myIDP: A career plan
customized for you, by you.

There's only one *Science*.

Recommended by
leading professional
societies and the NIH

Features in myIDP include:

- Exercises to help you examine your skills, interests, and values.
- A list of 20 scientific career paths with a prediction of which ones best fit your skills and interests.
- A tool for setting strategic goals for the coming year, with optional reminders to keep you on track.
- Articles and resources to guide you through the process.
- Options to save materials online and print them for further review and discussion.
- A certificate of completion for users that finish myIDP and more.

POSITIONS OPEN

POSTDOCTORAL POSITION

A postdoctoral position is available with Dr. Stephen G Waxman group at the Center for Neuroscience and Regeneration Research, Department of Neurology at Yale School of Medicine. The Waxman group studies excitability disorders including neuropathic pain, and implements an inter-disciplinary approach to elucidate molecular basis for pain pathophysiology and resilience. This is a superb opportunity to collaborate with cell and molecular biologists, electrophysiologists, pharmacologists and clinicians on studies on cellular and molecular mechanisms that mediate pain, with focused attention on the contributions of sodium channels. The position is available immediately, and applications will be evaluated until the position is filled. Recent graduates with strong interest in iPSC and/or CRISPR technology are welcome to apply.

Please email your application to Stephen.waxman@yale.edu and Sulayman.dib-hajj@yale.edu including: (1) A cover letter describing your past training, research interests and career goals (2) A detailed Curriculum Vitae (3) Contact information of referees

For more information, please visit <http://medicine.yale.edu/cnrr/> or contact Dr. Waxman or Dr. Dib-Hajj via e-mail.

Ecologist – The Saint Vincent College Biology Department seeks a broadly-trained individual to fill a tenure-track position in Ecology/Evolutionary Biology. Competitive candidates will have expertise in one of the following areas: insect-plant interactions, plant ecology, plant-animal interactions, or invertebrate ecology. Experience with GIS will be considered a plus. The successful candidate will teach lecture and lab courses for Biology and Environmental Science majors in Ecology and Evolution and courses for non-majors in addition to supervising research through the Senior Research Program. More information and application guidelines can be found at this website: <http://www.stvincent.edu/about/work-for-svc>
