UNIVERSITY OF UTAH
SCHOOL OF MEDICINE

Tenure-track Assistant or Associate Professor of Genetics/Genome Sciences

The Department of Human Genetics at the University of Utah School of Medicine (www.genetics.utah.edu) seeks outstanding applicants for tenure-track positions at the level of Assistant or Associate Professor. We are looking for a highly creative scientist who uses genetics to investigate fundamental biological problems. We especially encourage applicants whose research focuses on human and medical genetics using functional, computational, or evolutionary genomics and/or model organisms. As part of a vibrant community of collaborative faculty on campus, the Department of Human Genetics lies at the interface between basic and clinical sciences, creating ample opportunities for interdisciplinary studies (e.g., the newly formed Center for Genetic Discovery). Our institution is set in a unique recreational and geographical landscape that attracts a very diverse and productive scientific community. Successful candidates will receive a generous startup package and enjoy a stimulating research environment that places a strong emphasis on innovation and interaction.

Our submission deadline is **November 14, 2014**. To apply, please see the following website: <http://utah.peopleadmin.com/postings/35937>. For questions regarding this posting or your application, please contact Natalie Johnson at: njohnson@genetics.utah.edu

The University of Utah is an Affirmative Action/Equal Opportunity employer and does not discriminate based upon race, national origin, color, religion, sex, age, sexual orientation, gender identity/expression, status as a person with a disability, genetic information, or Protected Veteran status. Individuals from historically underrepresented groups, such as minorities, women, qualified persons with disabilities and protected veterans are encouraged to apply. Veterans' preference is extended to qualified applicants, upon request and consistent with University policy and Utah state law. Upon request, reasonable accommodations in the application process will be provided to individuals with disabilities. To inquire about the University's nondiscrimination or affirmative action policies or to request disability accommodation, please contact: Director, Office of Equal Opportunity and Affirmative Action, 201 S. Presidents Circle, Rm 135, (801) 581-8365.

The University of Utah values candidates who have experience working in settings with students from diverse backgrounds, and possess a [strong or demonstrated] commitment to improving access to higher education for historically underrepresented students.

The University of Utah Health Sciences Center is a patient-focused center distinguished by collaboration, excellence, leadership, and respect. The Health Sciences Center values candidates who are committed to fostering and furthering the culture of compassion, collaboration, innovation, accountability, diversity, integrity, quality, and trust that is integral to the mission of the University of Utah Health Sciences Center.

THE GEORGE
WASHINGTON
UNIVERSITY
WASHINGTON, DC

Faculty Positions in Computational Biology and Bioinformatics

The newly established Computational Biology Institute at the George Washington University seeks founding faculty members to establish externally funded, internationally recognized, and interdisciplinary research programs in bioinformatics and/or computational biology. There are two open tenure-track faculty positions at any academic level, and we seek applicants concentrating in the areas of genome analysis, biodiversity informatics, translational medicine, and systems biology developing methods to address 'big data' issues from a computational perspective.

Basic Qualifications: Applicants must have an MD or PhD in Bioinformatics, Computational Biology, Computer Science, Mathematics, Genomics, or related discipline, with postdoctoral research experience, evidence of success in obtaining extramural funding, and a solid publication track record.

Successful candidates will enjoy joint appointments at the CBI and an affiliated academic department (e.g., Biochemistry, Biological Sciences, Biophysics, CASHP, Computer Engineering, Computer Science, Integrated Systems Biology, Mathematics, Microbiology, Statistics, etc.) upon approval and have opportunities to establish partnerships with regional research centers of excellence, including Children's National Medical Center, NIST, Janelia Farm, INOVA hospital system, Naval Research Laboratory, the Smithsonian, and the NIH intramural research program.

Application Procedure: Applicants should submit an electronic application, and upload a cover letter emphasizing specific qualifications, a curriculum vitae, a description of research interests, and names and contact information of 3 references at: <http://www.gwu.jobs/postings/24171>. Review of applications will begin on **November 19, 2014** and will continue until positions are filled. Only complete applications will be considered. For further information about the Computational Biology Institute at George Washington University, please see <http://cbi.gwu.edu>. Employment offers are contingent on the satisfactory outcome of a standard background screening. For questions relating to this opportunity, please contact **Keith Crandall, Director, Computational Biology Institute, The George Washington University**, kcrandall@gwu.edu.

The university is an Equal Employment Opportunity/Affirmative Action Employer that does not unlawfully discriminate in any of its programs or activities on the basis of race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, gender identity or expression, or on any other basis prohibited by applicable law.
