Assistant/Associate Professor, Cancer Precision Medicine

The Department of Medical Oncology at the Dana-Farber Cancer Institute (DFCI) invites applications for a full-time position. Appointment at the Assistant or Associate Professor level at Harvard Medical School will be commensurate with academic accomplishment. This individual will develop an independent, laboratory-based translational research program. The application of "liquid biopsy" approaches (e.g., circulating tumor cells or cell-free DNA) is of particular interest. Expertise in hematologic malignancies is a plus, though investigators with solid tumor expertise may also apply. The successful candidate will join the newly-formed Center for Cancer Precision Medicine and either the Division of Molecular and Cellular Oncology or the Division of Hematologic Neoplasia. The research program will also interface closely with ongoing translational research within the Departments of Pathology, Radiology and Surgery at the Brigham and Women's Hospital. Candidates with an interest in isolation and comprehensive genomic/molecular characterization of circulating tumor cells or cell-free DNA from cancer patients are especially encouraged to apply. Prior experience in team-based cancer genomics projects is a plus. The candidate must have an MD and/or PhD and a proven track record of outstanding laboratory research.

The candidate will work principally at the Dana-Farber Cancer Institute and the Brigham and Women's Hospital, while also collaborating closely with the Broad Institute of Harvard and MIT. Salary and benefits will be competitive with other institutions. Candidates should be board certified or board eligible in Internal Medicine and Medical Oncology. Dana-Farber Cancer Institute is an NCI-designated Comprehensive Cancer Center.

Interested candidates must submit a curriculum vitae, a research plan and 3 letters of reference to: Levi A. Garraway, MD, PhD, Director, Center for Cancer Precision Medicine, Dana-Farber Cancer Institute, 450 Brookline Avenue, Boston, MA 02215. Please send submissions via email to: ccpmsearch@partners.org

Boston, MA

Northeastern

Associate/Full Professor Pharmacology

Department of Pharmaceutical Sciences

The Northeastern University Bouvé College of Health Sciences' Department of Pharmaceutical Sciences seeks candidates for a full-time tenured faculty position at the associate or full professor level. The Department has strengths in neuropharmacology, immunology, medicinal chemistry, pharmaceuticals, imaging, drug discovery, development and delivery, and it seeks candidates able to complement, collaborate, and expand these areas of strength. Qualified candidates must hold a Ph.D. in pharmacology or related specialty field and will have an extramurally-funded research program in one of the areas of pharmacology named above. Applicants with transferable funding will be given priority.

To apply, visit <http://apptrkr.com/553476>

Northeastern University is an Equal Opportunity/Affirmative Action, Title IX, and an ADVANCE institution. Minorities, women, and persons with disabilities are strongly encouraged to apply. Northeastern University is an E-Verify employer
