NEWS

IN BRIEF
116 News at a glance

IN DEPTH
118 ON EVE OF SCIENCE MARCH, PLANNERS LOOK AHEAD
March for Science aims to live past 22 April events and serve as a catalyst for advocacy By L. Wessel

121 Food for microbes abundant on Enceladus
By P. Voosen

122 PERSONALIZED TUMOR VACCINES KEEP CANCER IN CHECK
A new approach enlists a tumor’s own mutated proteins By J. Kaiser

123 U.S. REPORT CALLS FOR RESEARCH INTEGRITY BOARD
Independent body would help foster good behavior and better investigations By J. Mervis

124 GIANT RADIO TELESCOPE FACES DOWNSIZING
Rising costs squeeze the first phase of the Square Kilometer Array and threaten planned studies By E. Cartlidge

125 EPIDEMIC INSURANCE
Caught short by Ebola, the world gets ready for the next outbreak By J. Cohen

128 THE WEATHER MASTER
How Shian-Jiann Lin’s atmospheric grids could unify weather forecasts and climate models By P. Voosen

INSIGHTS

PERSPECTIVES
132 DETECTING MOLECULAR HYDROGEN ON ENCELADUS
Cassini spacecraft detects molecular hydrogen on one of Saturn’s moons By J. S. Seewald

133 AN AI STEREOTYPE CATCHER
An artificial intelligence method identifies implicit human biases such as gender stereotypes By A. G. Greenwald

135 ALLOTROPY BY DESIGN—CARBON NANOHoops
The shortest armchair carbon nanotube has been synthesized and crystallized By J. S. Siegel

136 EATING ECOSYSTEMS
Wildlife harvest and depletion compromise socioecological stability By J. S. Brashares and K. M. Gaynor

137 EMBRYOGENESIS IN A DISH
We are at an early stage of developing embryos from stem cells in culture By M. Persa

139 MANAGING CELL AND HUMAN IDENTITY
Will powerful new technologies affect our perception of self-identity? By J. Moreno et al.

POLICY FORUM
141 TERAWATT-SCALE PHOTOVOLTAICS: TRAJECTORIES AND challenges
Coordinating technology, policy, and business innovations By N. M. Haegel et al.

BOOKS ET AL.
144 EMBRACING THE UNQUALIFIED OPINION
A pair of timely tomes probes the factors converging to undermine the expertise of scientists, scholars, and trained professionals By S. Kirshenbaum

146 A RIVER RUNS THROUGH IT
A meandering history probes the Colorado River’s verdant legacy and fraught future By K. C. Rose

LETTERS
147 AFTER CHILE’S FIRES, REFOREST PRIVATE LAND
By M. J. Martinez-Harms et al.

147 OUTSIDE THE TOWER MARCH FOR SCIENCE: SHARE YOUR SIGN

148 EUROPE’S INSUFFICIENT POLLUTANT REMEDIATION
By R. J. Law and P. D. Jepson
Kumamoto earthquake viscosity after the 2016 Kaikoura earthquake, New Zealand I. J. Hamling et al.

SOLAR CELLS Colloidally prepared La-doped BaSnO$_3$ electrodes for efficient, photostable perovskite solar cells S. S. Shin et al.

ORGANIC CHEMISTRY Synthesis of a carbon nanobelt G. Povie et al.

ZIKA VIRUS Enhancement of Zika virus pathogenesis by preexisting antiflavivirus immunity S. V. Bardina et al.

DEFAUNATION The impact of hunting on tropical mammal and bird populations A. Benitez-Lopez et al.

COGNITIVE SCIENCE Semantics derived automatically from language corpora contain human-like biases A. Caliskan et al.

PLANT SCIENCE The preprophase band of microtubules controls the robustness of division orientation in plants E. Schaefer et al.

SINGLE-CELL GENOMICS Single-cell whole-genome analyses by Linear Amplification via Transposon Insertion (LIANTI) C. Chen et al.
