**DEPARTMENT OF IMMUNOLOGY TENURE STREAM POSITION**

Assistant Professor - 1500674

The Department of Immunology, University of Toronto invites applications for a tenure-stream appointment. The appointment will be at the rank of Assistant Professor and will begin on July 1, 2016, or shortly thereafter.

This new position is part of a continuing program to build on strength in Immunology. Outstanding applicants working in any area of Immunology complementary to our existing faculty www.immunology.utoronto.ca will be considered.

The successful candidate must have a Ph.D. or equivalent degree; postdoctoral experience; and evidence of successful research funding, publications in leading journals, and presentations at academic conferences. The successful candidate will be expected to mount an original, competitive and independently funded research program, and have a commitment to excellence in teaching at the undergraduate, medical and graduate level in Immunology.

Salary will be commensurate with qualifications and experience. The position will be located in the Medical Sciences Building on the downtown St. George campus of the University of Toronto.

All qualified candidates are invited to apply by clicking on the link below. Applications should include a cover letter, curriculum vitae, and a statement outlining current and future research goals. If you have questions about this position, please contact immunology.search@utoronto.ca. All application materials should be submitted online.

Submission guidelines can be found at: http://uoft.me/how-to-apply. We recommend combining attached documents into one or two files in PDF/MS Word format.

Applicants should also ask three referees to send letters directly to the department via e-mail to immunology.search@utoronto.ca by the closing date of August 28, 2015.

For information about the Department of Immunology see http://www.immunology.utoronto.ca

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

---

**Assistant Professor: Fish/Shellfish Immunology**

The Institute of Marine and Environmental Technology (IMET) of the University System of Maryland seeks applications for the position of Assistant Professor (tenure-track) working on fish/shellfish immunology. The successful candidate will have a track-record of outstanding research using molecular biology/genetics approaches to study fish and comparative immunity in species that are important to aquaculture and fisheries, or in species that are established animal models (i.e. zebrafish) for immunological studies that are relevant to both fish and human health. Candidates with an interest in practical applications of their fundamental research, including interactions with industry, are encouraged to apply. A demonstrated ability to establish a well-funded research program is expected of the successful candidate. This appointment will be at the University of Maryland Baltimore. The primary focus of the appointee will be on research; teaching at the graduate level is encouraged.

IMET’s mission is to study the biology of coastal marine biosystems and ensure their sustainable use, as well as exploit marine-derived systems to improve human health (www.imet.usm.md.edu). IMET brings together faculty members from three major USM research institutions - the University of Maryland Baltimore (UMB), the University of Maryland Baltimore County (UMBC), and the University of Maryland Center for Environmental Science (UMCES) - in an integrated state-of-the-art research facility located at Baltimore’s Inner Harbor.

A Ph.D. or equivalent terminal degree is required in molecular biology, microbiology, aquatic pathology or related fields and candidates should have postdoctoral experience and a strong publication record. Applicants should send the following in a single PDF file to Russell Hill, Director, IMET; email to imetdirectorsoffice@umces.edu: (1) detailed curriculum vitae, (2) statement of research interests and goals and (3) names and contact details of three to five references. To receive full consideration, application materials should be submitted by 14 August 2015 (the position will be open until filled).

The USM is an Equal Opportunity, Affirmative Action Employer. The University of Maryland, Baltimore is an Equal Opportunity/Affirmative Action Employer. Minorities, women, individuals with disabilities, and protected veterans are encouraged to apply.
Explore the Amgen Difference
At Our Expanded Facilities in Cambridge and South San Francisco

If you're seeking a career where you can truly make a difference in the lives of others, a career where you can work at the absolute forefront of biotechnology with the top minds in the field, you'll find it at Amgen.

Amgen is committed to unlocking the potential of biology for patients suffering from serious illnesses by discovering, developing, manufacturing and delivering innovative human therapeutics. This approach begins by using tools like advanced human genetics to unravel the complexities of disease and understand the fundamentals of human biology.

Amgen focuses on areas of high unmet medical need and leverages its biologics manufacturing expertise to strive for solutions that improve health outcomes and dramatically improve people's lives. A biotechnology pioneer since 1980, Amgen has grown to be one of the world’s leading independent biotechnology companies, has reached millions of patients around the world and is developing a pipeline of medicines with breakaway potential.

Amgen is a biotechnology pioneer with a mission to serve patients. If you're ready for your next step, join us at one of our expanded facilities in Cambridge, MA or South San Francisco, CA.

JOB FOCUS: IMMUNOLOGY

UCDAVIS
SCHOOL of MEDICINE
FACULTY POSITION
Department of Medical Microbiology and Immunology

The Department of Medical Microbiology and Immunology (MMI), School of Medicine, University of California, Davis is engaged in research investigations on human infectious diseases and host immune interactions with pathogens and commensal microbiota. The MMI Department is seeking candidates for one full-time tenure-track academic position at the rank of Assistant or Associate Professor in the tenure track series. Successful candidates must have a Ph.D., and/or M.D. with postdoctoral experience and a record of research publications. Applicants must have active research programs involving human infectious diseases (emphasis on pathogens or resident microbiota or immunology or immunogenetics). Candidates are expected to establish and maintain a strong extramurally funded research program and to actively participate in the academic and service missions of the University. Candidates must possess excellent interpersonal and communication skills and demonstrated ability to work with others in a collegial team atmosphere. Laboratory and office space is available (including BSL2 and BSL3 laboratory space), with state-of-the art facilities, instrumentation, and administrative support. The MMI research and teaching programs intersect with other campus-wide programs and resources in the Schools of Medicine and Veterinary Medicine and Agriculture and Environmental Sciences, Genome Center, MIND Institute, California National Primate Research Center, Center for Comparative Medicine and the Cancer Center. UC Davis is ranked 9th nationally among public universities in research funding. The University’s student population is approximately 32,000.

For applicants at the Associate Professor level, a strong track record of teaching at the graduate level, extramural funding and published research is required. For applicants at the Assistant Professor level, a strong record of research publications and potential for obtaining extramural funding are required. For full consideration, applications should be received by August 31, 2015; however, the position will remain open until filled. Qualified applicants should upload a cover letter, curriculum vitae, statement of research, and 3-5 letters of recommendation online at https://recruit.ucdavis.edu/apply/JPF00599.

The University of California, Davis is an Affirmative Action/Equal Opportunity Employer with a strong institutional commitment to the achievement of diversity.

Cleveland Clinic
Chair, Lerner Research Institute

The Cleveland Clinic, one of the world’s most distinguished academic medical centers and ranked by U.S. News & World Report as the No. 4 Hospital in America, announces a search for Chair, Lerner Research Institute.

The Lerner Research Institute is home to all of the laboratory-based and translational research at the Cleveland Clinic. Its total research budget in 2014 was $255 million, including $98 million in federal funding. The Institute encompasses 12 departments and has a total of 1,500 employees including 172 principal investigators and 212 postdoctoral fellows contained within 100,000 square feet of laboratory space.

Institute faculty published 1,442 journal articles in 2014, which described significant discoveries, many in high-impact journals. The facuulty are also active in the commercialization of intellectual property, producing new companies, patents, and licensing agreements each year.

Lerner Research Institute faculty play an important role in teaching and mentoring graduate students and medical students in the Cleveland Clinic Lerner College of Medicine (CCCLM) of CWRU, one of the top-rated medical schools in the United States. Also, in 2014, 180 graduate students worked in the Lerner Research Institute, including 38 in a novel PhD program in Molecular Medicine.

The successful candidate for the position of Chair, Lerner Research Institute will be an internationally recognized scientist with a distinguished career of academic accomplishment within an active biomedical disease-oriented research program and should be eligible for the rank of Professor at CCCLM. Key skills will include superior leadership competency in a multidisciplinary environment, demonstrated collaboration with clinicians, and strength in recruiting and mentoring other outstanding and successful scientists. The position holds an endowed chair and a position on the Board of Governors (Medical Executive Committee) and other executive advisory committees of the Cleveland Clinic.

Interested Candidates should submit a letter of interest, curriculum vitae, and the names of 3 references to: Joseph P. Iannotti MD, PhD, Chair, Search Committee for Chair, Lerner Research Institute, iannotj@ccf.org Phone: 216-445-5151, www.lerner.ccf.org www.clevelandclinic.org/physicianrecruitment

**UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN**

Open Rank Tenured/Tenure-Track

**Faculty Position**

Department of Comparative Biosciences

The Department of Comparative Biosciences at the College of Veterinary Medicine, University of Illinois at Urbana-Champaign invites applications for an open position in reproductive biology at the Assistant, Associate, or Full Professor level. Candidates must possess a Ph.D., or equivalent degree. Candidates currently at the Associate or Full Professor rank with federal funding are especially encouraged to apply. The successful candidate will participate in the professional and graduate curricula and develop research programs which complement existing department and/or campus strengths in reproductive biology, neuroscience, environmental toxicology and cancer biology. Full information about the department is available at http://vetmed.illinois.edu/cb/index.html. The position is a regular, full-time, 9-month, tenured or tenure track appointment, and is available January 2016. Salary and rank will be commensurate with qualifications.

Qualified applicants should apply online at https://jobs.illinois.edu. Applications should include a cover letter including a research statement, CV, and contact information for three references. Questions may be directed to Dr. Jodi A. Flaws, search committee chair, jflaws@illinois.edu or 217-333-7933.

In order to ensure full consideration, applications must be received by September 15, 2015. Applicants may be interviewed before the closing date; however, no hiring decision will be made until after that date.

*Illinois is an Equal Opportunity Employer and all qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, sex, age, status as a protected veteran, or status as a qualified individual with a disability. Illinois welcomes individuals with diverse backgrounds, experiences, and ideas who embrace and value diversity and inclusivity (www.inclusiveillinois.illinois.edu).*
