INTRODUCTION
742 A legacy that transcends genes

NEWS
744 Unsettled questions trail IVF’s success By K. Servick

745 Nature’s first functional food By T. Gura

750 The taste of things to come By E. Underwood

752 An experiment in zero parenting By E. Marshall

ON THE COVER
Babies are produced by contributions from both parents. More and more we are beginning to realize that such contributions go well beyond mere genes, with nurture, environment, and even the parents’ own physiology and experiences shaping offspring and their preparedness for life ahead. See page 742. Photo: © imageBROKER/Alamy
