---

Johns Hopkins University
Medical School
The Medical School is an integral part of the University and is in the closest affiliation with the Johns Hopkins Hospital.

ADMISSION
Candidates for admission must be graduates of approved colleges or scientific schools with at least two years' instruction, including laboratory work in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to 75 students, men and women being admitted on the same terms. Except in unusual circumstances, applications for admission will not be considered after July 1st.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill our requirements and present exceptional qualifications.

INSTRUCTION
The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and especially emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION
The charge for tuition is $300 per annum, payable in three installments. There are no extra fees except for rental of microscope, certain expensive supplies, and laboratory breakage.

The annual announcement and application blanks may be obtained by addressing the Dean of the Johns Hopkins Medical School, Washington and Monument Sta., Baltimore, Md.

Summer Work for Graduates in Medicine
Beginning Monday, June 1st, and ending Saturday, July 11th, a course in medical diagnosis, including laboratory exercises in clinical pathology and demonstrations in pathological anatomy, will be offered. The course will be limited to thirty students, fee $100. Applications should be made to the Dean's Office.

Vitreosil

Has the Smallest Expansion Known

For the construction of delicate scientific instruments requiring material with the smallest possible expansion, vitreosil tubes, plates, rods, etc., will be found invaluable, its linear expansion of .00000054 per degree Centigrade being the smallest known. The following table gives a comparison with other substances:

<table>
<thead>
<tr>
<th>Material</th>
<th>Linear expansion per degree Centigrade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fused silica</td>
<td>0.00000054</td>
</tr>
<tr>
<td>Nickel steel (36 per cent. Ni)</td>
<td>0.0000009</td>
</tr>
<tr>
<td>Glass, Jena 59</td>
<td>0.0000057</td>
</tr>
<tr>
<td>Glass, Pyrex 702 EJ</td>
<td>0.0000035</td>
</tr>
<tr>
<td>Berlin Porcelain</td>
<td>0.0000028</td>
</tr>
</tbody>
</table>

We shall be glad to assist you in solving problems where vitreosil may be useful.

THE THERMAL SYNDICATE, Ltd.
62 Schenectady Avenue,
BROOKLYN, N. Y.
Leading Universities throughout the world use Leitz Microscopes.

Leitz Microscopes are not higher in price than others of recognized standard.

LEITZ

College Microscopes

Models "L" and "LL"

In Stock for Immediate Delivery

In precision of optical and mechanical workmanship the Microscopes "L" and "LL" are equal to the elaborate Leitz Research Microscopes, having however been simplified in their adjustments so as to give the greatest practical usefulness in class room and student laboratory work.

The Teaching Profession, through an ever increasing knowledge of the intimate technical details in the construction of scientific instruments, have been made to realize the advantages derived when selecting class room microscopes of superior quality and the attending feature of continuous satisfaction as well as economy through saving of repair expenses.

Leitz Microscopes meet these requirements in an uncontested manner, their prices not being higher than other instruments of similar construction.

If the purchase of class room microscopes is anticipated, ask for our literature and estimate; we satisfy the most discriminating requirements and through the use of Leitz College Microscopes "L" and "LL," institutions will realize the importance of superior quality.

Some of the new constructions offered by the Leitz Works caused a revolution in microscope models and optics.
UNDER THE EDITORSHIP OF J. McKEEN CATTELL

SCIENCE
A weekly journal, established in 1883, devoted to the advancement of the natural and exact sciences, the official organ of the American Association for the Advancement of Science, generally regarded as the professional journal of American men of science.
Annual Subscription $6.00; single copies 15 cents.

SCHOOL AND SOCIETY
A weekly journal covering the field of education in relation to the problems of American democracy. Its objects are the advancement of education as a science and the adjustment of our lower and higher schools to the needs of modern life.
Annual Subscription $5.00; single copies 15 cents.

THE SCIENTIFIC MONTHLY
An illustrated magazine, continuing the editorial policies of The Popular Science Monthly established in 1872, devoted to the diffusion of science, publishing articles by leading authorities in all departments of pure and applied science, including the applications of science to education and society.
Annual Subscription $5.00; single copies 50 cents.

THE AMERICAN NATURALIST
A bi-monthly journal established in 1867, devoted to the biological sciences with special reference to the factors of organic evolution.
Annual Subscription $5.00; single copies $1.00.

AMERICAN MEN OF SCIENCE
A BIOGRAPHICAL DIRECTORY
The third edition of the Biographical Directory of AMERICAN MEN OF SCIENCE contains the records of more than 9,500 living men of science, as compared with about 4,000 in the first edition and about 5,500 in the second edition. Price: Ten Dollars, net, postage paid.
