The first year of the course is also offered at Ithaca, N. Y., subsequent years at New York City only.

For information address
THE SECRETARY

Johns Hopkins University
Medical School
The Medical School is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION
Candidates for admission must be graduates of approved colleges or scientific schools with at least two years' instruction, including laboratory work in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to 75 students, men and women being admitted on the same terms. Except in unusual circumstances, applications for admission will not be considered after July 1st.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill our requirements and present exceptional qualifications.

INSTRUCTION
The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and special emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION
The charge for tuition is $300 per annum, payable in three installments. There are no extra fees except for rental of microscope, certain expensive supplies, and laboratory breakage.

The annual announcement and application blanks may be obtained by addressing the
Dean of the Johns Hopkins Medical School,
Washington and Monument Sts., Baltimore, Md.

FAULT MAP
OF THE
STATE OF CALIFORNIA
A map of the Earthquake Rifts of the State of California, scale 8 miles to 1 inch, with township subdivisions, relief shading, and submarine contours; size 6 by 7 feet, in four sheets. Prepared by the Seismological Society of America, under the direction of Bailey Willis and H. O. Wood, in cooperation with the Carnegie Institution of Washington, U. S. Geological Survey, U. S. Navy Department, U. S. Hydrographic University of Office, California, and Stanford University. 1922. Accompanied by a descriptive brochure. This map will be sent to all new members of the Seismological Society, who pay the dues for 1923, ($3.00), before December 31, 1923, or is for sale, unmounted, for $5.00. Write to Professor S. D. Townley, Secretary, Stanford University, California.

Leitz Laboratory and Student Microscopes "L" and "LL"

A Student Microscope is naturally subjected to hard usage and in order to withstand severe handling, its workmanship has to be durable beyond question.

The Leitz Laboratory and Student Microscopes embody the same high standard of optical and mechanical workmanship, so strongly identified with Leitz products, and are guaranteed, therefore, to serve in student laboratories in a more satisfactory manner than any others.

The "Leitz-Quality" is beyond comparison, and since it is unequalled, it is supreme.

Optical and Mechanical Efficiency are the chief points expected of any microscope; the Leitz instruments are recognized to possess these standards to a non-contestable degree.

Here are dyes, stains and re-agents that respond perfectly in your tests!

How often have you peered through your microscope to determine the result of an examination—only to discover that the fine points have not been brought out. This is often due to the use of imperfect stains or re-agents.

It is to eliminate this waste of time and effort that "National" has perfected a complete line of dyes, stains and re-agents for laboratory workers. Scientifically correct, absolutely pure—all made to give you 100% confidence in their reaction in your tests!

Let us send you a list of "National" Medicinal Products for Biology, Bacteriology and Pathology.
