

Light your way.

Get the full picture with trusted tumor immune response results from our in-house validated antibodies.

When it comes to your tumor immune response research, blind spots are unacceptable. Independent testing has demonstrated that 75% of antibodies in today's market are non-specific or simply do not work at all.* But at Bethyl, we've manufactured and validated every antibody we make on site to ensure target specificity and sensitivity. All to guarantee our antibodies will function as designed in your assay 100% of the time. More than 10,000 independent citations over the past 15 years have proven that, at Bethyl, we put a lot in every drop.
