NEWS

IN BRIEF
122 Roundup of the week’s news

IN DEPTH
125 UNCONTACTED TRIBE EMERGES
Anthropologists worry about the threat from infections and resource conflicts
By H. Pringle

126 MEDICAL ISOTOPES CONFOUND
NUCLEAR TEST MONITORING
Medical isotope plants vow to cut xenon emissions
By C. Wald

127 CONFLICT OVER BRAIN PROJECT
Hundreds of scientists threaten to boycott the Human Brain Project
By M. Enserink and K. Kupferschmidt

128 INDIA PLANS GRAND CANALS
Nationwide water network could aid farms but harm environment
By P. Bagla

129 RIP FOR A KEY HOMO SPECIES?
Questioning a claimed common ancestor of Neandertals and modern humans
By M. Balter

FEATURE
130 MONKEY FEVER UNBOUND
The spread of an emerging virus sounds alarm bells in India
By R. Stone

INSIGHTS

PERSPECTIVES
134 TAKING THE PULSE OF OCEAN MICROBES
Gene expression patterns of open-ocean microbes are tightly coupled
By E. V. Armbrust

136 A FITNESS BOTTLENECK IN HIV-1 TRANSMISSION
Infection is linked to how close a viral genome is to an ideal sequence
By S. B. Joseph and R. Swanstrom

137 LOW-ENERGY ELECTRON DIFFRACTION
AT ULTRAFAST SPEEDS
Structural changes in a thin polymer film can be quickly resolved
By E. T. J. Nibbering

138 AN OPTICAL TWIST FOR TRIPLET SUPERCONDUCTORS
Optical measurements may reveal the secrets of exotic superconductivity
By D. van der Marel and G. A. Sawatzky

139 A FLIPPING CELL WALL FERRY
How bacteria “flip” carbohydrate precursors across the cytoplasmic membrane
By K. D. Young

141 HEPATITIS C CAN BE CURED GLOBALLY,
BUT AT WHAT COST?
New drugs to cure hepatitis C should be made available at low costs in developing countries
By A. Hill and G. Cooke

142 FISHING FOR PEROXIDASE PROTONS
Where are the protons in heme protein catalysis?
By J. T. Groves and N. C. Boaz

143 PERSISTENCE BY PROLIFERATION?
Latently HIV-infected cells may challenge eradication strategies
By D. Margolis and F. Bushman

SPECIAL SECTION
Strategies against HIV/AIDS

INTRODUCTION
152 Australia shows its neighbors how to stem an epidemic

NEWS
Stories by J. Cohen
156 First, do harm reduction
157 The limits of success
158 In PNG, the epidemic that wasn’t
160 Prevention, Papua New Guinea style
161 The circumcision conundrum
162 A consummate insider pushes ideas from outside Indonesia
164 Malaysia tries to follow Australia’s path

OPINION
166 End of AIDS—Hype versus hope
By W. M. El-Sadr et al.

PERSPECTIVE
167 A critical question for HIV vaccine development: Which antibodies to induce?
By S. Zolla-Pazner

REVIEW
169 Immunologic strategies for HIV-1 remission and eradication
By D. H. Barouch and S. G. Deeks

ON THE COVER
Transgender sex workers in Jakarta. This “key affected population” has high HIV prevalence but is largely ignored by government efforts. Australia, in contrast, has aggressively targeted its prevention interventions to high-risk groups. See page 152. Photo: Romeo Gacad/Agence France-Presse/Getty Images
