The Center for Advanced Imaging at Harvard University seeks talented, enthusiastic and experienced individuals to work as Group Leaders/Lead Senior Staff Scientists in the area of technology development for optical imaging of cells, tissues and organisms. These individuals will lead the creation and execution of independent research programs under the direction of the Faculty Director (Prof. Xiaowei Zhuang, PhD) aiming to develop innovative imaging technologies, as well as lead the application of these technologies to biological investigations. Each will receive funding, space (office and laboratory), and administrative support to start their own independent research program; and will have the opportunity to hire their own research team.

This is a position for scientists to perform innovative research and not a facilities manager position. To learn more and apply visit: http://bit.ly/2trni4R
