

Introducing the new **Science Careers Jobs** app from Science

Jobs are updated 24/7

Search thousands of jobs on your schedule

Receive push notifications based on your job search criteria

Get a job on the go.

Search thousands of scientific jobs in academia, industry, and government from around the globe. Keep your finger on the pulse of your field by setting up an alert for the type of job you are looking for and receive push notifications when jobs are posted that meet your criteria. The seamless application process includes linking you directly to job postings from your customized push notifications.

DIRECTOR OF RESEARCH Department of Anesthesiology

We invite scientists with outstanding research accomplishments to apply for a tenure track position as Director of Research in the Department of Anesthesiology. Research facilities and resources will be provided commensurate with the accomplishments and research goals of the successful candidate; the position is supported in part by the Distinguished Research Professor Chair. A record of significant peer reviewed publications and external funding is essential. Responsibilities include leading a vigorous research program, as well as the development of research activities and mentoring of research faculty, residents and students. With the major expansion of research at Weill Cornell (<http://weill.cornell.edu/research/index.html>) interactions with investigators in other departments are encouraged. Research areas relevant to anesthesiology will be considered with a focus on neuroscience including pain mechanisms and therapy, neuropharmacology and neurophysiology. Interested candidates should send their curriculum vitae, names of three references, and research plan to Hugh Hemmings M.D. Ph.D., Chair at anes-search@med.cornell.edu.
