POSTDOCTORAL OPPORTUNITIES

POSTDOCTORAL opportunity to study autoimmune arthritis in the Mellins laboratory, Stanford Immunology Program. Ph.D. in immunology and experience with animal models required. Send statement of research interests, resume and contact information for three references to e-mail: mellins@stanford.edu

POSTDOCTORAL POSITIONS: Personalized Medicine and Sperm Nuclear Structure

Several wet-bench and computational postdoctoral positions are immediately available as part of an interdisciplinary research team. Using advanced high-throughput technologies and computational and statistical analyses the successful applicants will join the Krawetz group to determine how sperm RNAs regulate chromatin structure and act to convey environmental cues to the birth and life course of a child (www.ncbi.nlm.nih.gov/pubmed/?term=krawetz). Highly-motivated individuals able to work in the United States are encouraged to apply. Email a statement of interest, curriculum vitae and three letters of reference to: **Professor S. A. Krawetz, Wayne State University School of Medicine**, e-mail: aa1965@wayne.edu. *Wayne State University is an Equal Opportunity/Affirmative Action Employer.*

POSITIONS OPEN

UNIVERSITY OF SOUTH CAROLINA SCHOOL OF MEDICINE TEACHING FACULTY POSITION (Microbiology and Immunology)

The Department of Pathology, Microbiology and Immunology at the University of South Carolina School of Medicine, Columbia invites applications for a non-tenure-track teaching faculty position at the rank of **Assistant Professor** based on a 12-month appointment. The successful candidate will be responsible primarily for directing and participating in teaching courses offered to medical, graduate and post-baccalaureate students. In addition, this candidate will play a leadership role in support of academic success of medical students. Candidates must have a Ph.D., M.D. or M.D./Ph.D. Expertise in Immunology and appropriate teaching experience are required. Please submit curriculum vitae and a statement of teaching philosophy with names of 3 references to **Dr. Mitzi Nagarkatti, Chair, Department of Pathology, Microbiology, and Immunology, University of South Carolina School of Medicine, Columbia, SC 29208** or e-mail: teachimmunology@uscmed.sc.edu. The search will start immediately and will continue until the position is filled. *USC Columbia is an Equal Opportunity Affirmative Action Employer and encourages applications from women and minorities and is responsive to the needs of dual career couples.*

POSTDOCTORAL OPPORTUNITIES

EMORY UNIVERSITY

A **postdoctoral position** in the molecular biology of chemoreception is open in the lab of Prof. McCarty, Dept. of Pediatrics, Emory University, Atlanta, GA, USA, for a project funded by the NSF in collaboration with Prof. Julia Kubanek at Georgia Tech. This will investigate the mechanisms that organisms use to sense chemical signals and cues in their environments. Expertise desired in any of these areas: protein and nucleic acid purification, CRIPR-Cas9 technology, immunohistochemistry, gene expression analysis, protein-ligand interactions, signal transduction, protein trafficking, and fluorescence microscopy. Thus, a Ph.D. with research experience in molecular biology, cell biology, biochemistry, pharmacology, or a related field is expected.

The facilities and other resources available at Emory University and Georgia Tech, only 5 miles apart, provide research investigators with a rich environment, supportive of successful scientific research.

The position is available immediately and will be initially offered for two years with the possibility of renewal dependent upon successful progress in research. Salary is competitive and commensurate with experience. Interested individuals should contact **Prof. Nael McCarty** by e-mail (namccar@emory.edu).

Stony Brook University

Multiple Postdoctoral Positions Spring/Summer 2017

Stony Brook University is recruiting for multiple postdoctoral positions in various sub-specialties, for the upcoming spring and summer months.

Stony Brook has been characterized by innovation, energy and progress, and making ground-breaking discoveries since its beginning half a century ago.

Any interested candidates are invited to visit our new JOBS page.
