NEWS

IN BRIEF
856 Roundup of the week’s news

IN DEPTH
859 STUDY EXPOSES CHINESE CENSORS’ Deepest fears
The power of the masses proves most unnerving By M. Hvistendahl ▶ RESEARCH ARTICLE P. 891

860 IS ATLANTIC HOLDING EARTH’S missing heat?
New leads in the hunt to explain the global warming hiatus By E. Kintisch ▶ RESEARCH ARTICLE P. 897

861 A ONE-TWO PUNCH AGAINST POLIO
Injected vaccine promises a boost for eradication By L. Roberts ▶ REPORT P. 903

862 WHEELS WHEN YOU NEED THEM
Can special algorithms help keep shared bicycles rolling? By C. Wald

864 WOLVES COOPERATE BUT DOGS SUBMIT, STUDY SUGGESTS
Dependence may have driven initial dog domestication By V. Morell

FEATURE
865 THE CANCER DRUG THAT ALMOST WASN’T
A neglected compound that blocks cell division stirs excitement By K. Garber

INSIGHTS

PERSPECTIVES
868 IMPRINT OF AN ANCIENT CONFLAGRATION
Evidence is found for the massive stars that populated the early universe By V. Bromm ▶ REPORT P. 912

870 CARBON CYCLING IN THE ARCTIC
Sunlight drives the emission of carbon from arctic waters By L. Tranvik ▶ REPORT P. 925

871 A PHOTON STEERS A PHOTON WITH AN ATOM
Nonlinear optics with single quanta of light and matter becomes reality By G. Rempe ▶ REPORT P. 903

872 GLACIER RETREAT CROSSES A LINE
Mountain glacier loss since the 1970s has mostly been caused by human influences on climate change By S. Marshall ▶ REPORT P. 919

873 BOOSTING GDP GROWTH BY ACCOUNTING FOR THE ENVIRONMENT
Including air pollution and greenhouse gas damages increases estimated U.S. growth By N. Z. Muller

875 MAKING PHLOEM—A NEAR-DEATH EXPERIENCE
How to get rid of the phloem cell nucleus to make a root-to-shoot tip transport system By N. Geldner ▶ REPORT P. 933

876 RIBOSWITCH REGULATES RNA
Nutrient metabolism in bacteria is controlled by a circuit in which RNA is regulated by RNA By J. Chen and S. Gottesman ▶ REPORTS PP. 937 & 940

878 SENSING NECTAR’S SWEETNESS
A taste receptor evolves to sense sugar in adapting to the diet of some birds By P. Jiang and G. K. Beauchamp ▶ REPORT P. 929

879 HOW DO CORAL REEFS RECOVER?
Experiments on juvenile coral and fish behavior may have implications for reef restoration efforts By J. F. Bruno ▶ RESEARCH ARTICLE P. 892

881 JOEP LANGE (1954–2014)
A leader in developing therapy for AIDS is tragically killed By J. Goudsmit

BOOKS ET AL.
882 MORALITY FOR HUMANS
By M. Johnson, reviewed by L. Beldo

883 THE ENTREPRENEURIAL STATE
By M. Mazzucato, reviewed by D. Consoli

LETTERS
884 FAUNA IN DECLINE: PLIGHT OF THE PANGOLIN
By Y. Liu and Q. Weng

884 FAUNA IN DECLINE: FIRST DO NO HARM
By A. Ricciardi and D. Simberloff

885 FAUNA IN DECLINE: GLOBAL ASSESSMENTS
By H. Mooney and H. Tallis

885 AILING ACADEMIA NEEDS CULTURE CHANGE
By V. Callier and N. L. Vanderford

885 LET MINORITY-SERVING INSTITUTIONS LEAD
By F. Jackson et al.

DEPARTMENTS
885 EDITORIAL
A swan in the making By Timothy Gardner

974 WORKING LIFE
Playing a new tune By Jim Austin
SCIENCE (ISSN 0036-8075) is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1200 New York Avenue, NW, Washington, DC 20005. Periodicals mail postage (publication No. 484460) paid at Washington, DC, and additional mailing offices. Copyright © 2014 by the American Association for the Advancement of Science. The title SCIENCE is a registered trademark of the AAAS. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that $30.00 per article is paid directly to CCC, 222 Rosewood Drive, Danvers, MA 01923. The identification code for Science is 0036-8075. Science is indexed in the Reader’s Guide to Periodical Literature and in several specialized indexes.

876, 937, & 940

Riboswitch-based regulation

RESEARCH

IN BRIEF

868 From Science and other journals

REVIEW

889 STEM CELL THERAPY
Use of differentiated pluripotent stem cells in replacement therapy for treating disease I. J. Fox et al.

RESEARCH ARTICLES

891 POLITICAL SCIENCE
Reverse-engineering censorship in China: Randomized experimentation and participant observation G. King et al.

892 REEF ECOLOGY
Chemically mediated behavior of recruiting corals and fishes: A tipping point that may limit reef recovery D. L. Dixson et al.

897 CLIMATE
Varying planetary heat sink led to global-warming slowdown and acceleration X. Chen and K.-K. Tung

868 & 912

REPORTS

903 QUANTUM OPTICS
All-optical routing of single photons by a one-atom switch controlled by a single photon I. Shimomori et al.

906 HELIUM SUPERFLUIDITY
Shapes and vorticities of superfluid helium nanodroplets L. F. Gomez et al.

909 NANO PARTICLE IMAGING
Electron microscopy of gold nanoparticles at atomic resolution M. Azubel et al.

912 MASSIVE STARS
A chemical signature of first-generation very massive stars W. Aoki et al.

916 NANO PARTICLE GROWTH
Facet development during platinum nanocube growth H.-G. Liao et al.

919 GLACIERS
Attribution of global glacier mass loss to anthropogenic and natural causes B. Marzeion et al.

922 POLIO ERADICATION
Efficacy of inactivated poliovirus vaccine in India H. Jafari et al.

925 CARBON CYCLE
Sunlight controls water column processing of carbon in arctic fresh waters R. M. Cory et al.

929 SENSORY BIOLOGY
Evolution of sweet taste perception in hummingbirds by transformation of the ancestral umami receptor M. W. Baldwin et al.

933 PLANT DEVELOPMENT
Arabidopsis NAC6/86 direct sieve element morphogenesis culminating in enucleation K. M. Furuta et al.

ON THE COVER

Tropical corals and reef fishes (like the fish Priacanthus sp. and the coral Turbinaria mesenterina shown here) are in global decline. Recovery in degraded reefs may be limited because dispersing juveniles from these groups are attracted to chemical cues produced by organisms in healthy reefs and are repelled by cues from seaweeds in degraded areas. See pages 879 and 892. Photo: Tim Laman/ National Geographic Creative
