Bausch & Lomb MICROSCOPE FFS-8 for LABORATORY WORKERS

BAUSCH & LOMB OPTICAL CO., ROCHESTER, N.Y.
Compound Pocket Microscope

"MINOR"

Characteristic Features:

1. Size of pocket case: 5½ x 1½ x 2 in.
2. Smallest compound microscope made.
3. Weight without case: 12 oz.
5. Magnifications: 7 to 250x.
6. Large field of view.
7. Optics are of "Leitz" Quality.
8. Mechanical workmanship is of "Leitz" Standard.

This microscope is universally adapted for nature studies and recommended for the examination of a great variety of objects, requiring a wide range of magnification. It is especially desirable for field work in botany, entomology, mineralogy, geology and at the same time most serviceable to chemists, industrial laboratories, college and high school students. The magnifications are fully adequate for certain clinical examinations including blood counting and due to its extreme portability it is ideal for bedside use by physicians.

Price: $45.00

Discount to Institutions.

For Fine Laboratory Work

The success of the investigator depends, first upon his knowledge and technique—second, on the quality of the material employed.

For the best results, the best material is required—and reagents of the highest standardized quality—such quality as is found in the dyes, stains, and reagents that carry the National trademark.
