### RESEARCH

#### IN BRIEF

553 From *Science* and other journals

#### REVIEW

556 CRISPR EVOLUTION

Diverse evolutionary roots and mechanistic variations of the CRISPR-Cas systems *P. Mohanraju* et al.

Review summary: For full text:

dx.doi.org/10.1126/science.aad5147

> Research Article P. 557

#### RESEARCH ARTICLES

557 CRISPR EVOLUTION

C2c2 is a single-component programmable RNA-guided RNA-targeting CRISPR effector *O. O. Abudayyeh* et al.

Research article summary: For full text:

dx.doi.org/10.1126/science.aaf5037

> Review P. 556

558 TOPOLOGICAL MATTER

Beyond Dirac and Weyl fermions: Unconventional quasiparticles in conventional crystals *B. Bradlyn* et al.

Research article summary: For full text:

dx.doi.org/10.1126/science.aaf5037

> Perspective P. 538; Video

#### REPORTS

559 SHAPE-MEMORY ALLOYS

Grain-resolved analysis of localized deformation in nickel-titanium wire under tensile load *P. Sedmák* et al.

563 CATALYSIS

Direct conversion of methane to aromatics in a catalytic co-ionic membrane reactor *S. H. Morejudo* et al.

566 ANALYTICAL METHODS

Origin and hysteresis of lithium compositional spatiodynamics within battery primary particles *J. Lim* et al.

> Perspective P. 543

#### 543 & 566

571 NANOMATERIALS

Permanent excimer superstructures by supramolecular networking of metal quantum clusters *B. Santiago-Gonzalez* et al.

575 GRAPHENE

Tuning the valley and chiral quantum state of Dirac electrons in van der Waals heterostructures *J. R. Wallbank* et al.

579 ARCHAEOLOGY

Outburst flood at 1920 BCE supports historicity of China’s Great Flood and the Xia dynasty *Q. Wu* et al.

> Perspective P. 538; Video

583 BIOENGINEERING

Metabolic engineering of microbial competitive advantage for industrial fermentation processes *A. J. Shaw* et al.

> Perspective P. 542

587 PLANT SCIENCE

Circadian regulation of sunflower heliotropism, floral orientation, and pollinator visits *H. S. Atamian* et al.

> Perspective P. 541; Video

590 BIOMINERALIZATION

Macromolecular recognition directs calcium ions to coccolith mineralization sites *A. Gal* et al.

594 STRUCTURAL BIOLOGY

The inhibition mechanism of human 20S proteasomes enables next-generation inhibitor design *J. Schruder* et al.

598 MOLECULAR IMAGING

Spatial organization of chromatin domains and compartments in single chromosomes *S. Wang* et al.

603 AXONAL DEGENERATION

RIPK1 mediates axonal degeneration by promoting inflammation and necroptosis in ALS *Y. Ito* et al.

Working my way out

By Jason Cantley

### ON THE COVER

Sunflower head just before floral maturation, with the Sun setting behind it. Whereas mature sunflowers always face east, young sunflower plants track the Sun from east to west during the day and then reorient overnight to face east in anticipation of dawn. Both heliotropic growth patterns are mediated by the circadian clock and enhance pollinator visits and plant yield. See pages 541 and 587.
