Johns Hopkins University
Medical School
The Medical School is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION
Candidates for admission must be graduates of approved colleges or scientific schools with at least two years' instruction, including laboratory work in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to 75 students, men and women being admitted on the same terms. Except in unusual circumstances, applications for admission will not be considered after July 1st.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill our requirements and present exceptional qualifications.

INSTRUCTION
The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and special emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION
The charge for tuition is $300 per annum, payable in three installments. There are no extra fees except for rental of microscope, certain expensive supplies, and laboratory breakage.

The annual announcement and application blanks may be obtained by addressing the Dean of the Johns Hopkins Medical School, Washington and Monument Sts., Baltimore, Md.

Summer Work for Graduates in Medicine
Beginning Monday, June 2d, and ending Saturday, July 12th, a course in medical diagnosis, including laboratory exercises in clinical pathology and demonstrations in pathological anatomy, will be offered. The course will be limited to thirty students, fee $100. Applications should be made to the Dean's Office.

School of Medicine
Western Reserve University
of Cleveland, Ohio

HIGH STANDARD OF ADMISSION*
RESTRICTED CLASSES
THOROUGH INSTRUCTION
LARGE CLINICAL FACILITIES
HIGH STANDARD OF SCHOLARSHIP

The 1924-25 session will open in the new medical building.

* Admission confined to students having academic degrees and to Seniors in Absentia.

For information address:
THE REGISTRAR
1353 E. 9TH ST.
CLEVELAND, OHIO

YALE UNIVERSITY
School of Medicine
Affiliated with the New Haven Hospital and New Haven Dispensary

112TH SESSION
Reorganized on a full-time basis

Entrance Requirements: A minimum of three years (or its equivalent) of college including general biology, physics, general and organic chemistry, qualitative analysis, physical chemistry or laboratory physics, and either French or German.

ALL THE GENERAL FACILITIES OF THE UNIVERSITY ARE AVAILABLE TO MEDICAL STUDENTS

As the number admitted to each class is limited, applications must be made before July 1.

Dean, Yale University School of Medicine
NEW HAVEN, CONN.

Transparent Spectrum Tubes

With platinum or aluminum electrodes or electrodeless.
Bureau of Standards Design. Empty or Gas-filled.
Prompt delivery from stock. Obtainable through dealers.

THE THERMAL SYNDICATE, Ltd.,
62 Schenectady Avenue,
Brooklyn, N. Y.
Marine Biological Laboratory
Woods Hole, Mass.

INVESTIGATION
Entire Year
Facilities for research in Zoology, Embryology, Physiology, and Botany. Eighty-four private laboratories $100 each for not over three months. Thirty tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is $50.00.

INSTRUCTION
July 2 to August 12, 1924
Courses of laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the Algae. Each course requires the full time of the student. Fee, $75.00.

SUPPLY DEPARTMENT
Open the Entire Year
Animals and plants, preserved, living, and in embryonic stages. Preserved material of all types of animals and of Algae, Fungi, Liverworts and Mosses furnished for classwork, or for the museum. Living material furnished in season as ordered. Microscopic slides in Zoology, Botany, Histology, Bacteriology, Catalogues of Zoological and Botanical material and Microscopic Slides sent on application. State which is desired. For catalogues and all information regarding material, address:

GEO. M. GRAY,
Curator, Woods Hole, Mass.

The annual announcement will be sent on application to The Director, Marine Biological Laboratory, Woods Hole, Mass.

Summer School in Biology at Cornell University
July 5—August 15, 1924
Courses in zoology, entomology, embryology, histology, human physiology, botany, mycology, plant pathology, plant physiology, bacteriology, cytology, and genetics.
Graduate work leading to certificates and advanced degrees.
All the well-known facilities of the Cornell laboratories and libraries at the service of the students. Rich collecting ground easily accessible.
A wide range of courses in several colleges of the University: Agriculture, Arts and Sciences, Engineering, Law.
Special courses in Education and Rural Education.

SECRETARY OF CORNELL UNIVERSITY
Ithaca, New York

Research Prize of $1,000
THE ELLEN RICHARDS RESEARCH PRIZE
is offered for award in the year 1925. Theses by women based on independent laboratory research are eligible for competition and must reach the Committee before January 15, 1925.

If the prize is not awarded a grant is available under certain conditions.

For circulars of information and application blank, apply to

President ADA L. COMSTOCK
Radcliffe College, Cambridge, Mass.

For further information apply to the Secretary, Mrs. Samuel F. Clarke, Williamstown, Mass.

SCIENTIFIC PERIODICALS
Chemical, Medical and allied subjects. Complete files, volumes and copies, bought and sold. Kindly send us a list of your wants.

For Testing Under Controlled Conditions

For heating or drying materials under controlled conditions, you will find a FREAS Constant Temperature Vacuum Oven a most reliable laboratory assistant.

By using a FREAS Vacuum Oven you can control the quality of the medium surrounding the material being heated. That is, you can heat materials at a constant temperature in the presence of nitrogen, hydrogen, cleansed air or other gases.

For most accurate moisture tests, you should use a FREAS Vacuum Oven with a constant stream of air, dried by passing the inlet air through concentrated sulphuric acid, flowing over the samples.

The FREAS Vacuum Oven speeds up drying operations.

For growing cultures of anaerobic bacteria, the FREAS Vacuum Oven will be found most excellent equipment.

The FREAS Vacuum Oven is made by the largest manufacturers of high grade constant temperature apparatus in the world.

Write to us for catalogues and prices.
