SCHOOL of MEDICINE

FOUNDED 1812

Affiliated with the New Haven Hospital and New Haven Dispensary

For Information, Address:
The Registrar, Yale University
School of Medicine, New Haven, Conn.

Johns Hopkins University

SCHOOL OF MEDICINE

The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION

Candidates for admission must be graduates of approved colleges or scientific schools with at least two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German. Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent any time during the academic year but not later than June 15th. If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

INSTRUCTION

The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and especial emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION

The charge for tuition is $300 per annum, payable in three installments. There are no extra fees except for certain expensive supplies, and laboratory breakage. The annual announcement and application blanks may be obtained by addressing the Registrar of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Owing to an extensive building program about to be inaugurated at the Hospital and Medical School, it has been deemed necessary to withdraw, for the next two years at least, post-graduate instruction during the year as well as the summer course formerly given during June and July.

Vitreosil

Has the Smallest Expansion Known

For the construction of delicate scientific instruments requiring material with the smallest possible expansion, vitreosil tubes, plates, rods, etc., will be found invaluable, its linear expansion of .00000054 per degree Centigrade being the smallest known. The following table gives a comparison with other substances:

<table>
<thead>
<tr>
<th>Material</th>
<th>Linear expansion per degree Centigrade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fused silica</td>
<td>........................................</td>
</tr>
<tr>
<td>Nickel steel (36 per cent. Ni)</td>
<td>.................</td>
</tr>
<tr>
<td>Glass, Jena 59</td>
<td>........................................</td>
</tr>
<tr>
<td>Glass, Pyrex 702 EJ</td>
<td>........................................</td>
</tr>
<tr>
<td>Berlin Porcelain</td>
<td>........................................</td>
</tr>
</tbody>
</table>

We shall be glad to assist you in solving problems where vitreosil may be useful.

THE THERMAL SYNDICATE, Ltd.
62 Schenectady Avenue,
BROOKLYN, N. Y.
School of Medicine and Dentistry
THE UNIVERSITY OF ROCHESTER

Medical School, Strong Memorial Hospital and Out-Patient Department of the University of Rochester and the Municipal Hospital of the City of Rochester, all under one roof. Medical, Surgical, Obstetric, Pediatric, Contagious and Neurological patients admitted. Unusual opportunities for school and hospital cooperation in medical and dental teaching.

Admission
Medical and dental candidates must have completed three years of college work with special requirements in chemistry, physics and biology. The first class will not exceed 40, men and women being admitted on equal terms. Instruction will begin September 23, 1926.

Tuition
Charge for tuition will be $300 per annum, payable in equal installments at the beginning of each semester.

For information address
The Dean—School of Medicine and Dentistry, Elmwood Avenue, Rochester, N. Y.

Marine Biological Laboratory
Woods Hole, Mass.

Biological Material

1. ZOOLOGY. Preserved material of all types of animals for class work and for the museum.
2. EMBRYOLOGY. Stages of some invertebrates, fishes (including Acantbias, Amia and Lepidosiren), Amphibia, Reptiles and some mammals.
3. BOTANY. Preserved material of Algae, Fungi, Liverworts, Mosses, Ferns and Seed Plants.
4. MICROSCOPE SLIDES in Bacteriology, Botany and Zoology.
5. LIFE HISTORIES, Germination Studies and Natural History Groups.

COLLEGE OF MEDICINE
OF
LONG ISLAND COLLEGE HOSPITAL

Founded 1858. Sixty-eighth annual session begins September 27, 1926.

Admission: Not less than two years of college work leading toward a baccalaureate degree, including specified courses.

Facilities: Well-equipped laboratories, with full-time teachers. Superior clinical advantages in The Long Island College Hospital and five other leading Hospitals in Brooklyn.

For particulars, address
THE DEAN OF THE MEDICAL SCHOOL
350 Henry Street Brooklyn, New York
