Marine Biological Laboratory
Woods Hole, Mass.

INVESTIGATION

Entire Year

Facilities for research in Zoology, Embryology, Physiology, and Botany. Eighty-four private laboratories $100 each for not over three months. Thirty tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is $50.00.

INSTRUCTION

July 2 to August 12, 1924

Courses of laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the Algae. Each course requires the full time of the student. Fee, $75.00.

SUPPLY

DEPARTMENT

Open the Entire Year

Animals and plants, preserved, living, and in embryonic stages. Preserved material of all types of animals and of Algae, Fungi, Liverworts and Mosses furnished for classwork, or for the museum. Living material furnished in season as ordered. Microscopic slides in Zoology, Botany, Histology, Bacteriology. Catalogues of Zoological and Botanical material and Microscopic Slides sent on application. State which is desired. For catalogues and all information regarding material, address:

GEO. M. GRAY,
Curator, Woods Hole, Mass.

The annual announcement will be sent on application to The Director, Marine Biological Laboratory, Woods Hole, Mass.

LANGMUIR

Mercury Condensation High Vacuum Pump.

Glass Design

This pump is specially designed for College, University and Experimental Laboratories. It is made entirely of Pyrex glass and is intended for use where the higher speed and greater volume obtainable with the all-metal Langmuir Pump is not needed. It will produce a vacuum of .000002 mm. of mercury quite readily, at a speed of 500 to 600 c.c. per second. Some form of backing pump must be used, and for this purpose a vacuum of 0.1 mm. or lower is recommended. A special mercury heater is available.

Bulletin 1035-S gives particulars and prices.

COMPARATORS

For various purposes in any size

GAERTNER COMPARATORS have won a reputation for highest accuracy and lasting reliability. They represent the foremost achievement in the art of making measuring instruments of this kind, rendering the most trustworthy service whenever real accuracy is essential.

GAERTNER COMPARATORS are known throughout the world and are in constant use in educational and industrial laboratories, the U. S. Bureau of Standards, as well as many other U. S. Governmental Institutions.

In support of the above statement we refer to the following unsolicited testimonial coming from a recognized authority, connected with one of the largest Polytechnic Institutes in the United States, who wrote us as regards a Gaertner Comparator in use in his department:

"...The instrument which you supplied us nearly twenty years ago has been in many thousand measurements and has been wonderfully satisfactory, and even after these years of use its accuracy is really remarkable."

Leitz Microscopes are the Standard of the World

Leitz Laboratory and Student MICROSCOPE MODEL "L-10" PRICE REDUCED

The present reduction in price of the acknowledged standard microscope for medical college use coupled with the Educational Discount allowed to medical students and universities, will act as a stimulus to all medical students to possess their own microscopes.

The Leitz Microscopes Model "L-10" now with the price as low as others, and the recognized surpassing quality will result in an economy that no purchaser can afford to ignore.
