CONTENTS AND INDEX

NEW SERIES. VOL. LXII—JULY TO DECEMBER, 1925

THE NAMES OF CONTRIBUTORS ARE PRINTED IN SMALL CAPITALS

ABBOTT, C. G., Solar Variation and the Weather, 307, 426
Academy of Sciences, National, Report on Forestry, 5, Abstracts of Papers, 519; North Carolina, B. CUNNINGHAM, 37; Michigan, L. R. DUKE, 58; Ohio, W. H. ALEXANDER, 60; Indiana, H. F. DIBETE, 62; Iowa, P. S. HELMICK, 248; Russian, 173, 201
Acid, β-Oxybutyric and Lactic, P. A. LEVENK and H. L. HALLER, 356
ADINSON, A. R., Relief Models, 160
Agricultural Exper. Sta., Conn., Semi-centennial, E. W. ALLEN, 392
Agriculture, Funds for Research in, 152
Agronomy, Amer. Soc. of, Elections, 537
Alcohol, Pure Absolute, R. E. LYNES and L. T. SMITH, 224
ALEXANDER, W. H., Ohio Acad. of Sci., 60
Alfaflu, Root Rot of, L. W. DURRELL and W. G. SACKETT, 83
ALLEN, E. W., Research in the Service of the State, 165, Semi-centennial Conn. Agric. Experiment Station, 392
ALMY, F. P., Walter Scott Hendrixson, 197
American Association for the Advancement of Science, Kansas City Meeting, B. E. LIVINGTON, 48, 428, 469, 538; Annual Rep. of Permanent Secretary, B. E. LIVINGTON, 467; Sect. Q. Education, 432; Executive Committee, B. E. LIVINGTON, 443; Science Exhibit, 503; Sect. Zool., G. T. HABIGT, 504; Committee of One Hundred, R. H. TRUE, 559; Financial Rept. Pacific Div., W. W. BARBOUR, 572
Anatomy, Comparative, Terminology in, E. T. ENGLE, 328
ANDERSON, M. S., and S. E. MATTISON, Soil Collods, 114
Anthropology, Australian Commonwealth School of, 103
Antiseptics, Internal, V. LEONARD, 408
Anti-vivisection, 128
Aphid, Melon, Primary Food Plant of, E. M. PATCH, 510
Apple Varieties, Propagation of, C. F. SWINGLE, 544
Aquarium, Shield, 322
Arboretum, National, F. V. COVILLE, 579
Area patricia Sowerby, W. P. WOODING, 518
Archeology, Amer., Antiquity Phantom in, W. H. HOLMES, 256
ARMSTRONG, H. E., The Faraday Benzene Centenary, 39
ARNOLD, J. W., Effect of Noise on Hearing, 182
Artifacts, Human, in Pleistocene, H. J. COOK, 459
Astronomical Union, W. K. GREEN, 553
Atmospheres, Porcelain, PERSON, L. J. FRISON, 85
Atomic Nuclear, Studies of, E. RUTHERFORD, 209
B., M. A., William Albert Hamilton, 214
Bacterial Disease of Tomato Fruits, N. A. BROWN, 12
Bacteriological Note on the Franklin Arctic Relief Expedition of 1848, N. MACL. HARRIS, 57
Bacteriophage, E. S. SANDERSON, 377
Barro Colorado Island Laboratory, G. R. BISBY, 111
"Bar Sinister," R. HAWSHUBST, JR., 206
Basin Range Structure, S. TADER, 438
Bauman, J. E., From Trinil to New York, D. S. JORDAN, 113
Baute and Siderite, E. F. BURCHARD, 373
Bayliss, W. M., Physiology, R. S. LILLIE, 84
Beaver, Conservation of, by an Indian, H. I. SMITH, 461
Bees, Honey, A. C. BURRILL, 134; C. ROBERTSON, 287
BEEZE, E. H., The "Harmless" Coral Snake, 494
BELLING, J., Monocular Instruments, 54
Benzene, Faraday's Discovery of, 7, Centenary, H. E. ARMSTRONG, 39
Bernouilli's Principle, W. S. FRANKLIN, R. F. DIKEM, 397
BERSEY, E. A., Amer. Hungarian Foundation Library, 536
BIGELOW, H. B., Oceanic Circulation, 317
Biological, Sciences, Nat. Research Fellowships in, F. R. LILLIE, 261; Literature in Paris, R. M. MAY, 203; Products, Standardization, Conference on, 321; Abstracts, J. E. SCHULLE, 533
BISBY, G. R., Barro Colorado Island Laboratory, 111

THE two 40 mm *Bausch & Lomb* Biological Colorimeters illustrated above were designed for use in medical and science laboratories where results must be quickly and accurately determined. Both instruments are equipped with solid hexagonal plungers and metal encased cups that are separable for cleaning. The difference lies in the cup adjustments. In No. 2500-D, both cups are adjustable by rack and pinion. The right hand cup of No. 2300 is equipped with a special rotary drum for adjustment and direct scale reading. It is graduated in tenth millimeters and can be easily and accurately read from the eyepiece position.

*Bausch & Lomb Optical Co.*

THE STANDARD WHITE RAT

Mus Norvegicus Albinus

At the instance and desire of Drs. McCoy, Both & Lake, and Professor Voegtlin & Dr. Smith, U.S.P.H.S., Hygienic Laboratory, Washington; Conrey, Powers-Weightman-Rosengarten, Philadelphia; Riggs, Squibb, New York; Raisz, Dermatological Research Laboratories, (The Abbott Laboratories), Philadelphia; McCallum, Synthetic Drug Co., Limited, Toronto, (Canada); Hooper, Mets, New York; Payne, Upjohn Co., Kalamazoo; The Diarsenol Company, Buffalo; Schamburg & Kolmer, Research Institute of Cutaneous Medicine, Philadelphia; Clarke, Parke, Davis & Co., Detroit; Githens, H. K. Mulford Co., Philadelphia; Chamberlain, Mallinekrod Chemical Works, St. Louis; Clayes, El Lilly & Co., Indianapolis; Hynson, Westcott & Dunning, Baltimore; De Free Laboratories, Holland; New York Intravenous Laboratory, New York; U. S. Army Medical Center, Walter Reed Hospital, Washington; U. S. Quarantine Stations, U.S.P.H.S., Staten Island, N. Y., Fortress Monroe, Va. and Gallops Island, Boston Harbor; Department of the Interior, Bureau of Mines, Exp. Station, Pittsburgh, Pa.; Department National de Higiene, Instituto Bacteriologico, Buenos Aires, Rep. Argentina; Texas Agricultural Exp. Station, A. & M. College of Texas; Georgia Experiment Station, Experiment, Georgia; The Universities of Oregon, Colorado, Nebraska, Minnesota, Wisconsin, Michigan, Kansas, Illinois, Arkansas, Kentucky, North Carolina, Pennsylvania, Pittsburgh, Louisville and Toronto; College of Physicians & Surgeons, (Columbia); Brown, Yale, Harvard, Cornell, Johns Hopkins, Columbia, McGill, Western, Ohio State, Indiana, Western Reserve, Baylor and Vanderbilt Universities; Wellesley, Mount Holyoke, Smith, Iowa State & Michigan Agricultural Colleges; The Medical College of Virginia; The Rockefeller Institute, New York; The Stout Institute, Menomonie; The Physiatic Institute, Morrilton; The Insulin Committees, U. of Toronto, Toronto, Canada; Wood, Institute of Cancer Research, (Columbia), New York; Mendel & Smith, Laboratory of Physiological Chemistry (Yale), New Haven; Abel, Ulrich, & Hegner (Johns Hopkins), Baltimore; Park & Powers, School of Medicine, (Yale), New Haven; Gamble, Harvard Medical School, Boston; Loevenhart, Medical School, (Wisconsin), Madison; Krumhaar, Philadelphia General Hospital, & Laird, State Laboratory, (U. of P.), Philadelphia; Denison, Lakeside Hospital, Cleveland; The Fliechterman Co., The Dry Milk Co., & Lehn & Fink, Inc., New York; Vitamin Food Co., Westfield; Postum Cereal Co., The Kellogg Co. & The Battle Creek Sanitarium, Battle Creek; Mead Johnson Co., Evansville; et al., this office and colony has tried (and succeeded for four years) to Breed, Raise and Market a perfectly healthy Albino Rat, actively growing, and absolutely free from disease, constitutional, infectious, contagious or parasitic, at the lowest price possible with a fair return for the service rendered, thus establishing a common source of supply for the governmental (testing and experimental) laboratories and all the manufacturers and research laboratories, and thereby enabling competent biologists, working in different parts of the country, to obtain comparable—or coincident—results.

Reference to any of the above mentioned persons or laboratories will confirm these statements; their office and colony in most of the cases cited, furnishing their entire supply.

(Shipping Days: Tuesday and Wednesday)

Orders not booked for lots of less than 50, except breeding females for 50 and more. All orders are subject to one cent extra charge (including crate and dray at $1.50 per crate), excess $5.00 Per C. excess amount is charged at cost on invoice. Ten per cent. additional will be charged where known age is specified (except litters) or sex other than mixed (M & F) (except breeding stock); or where different weights are specified than those tabulated below; or where maximum-minimum range of weights desired is less than 20 grams. Litters are shipped in multiples of five only: five or ten or fifteen, etc. It is understood that when mixed sexes—(M & F) are ordered, this office reserves the right to determine the proportion of sex; whether all of or any of the other, or the proportion of each. Females, ordered as such, furnished only in breeding stock.

BREEDING STOCK—GRADE "A"—M & F—100-200 Gm. .......... $200 Per C.  
LITTERS—KNOWN AGE 6-16 Young with Dam; Mothers and Young counted alike and charged at rate of 60 cents each; not less than 8 litters shipped ................................................. $65  
LITTERS—UNKNOWN AGE—M & F—100-500 Gm. .......... $65  
LITTERS—UNKNOWN AGE—M & F—50-100 Gm. .......... $55  
TOXICITY " " —100-150 " " " " " .... $75  
MENSTRUATION " " —80-100 " " " " " .... $75  
SMALL " " —50-80 " " " " " .... $75  
VITAMINE " " —30-50 " " " " " .... $75  

A BREEDING STOCK of 2,000 and a SaleStock of 20,000, constantly maintained by a weekly output of 1,500 to 2,000, insures prompt and satisfactory execution of all orders. The breeding stock is changed every four months; each female being bred only three times, thus insuring healthy progeny.
