**Science Careers Virtual Job Fair**

**Research in Germany**

**May 4, 2017**

**10:00 AM - 2:00 PM EST**

**JOB SEEKERS!** Science Careers has teamed up with Research in Germany to offer an exciting job fair focused on career opportunities in Germany. Meet online with representatives of German universities and research and funding organizations and learn about:

- positions for Ph.D. students and postdoctoral researchers
- funding opportunities
- studying and research in Germany.

Jinan University Recruiting Members or Candidates of Thousand Young Talents Program

Jinan University (JNU) is one of China’s “One Hundred Key Universities of 21st Century” (the “211 Project”) and is operated under the leadership of the Overseas Chinese Affairs Office of State Council. As the first university established by the State for overseas Chinese students, JNU currently has the largest number of overseas and foreign students and is honored as the “top university for overseas Chinese”. In June 2015, the university was selected into the “High-level University Construction Program” by Guangdong provincial government.

Disciplines Open for Recruitment

Applied economics, theoretical economics, industrial economics, labor economics, regional economics, international economics and trade, statistics, finance, accounting, science of public management, psychology, tourism management, journalism and communication, law, intellectual property, Chinese language and literature (including Chinese language education), history, foreign languages and literature, translation studies, politics, international relations, overseas Chinese studies, Marxism, physical education, science of Chinese materia medica, pharmacology, cytobiology, ecology, molecular genetics, biomedical engineering, biochemistry and molecular biology, immunology, CNS regeneration, virology, regenerative medicine, basic medicine, clinical medicine, integration of traditional Chinese and western medicine, traditional Chinese medicine, oral medicine, public health and preventive medicine, nursing, medical informatics, mechanics, architecture, information and communication engineering, electronic science and technology, cyber space security, software engineering, mathematics, environmental science and engineering, instrumental research, hydrology and water resources, physical geography, chemistry, materials science and engineering, food science and engineering, physics, new energy materials and devices, electrification and automation, Things of internet and logistics engineering, packaging engineering, optical fiber sensing and biophotonics, nanophotonics, etc.

Basic Requirements

1. Members of the “Thousand Young Talents Program”.
2. Candidates of the “Thousand Young Talents Program” (candidates of the discipline of finance not included). Applicants should meet the following requirements:
   (1) Applicants whose research fields are in natural science and engineering technology should be under 40 years old (up to June 1, 2017, the same below);
   (2) Applicants should have acquired a doctoral degree, and have over three years’ overseas research and working experience (not including working experience abroad with employment relations remained in China);
   (3) Applicants should have a permanent teaching or research position in overseas universities, research institutions and enterprises of high prestige;
   (4) Generally, applicants should not have a full-time position in China at the time of application. However, if applicants are already holding a position in China, it should be less than one year that they returned from abroad;
   (5) Applicants should work full time in China once employed.

Package of Salary & Benefits

JNU will provide recruited members and candidates of “Thousand Young Talents Program” with a competitive package of salary and benefits based on the job position.

1. For members of “Thousand Young Talents Program”:
   (1) Salary: no less than ¥500,000 per year (pre-tax).
   (2) Supporting funds for research: ¥1,000,000-3,000,000.
   (3) Housing/settling allowance: no less than ¥2,000,000 (pre-tax).
   (4) The recruited will be directly given the title of a senior professional post.
   (5) The recruited are privileged when recruiting PhD students, post-docs and research assistants.
   (6) The university will provide the recruited with assistance in their children’s entry into kindergarten, primary school and middle school in Guangzhou.
   (7) Members will enjoy the one-stop service for high-level talents;
   (8) The recruited is entitled to a central finance subsidy of ¥ 500,000 and a research fund ranging from ¥1,000,000 to ¥3,000,000, which, once ratified, will be allocated according to schedule. The Guangdong provincial finance will also grant the recruited a living allowance of ¥250,000 and a supportive fund of ¥500,000.

2. Candidates who have successfully passed the university’s interview can sign an employment contract of intent, and apply for the “Thousand Young Talents Program” membership in the name of Jinan University. Candidates who have entered into the defense session are entitled to the following salary and benefits:
   (1) Salary: no less than ¥400,000 per year (pre-tax).
   (2) Supporting funds for research: no less than ¥1,000,000.
   (3) Housing/settling allowance: no less than ¥1,000,000 (pre-tax).
   (4) Recruited members are privileged when recruiting PhD students and research assistants.
   (5) The university will provide the recruited with assistance in their children’s entry into kindergarten, primary school and middle school in Guangzhou.
   (6) If the recruited are selected into the “Thousand Young Talents Program”, they will be provided the same treatment as the full members can enjoy.

Professorship of Cell Biology

Department of Clinical Biochemistry • Ref: RG11762

The Board of Electors to the Professorship of Cell Biology invite applications for this Professorship to take up appointment on 1 September 2017 or as soon as possible thereafter. Preference will be given to persons whose work falls within the field of the cell biology of disease. It is intended that the holder of this post will also be appointed as the Director of CIMR to provide leadership to the Institute.

Candidates will have an outstanding research record of international stature in molecular cell biology and the vision, leadership, experience and enthusiasm to build on current strengths in maintaining and developing a leading research presence. They will hold a PhD or equivalent postgraduate qualification and may be either non-clinical or clinically qualified.

Standard professorial duties include teaching and research, examining, supervision, administration and, if appropriate, a contribution to clinical service delivery. The Professor will be based at the Cambridge Institute for Medical Research (CIMR) on the Cambridge Biomedical campus.

A competitive salary will be offered.

To apply online for this vacancy and to view further information about the role, please visit: http://www.jobs.cam.ac.uk/job/13254.

Further information is available at: http://www.hr.admin.cam.ac.uk/professorships or contact the Human Resources Division, University Offices, The Old Schools, Cambridge, CB2 1TT, (email: ibise@admin.cam.ac.uk).

Applications, consisting of a letter of application, a statement of current and future research plans, a curriculum vitae and a publications list, along with details of three referees should be made online no later than 5 May 2017.

Informal enquiries may be directed to Professor Patrick Maxwell, e-mail Regius@medschl.cam.ac.uk, telephone 01223 336738.

Please quote reference RG11762 on your application and in any correspondence about this vacancy.

The University values diversity and is committed to equality of opportunity.

The University has a responsibility to ensure that all employees are eligible to live and work in the UK.
Join more than 4,000 fellow attendees at exciting and engaging conferences exploring and discussing topics in your field.

**Pick a Community**

The SRCs are held annually and are focused to help build communities of interest around critical research topics. This encourages collaboration and mentoring as well as spurs innovation in key areas of critical development.

**MEDICAL UNIVERSITY OF SOUTH CAROLINA**

**Department of Pediatrics**

Recruitment for Endowed Professorship in Center for Childhood Neurotherapeutics, Basic Research in Childhood Neurological Disorders

The Department of Pediatrics and the Medical University South Carolina at Charleston is accepting applications for an Endowed Chair for Basic Research in Childhood Neurological Disorders at the rank of a Professor supported by a SmartState Award from the Center of Economic Excellence (COEE), State of South Carolina. We are seeking an outstanding basic research scientist with expertise in disease mechanisms and therapeutic approaches for childhood diseases of the nervous system who would complement and expand existing programs at MUSC. The applicant should have a terminal degree (Ph.D., M.D./Ph.D. or M.D.) with appropriate research expertise in neurosciences. The candidate should have a national reputation, an outstanding track record of high quality publications and a strong record of extramural funded research.

The Endowed Chair will have the benefit of a significant programmatic and departmental startup package and laboratory space in the newly built Darby Children’s Research Institute (DCRI) housed with state of art shared Lipidomics and Proteomics core facilities. The interdepartmental children’s research program supports a highly collaborative environment with opportunities for both basic and translational research.

MUSC is located in Charleston, SC, a city noted for its historical, cultural and recreational attractions with a temperate climate and beautiful beaches. Charleston is consistently given top honors as a most desirable place to live. Charleston’s Academic Magnet High School was ranked the #1 magnet high school in the State and #10 in the country by US News and World Report.

Interested scientists should submit a CV, summary of research interests, and contact information for three references to **Inderjit Singh, PhD**, Scientific Director of DCRI and Chief, Division of Developmental Neurogenetics, (isingh@musc.edu), or to **Andrew Atz, MD**, Acting Chair, Department of Pediatrics, (atzam@musc.edu).

We are an Equal Opportunity Employer, promoting workplace diversity.

**University of Vienna**

**University Professor of Experimental Quantum Physics**

Full details can be found at [personalwesen.univie.ac.at/fuer-mitarbeiterinnen/professorinnen/job/english/faculty-of-physics](http://personalwesen.univie.ac.at/fuer-mitarbeiterinnen/professorinnen/job/english/faculty-of-physics)

Candidates have an outstanding research record in experimental quantum physics in the broadest sense. The successful candidate will hold a Full Professorship at the University of Vienna and will find an exceptionally attractive research environment inside the Faculty of Physics and outside.

Applications in German or English should be submitted to [dekanat.physik@univie.ac.at](mailto:dekanat.physik@univie.ac.at); Reference no.: Se/25-2016

The application period ends on 30 April 2017.

Classification according to the Collective Bargaining Agreement for University Staff, job group A1. The salary will be individually negotiated under consideration of the previous career development and the current income situation.

We are an Equal Opportunity Employer, promoting workplace diversity.

Call for Nomination for Next Director-General of KEK

KEK, High Energy Accelerator Research Organization, invites nominations for the next Director-General whose term will begin April 1, 2018.

In view of his/her role that presides over the business of KEK as a representative of the Inter-University Research Institute Corporation, nominees shall be:

1. persons of noble character, with relevant knowledge and experience and having abilities to manage its educational and research activities properly and effectively.
2. persons expected to promote with long-term vision and strong scientific leadership, the highly advanced, internationalized, and inter-disciplinary research activities of KEK by getting support from the public.
3. persons expected to establish and carry out the medium-term goals and plans.

The term of appointment is three years until March 31, 2022 and shall be eligible for reappointment only twice. Thus, he/she may not remain in office continuously over a period of 9 years. We widely accept the nomination of the candidates regardless of their nationalities.

We would like to ask you to recommend the best person who satisfies requirements for the position written above.

Nomination should be accompanied by: 1) letter of recommendation, 2) brief personal history of the candidate, and 3) list of major achievements (publications, academic papers, commendations and membership of councils, etc.). The nomination should be submitted to the following address no later than May 31, 2017:

- Documents should be written either in English or in Japanese.
- Forms and details are available at: https://www.kek.jp/en/NewsRoom/Release/20170301090000/

Inquiries concerning the nomination should be addressed to:

Tenure-Track Faculty Positions in Visual Sciences and Vision Disorders at the Duke-NUS Medical School (Assistant, Associate and Professor Levels)

The Duke-National University of Singapore Medical School (Duke-NUS) is unique in bringing post-baccalaureate, research-intensive medical education to Asia. It represents a truly global partnership and combines the expertise and resources of two leading universities: the National University of Singapore and Duke University, North Carolina, USA. Duke-NUS has established five Signature Research Programmes (SRPs) to raise the standard and quality of healthcare and to develop novel and better strategies for treatment of diseases. The five SRPs are in the area of Cancer and Stem Cell Biology, Cardiovascular and Metabolic Disorders, Emerging Infectious Diseases, Neuroscience and Behavioural Disorders and Health Services and Systems Research. As part of the SingHealth Duke-NUS Academic Medical Centre (AMC), Duke-NUS has its home in a modern facility adjacent to the Singapore General Hospital and maintains strong basic, translational and clinical research partnerships throughout Singapore, including the Singapore Eye Research Institute (SERI) and the Singapore National Eye Centre (SNEC).

Duke-NUS is recruiting outstanding candidates with MD, PhD or MD/PhD qualification and a strong, proven research track record in the area of Visual Sciences and Vision Disorders, at the Assistant, Associate and Professor levels. The recruited faculty will hold their primary appointment in Duke-NUS, specifically at the Centre for Vision Research, and a joint appointment with SERI/SNEC where the faculty’s office and laboratory will be located. Candidates with strong track record conducting internationally competitive fundamental and translational research in areas of stem cell and regenerative medicine, vascular and cell biology, functional genomics and animal models in major eye diseases such as age-related macular degeneration, diabetic retinopathy, glaucoma and myopia are strongly encouraged to apply. The package for the faculty recruit will include full salary, start-up research funding as well as office and laboratory space. The successful candidate is expected to apply for competitive grants to sustain his/her research in the long term.

Interested candidates should submit a cover letter, curriculum vitae and summary of accomplishments via e-mail by 31 May 2017. Candidates applying for the Assistant Professor position are requested to additionally arrange to have three letters of reference sent in support of their application.

Interested candidates who wish to know more about these positions will have the opportunity to meet up with senior SNEC/SERI/ Duke-NUS faculty at the Association for Research in Vision and Ophthalmology (ARVO) Annual meeting at the Baltimore Convention Centre (SERI Booth) between 7 to 10 May 2017. Please contact zhouting@seri.com.sg to coordinate the meet-up.
