What makes *Science* the best choice?

- Read and respected by 570,400 readers around the globe
- 78% of readers read *Science* more often than any other journal
- Your ad sits on specially labeled pages to draw attention to the ad
- Your ad dollars support AAAS and its programs, which strengthens the global scientific community.

Why choose this microbiology section for your advertisement?

- Relevant ads lead off the career section with special Microbiology banner

Expand your exposure.
Post your print ad online to benefit from:

- Link on the job board homepage directly to microbiology jobs
- Dedicated landing page for jobs in microbiology
- Additional marketing driving relevant job seekers to the job board.

Facility Positions Available at Southwest Jiaotong University, P.R.China Anticipates Your Working Application

Southwest Jiaotong University (SWJTU), founded in 1896, situates itself in Chengdu, the provincial capital of Sichuan. It is a national key multidisciplinary “211” and “985 Feature” Projects university directly under the jurisdiction of the Ministry of Education, featuring engineering and a comprehensive range of study programs and research disciplines spreading across more than 20 faculties and institutes/centers. Boasting a complete Bachelor-Master-Doctor education system with more than 2,500 members of academic staff, our school also owns 2 first-level national key disciplines, 2 supplementary first-level national key disciplines (in their establishment), 15 first-level doctoral programs, 43 first-level master programs, 75 key undergraduate programs, 15 post-doctoral stations and more than 40 key laboratories at national and provincial levels.

Our university is currently implementing the strategy of “developing and strengthening the university by introducing and cultivating talents”. Therefore, we sincerely look forward to your working application.

More information available at http://www.swjtu.edu.cn

I. Treatments

A. High-level Leading Talents

It is required that candidates be listed in national top talents programs such as Program of Global Experts, Top Talents of National Special Support Program, “Chang Jiang Scholars”, China National Funds for Distinguished Young Scientists and National Award for Distinguished Teacher.

Candidates are supposed to be no more than 50 years old. The limitation could be extended in the most-needed areas of disciplinary development.

Candidates who work in high-level universities/institutes and reach the above requirements are supposed to be no more than 45 years old.

B. Young Leading Scholars

Candidates are supposed to be listed or qualified to apply for the following programs:
National Thousand Young Talents Program
The Top Young Talents of National Special Support Program/Program for Supporting Top Young Talents
Science Foundation for the Excellent Young Scholars

Candidates should have good team spirit and leadership, outstanding academic achievements, broad academic vision and international cooperation experience and have the potential of being a leading academic researcher.

C. Excellent Young Academic Backbone

Candidates under 40 years old are expected to graduate from high-level universities/institutes either in China or other countries. Those who are professors, associate professors and other equal talents from high-level universities/institutes overseas could be employed as professors and associate professors as well.

D. Excellent Doctors and Post Doctoral Fellows

Candidates under 35 years old are supposed to be excellent academic researchers from high-level universities either in China or other countries.

We are recruiting new faculty in basic medical sciences for our campus in Pomona, California (COMP-Pomona). The Department of Basic Medical Sciences provides the preclinical education for undergraduate programmes in preclinical medicine, veterinary science, and natural sciences (http://www.pdn.cam.ac.uk/research/). Applicants must have several years of excellent experience of teaching microbiology and have a record of extramural funding. Submit a current curriculum vitae and a covering letter of no more than two pages, outlining current and future plans, indicating the fit within the research profile of the Department and how you might contribute to our teaching. If you upload any additional documents which have not been requested, we will not be able to consider these as part of your application.

To apply online for this vacancy and to view further information about the role, please visit: http://www.jobs.cam.ac.uk/job/6620

Please ensure that, in the Upload section of the online application, you upload your Curriculum Vitae (CV), a research publication list which highlights your three most important published outputs, and a cover letter of no more than two pages, outlining current and future plans, indicating the fit within the research profile of the Department and how you might contribute to our teaching. If you upload any additional documents which have not been requested, we will not be able to consider these as part of your application.

Please quote reference PM05747 on your application and in any correspondence about this vacancy.

Closing Date: 30 June 2015

The University values diversity and is committed to equality of opportunity.

The University has a responsibility to ensure that all employees are eligible to live and work in the UK.

**Vision Researcher**

The UCSF Department of Epidemiology and Biostatistics and the Helen Diller Family Comprehensive Cancer Center invites applicants for the Director of the HDFCCC Biostatistics Core. The position will be appointed in the Department of Epidemiology and Biostatistics at the Assistant, Associate or Full Professor level, in either the In Residence or Adjunct series. The successful candidate will be expected to direct the operations of the Biostatistics Core of the Cancer Center, and to conduct original methodological research in biostatistical methods relevant to clinical, epidemiological or biological aspects of cancer.

The Biostatistics Core provides support for protocol development, review and analysis for clinical studies, and statistical expertise for research collaborations with Cancer Center investigators in all disciplines across the spectrum of basic, clinical and population sciences. The Core Director oversees Core operations, including the services provided by a group of biostatisticians, and works directly with Cancer Center leadership on setting goals and monitoring progress.

Academic appointment in the UCSF Department of Epidemiology and Biostatistics provides a supportive academic environment for original methodological research, including opportunities for collaboration with other Department researchers, as well as teaching and mentoring as part of the K Scholars program and the Epidemiology and Translational Science PhD program.

Requirements:

- Applicants should have a doctoral in Biostatistics, and/or a doctoral degree in a related field with Ph.D. level formal training in biostatistics; a publication record of research in statistical methods; and experience in design and analysis of clinical trials and/or cancer, genetics and/or other relevant statistical topics.

Candidates with a track record of obtaining extramural research support will be given preference. A background in adaptive methods for clinical trials and/or applications of computational biology to cancer is also desirable.

Please apply online (including Cover Letter, CV and names of three references) at: http://aptrkr.com/594913

UCSF seeks candidates whose experience, teaching, research, or community service has prepared them to contribute to our commitment to diversity and excellence. UCSF is an Equal Opportunity/Affirmative Action Employer.

**2x Chief/Principal Researchers:**

- 1x Polymer Nanocomposites
- 1x Advanced Nano-Materials for Gas Sensing

The National Centre for Nano-Structured Materials (NCNSM), based at the Council for Scientific and Industrial Research (CSIR) in Pretoria, South Africa, is looking to fill two senior posts: one to develop innovative polymer nanocomposite materials for industrial applications, and the other to play a senior role in developing sensor devices.

The CSIR is a leading scientific and technology research organisation, implementing projects throughout Africa and making a difference in people’s lives.

Please see the links below for more information:

- ref: 305356 and 305357

Deadline: 15 May 2015

**Epileptologist and Human Brain Neurophysiologist**

The Department of Neurology at Duke University School of Medicine seeks a BC/BE epileptologist with a significant research interest in human brain neurophysiology for an Assistant, Associate or Full Professor position. Track and rank will be commensurate with experience and potential. Applicants must have an MD, or MD/PhD degree and have demonstrated excellence in research and clinical care.

The successful applicant will be expected to be a productive scholar and national thought leader in epilepsy and brain physiology and will be expected to take advantage of both the extraordinary neuroscience community and the robust surgical epilepsy program at Duke. An appropriate start-up package will be provided to ensure the success of the applicant.

The Triangle Area of North Carolina, which includes Raleigh, Durham, and Chapel Hill, is consistently ranked among the best areas in the country to live. With its array of family-friendly activities, exceptional schools and universities, premier shopping, and Research Triangle Park’s high-tech research and development center, Raleigh/Durham has something for everyone.

Send CV and letter of interest to:

- richard.obrien@duke.edu
- and to neurology@duke.edu

---

**Tenure Track Faculty Position in Epigenomics**

The Department of Genetics and Genome Sciences at the University of Connecticut School of Medicine is seeking a highly qualified individual with an outstanding background in epigenetics and expertise in areas that include but are not limited to genome-wide studies of noncoding RNA, gene regulation and expression, DNA methylation, chromatin structure/function/organization and the analysis/interpretation of epigenomic data sets. The ideal candidate will build on our established strengths that include RNA biology, genomics (e.g. ENCODE) and translational research. The successful applicant will also develop his/her world-class research program in the context of the recently established Institute for Systems Genomics (http://isg.uconn.edu/) that coalesces the interdisciplinary research strengths of UConn’s schools and colleges (www.uconn.edu) and the Jackson Laboratory (www.jax.org). The Institute leverages the significant investment from the state, including the $865M Bioscience CT initiative, $172M Tech Park program, the $200M Bioscience Innovation Fund, and $1.5B Next Generation CT.

Applications are invited for a position at the Assistant, Associate or Full Professor level. Faculty will enjoy superb resources including a generous start-up package as well as state-of-the-art core facilities for human pluripotent stem cells, mouse transgenics and gene targeting, next-generation sequencing, flow cytometry, confocal microscopy and fluorescence imaging. The successful candidate will be expected to establish an independent and innovative research program that will attract extramural funding and to actively contribute to a rich scientific environment.

Candidates are invited to visit the departmental web page (http://genetics.uconn.edu) and should apply by submitting a curriculum vitae and three letters of reference via the University of Connecticut Health Center Employment Services website, [https://jobs.uconn.edu](https://jobs.uconn.edu), search number 2015-833. Questions regarding this search should be addressed to:

Marc Lalande Ph.D.,
Professor and Chair
