; Level 10, Room #220, Stony Brook University, Stony Brook, NY 11794-8101, Fax: 631-444-1560. For further information visit [www.stonybrook.edu/jobs](http://www.stonybrook.edu/jobs) (Ref#: F-8118-13-09).

Stony Brook University/SUNY is an equal opportunity, affirmative action employer.
AAAS is here – helping scientists achieve career success.

Every month, over 400,000 students and scientists visit ScienceCareers.org in search of the information, advice, and opportunities they need to take the next step in their careers.

A complete career resource, free to the public, Science Careers offers a suite of tools and services developed specifically for scientists. With hundreds of career development articles, webinars and downloadable booklets filled with practical advice, a community forum providing answers to career questions, and thousands of job listings in academia, government, and industry, Science Careers has helped countless individuals prepare themselves for successful careers.

As a AAAS member, your dues help AAAS make this service freely available to the scientific community. If you’re not a member, join us. Together we can make a difference.

Founding Chair and Tenured Full Professor, Department of Biomedical Engineering, The George Washington University, Washington, D.C.

The George Washington University invites applications for a tenured full-professor position as Chair of the Department of Biomedical Engineering, to begin in full semester fall 2014 after moving the longstanding ABET-accredited B.S. program, and the M.S. and Ph.D. BME programs, from the Department of Electrical and Computer Engineering. The University is constructing a new 500,000 square-foot Science and Engineering Hall, adjacent to the University Hospital and the Schools of Medicine and of Public Health, which will house state-of-the-art clean rooms, imaging facilities, and BME research and instructional laboratories. The School of Engineering and Applied Science will move into the building in spring 2015. The George Washington University is located in the nation’s capital, with close access to many federal funding agencies and government research laboratories.

Responsibilities: The successful candidate will be expected to demonstrate an intense commitment to excellence in teaching and research and to the success of our students. Equally, the new Chair will vigorously catalyze and develop further the Department’s collaborations with the Schools of Medicine and of Public Health, and the GWU Hospital, attract new partners across the University, and advance and extend the existing relationships with nearby government laboratories. The new Chair will be an enthusiastic proponent of creativity, innovation, and outreach, and be an effective advocate and spokesperson for the Department, both within and beyond the University.

Basic Qualifications: Applicants must have an earned doctorate in Biomedical Engineering, Bioengineering, or a related field; outstanding research and academic achievements that make the candidate suitable for appointment as a full professor; a demonstrated capability as a visionary leader, with a strong research portfolio that evidences multi-disciplinary expertise, which can complement and expand existing departmental strengths; and the proven ability to teach effectively at both the graduate and undergraduate levels. Applicants must have evidence of substantial management ability and experience in a multi-faceted academic environment that includes success in mentoring of students and faculty, proposal writing, and grant management.

Application Procedure: To apply, complete the online faculty application at http://www.gwu.jobs/postings/19290 and upload a cover letter, a detailed CV or resume, a concise statement of teaching and research interests, and full contact information for five professional references. Please also indicate your primary area(s) of expertise and interest, and desired professorial rank. Only complete applications will be considered. Review of applications will begin on February 17, 2014 and will continue until the position is filled.

EEO/AA Policy: The George Washington University is an Equal Opportunity and Affirmative Action Employer. Applications from women and under-represented minority groups are strongly encouraged.

Assistant Professor (Tenure Track), Department of Biomedical Engineering, The George Washington University, Washington, D.C.

The George Washington University invites applications for a tenure-track assistant-professor position in the Department of Biomedical Engineering, to begin in fall semester 2014. This is an exciting opportunity for an outstanding person to join and contribute to the development of a new BME department. All areas of BME specialization will be considered. The Department will open formally in fall 2014 after moving the longstanding ABET-accredited B.S. program, and the M.S. and Ph.D. BME programs, from the Department of Electrical and Computer Engineering. The University is constructing a new 500,000-square-foot Science and Engineering Hall, adjacent to the University Hospital and Schools of Medicine and of Public Health, which will house state-of-the-art clean rooms, imaging facilities, and BME research and instructional laboratories. The School of Engineering and Applied Science will move into the building in spring 2015. The George Washington University is located in the nation’s capital, with close access to many federal funding agencies and government research laboratories.

Responsibilities: The successful candidate will be expected to be an enthusiastic and effective teacher of undergraduate and graduate courses in Biomedical Engineering and, equally, to establish a strong program of high-quality externally-funded research. BME faculty members actively contribute to an environment that values diversity and nurtures collaboration, creativity, and innovation. The new professor will have opportunities to actively support the Department’s efforts to attract new multidisciplinary partners across the University, and to advance and extend existing relationships with nearby government laboratories.

Basic Qualifications: Applicants must have an earned doctorate in Biomedical Engineering, Bioengineering, or a related field, outstanding academic credentials, clear evidence of potential for developing a strong externally-funded research program (as evidenced in part by peer-reviewed publications), and the ability to teach effectively at both the graduate and undergraduate levels. ABD applicants will be considered, but must complete all the requirements for the Ph.D. by expected start date.

Application Procedure: To apply, complete the online faculty application at http://www.gwu.jobs/postings/19294 and upload a cover letter, a detailed CV or resume, a concise statement of teaching and research interests, and full contact information for five professional references. Please also indicate your primary area(s) of expertise and interest, and desired professorial rank. Only complete applications will be considered. Review of applications will begin on February 17, 2014 and will continue until the position is filled.

EEO/AA Policy: The George Washington University is an Equal Opportunity and Affirmative Action Employer. Applications from women and under-represented minority groups are strongly encouraged.
Born in 1564, Galileo Galilei once contemplated a career in the priesthood. It's perhaps fortunate for science that upon the urging of his father, he instead decided to enroll at the University of Pisa. His career in science began with medicine and from there he subsequently went on to become a philosopher, physicist, mathematician, and astronomer, for which he is perhaps best known. His astronomical observations and subsequent improvements to telescopes built his reputation as a leading scientist of his time, but also led him to probe subject matter counter to prevailing dogma. His expressed views on the Earth's movement around the sun caused him to be declared suspect of heresy, which for some time led to a ban on the reprinting of his works.

Galileo's career changed science for all of us and he was without doubt a leading light in the scientific revolution, which is perhaps why Albert Einstein called him the father of modern science.

Want to challenge the status quo and make the Earth move? At *Science* we are here to help you in your own scientific career with expert career advice, forums, job postings, and more — all for free. For your career in science, there's only one *Science*. Visit ScienceCareers.org today.

A POSTDOCTORAL POSITION is available at the University of Maryland School of Medicine, to investigate serotonin-mediated plasticity at corticostriatal synapses in a mouse model of dyskinesia/Parkinson’s disease. Research in the laboratory utilizes modern neuroscience techniques including whole-cell patch-clamp recordings/optogenetics, cyclic voltammetry, and behavior/optogenetic approaches. We are seeking a highly motivated candidate with practical experience in slice electrophysiology and/or mouse behavior. Experience with stereotaxic surgeries is desired, but not required. Interested candidates should send a cover letter, curriculum vitae, and contact information for three references to Brian N. Mathur, Ph.D., e-mail: bmathur@som.umaryland.edu.

University of California, Merced School of Engineering: Materials Science and Engineering tenure-track faculty position at the ASSISTANT PROFESSOR rank. Unique opportunity for one individual to join the faculty in the School of Engineering at the new University of California campus. Research focus for this position is Biological/Bio-Materials, broadly defined. Applicants with Ph.D. in Materials Science and Engineering or closely related discipline preferred. To apply, or for more information, please visit our website: http://jobs.ucmerced.edu/r/academic/position.jsf?positionId=5090. Evaluation of applications will begin February 15, 2014. Affirmative Action/Equal Opportunity Employer.
