Online tools to help your students analyze a professional research paper!

Tell me and I forget. Teach me and I remember. Involve me and I learn. -- Benjamin Franklin

Featuring over 6 research papers at any given time, *Science in the Classroom* is specifically designed to help young researchers understand the structure and workings of professional scientific research.

Learn for yourself how *Science in the Classroom* can help your students deepen their understanding of scientific research. **Visit scienceintheclassroom.org today.**
