Yale University

SCHOOL of MEDICINE

FOUNDED 1812

Affiliated with the New Haven Hospital and New Haven Dispensary

For Information, Address:
The Registrar, Yale University
School of Medicine, New Haven, Conn.

Johns Hopkins University

SCHOOL of MEDICINE

The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION
Candidates for admission must be graduates of approved colleges or scientific schools with at least two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent any time during the academic year but not later than June 15th.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

INSTRUCTION
The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and special emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION
The charge for tuition is $300 per annum, payable in three installments. There are no extra fees except for certain expenses such as laboratory breakage.

The annual announcement and application blanks may be obtained by addressing the Registrar of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Owing to an extensive building program about to be inaugurated at the Hospital and Medical School, it has been deemed necessary to withdraw, for the next two years at least, post-graduate instruction during the year as well as the summer course formerly given during June and July.

N.U.

Northwestern University

MEDICAL SCHOOL

Situated in Chicago in close proximity to important Hospitals with an abundance of clinical material.

ADMISSION REQUIREMENTS—Two years of College credit, including a satisfactory course in Physics, Chemistry, Biology or Zoology, and French or German.

COURSE OF STUDY—leading to the degree of Doctor of Medicine—Four years in the Medical School and a fifth year either as Intern in an approved hospital or devoted to research in some branch of Medical Science.

GRADUATE INSTRUCTION—in courses leading to the degree of Master of Arts or Doctor of Philosophy.

RESEARCH FOUNDATION—The James A. Patten Endowment for Research affords unusual opportunities for advanced students of Medical Science to pursue special investigations.

RESEARCH FELLOWSHIPS—Four fellowships of the value of $500 each are awarded annually to promote scholarly research.

TUITION FEES—The tuition fee for undergraduate students is $215.00 a year.

Next session begins September 28, 1926.

EIMER & AMEND
Est. 1851 Inc. 1897
Third Avenue, 18th to 19th Street New York, N. Y.

Marine Biological Laboratory
Woods Hole, Mass.

INVESTIGATION
Entire Year
Facilities for research in Zoology, Embryology, Physiology, and Botany. Fifty-two private laboratories $100 each and ninety-four private laboratories $300 each for not over three months. Fifty-six tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is $50.00.

INSTRUCTION
June 29 to August 9, 1926
Courses of laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the Algae. Each course requires the full time of the student. Fee, $75.00.

SUPPLY
DEPARTMENT
Open the Entire Year
Animals and plants, preserved, living, and in embryonic stages. Preserved material of all types of animals and of Algae, Fungi, Liverworts and Mosses furnished for classwork, or for the museum. Living material furnished in season as ordered. Microscopic slides in Zoology, Botany, Histology, Bacteriology. Catalogues of Zoological and Botanical material and Microscopic Slides sent on application. New Zoology catalogue ready in February. For catalogues and all information regarding material, address:

GEO. M. GRAY,
Curator, Woods Hole, Mass.

COLEMAN & BELL
Laboratory Reagents Are Dependable!

Our List Includes:
C. P. Inorganic Chemicals
C. P. Organic Chemicals
Chemical Indicators (dry). Including Hydrogen Ion Indicators of
Clark & Lubs and Sorensen Biological Stains (dry)
Reagents and Solutions—
Stains in Solution
Indicators in Solution
Blood Reagents
Diagnostic Reagents
Fixing Solutions
Mounting Media
Volumetric Solutions
Test Papers

Coleman & Bell Products may be secured from the principal dealers in laboratory supplies in the United States and in Foreign Countries, or may be ordered direct. Catalogue sent upon request.

The Silverman Illuminator Gave Satisfactory Results After All Other Methods of Illumination Had Failed—

Dr. R. Thiessen, Experiment Station, U. S. Bureau of Mines, is responsible for the accompanying photomicrographs showing the structure of the clay in graphite crucibles. After all other methods of illumination had failed, Dr. Thiessen resorted to the Silverman Illuminator. How successful the Illuminator proved itself can be seen from the photomicrographs shown below.

On the Silverman Illuminator a small circular tube lamp surrounds the objective and furnishes a diffused and uniform illumination directly where it is needed.

It saves much valuable time and because of its glareless applications prevents eye fatigue and consequent brain fog. The Silverman Illuminator marks a most decided step forward in microscope illumination.

The Silverman Illuminator finds application in every field of microscopy, such as: Metallurgy, Metallography, Mineralogy, Plant Pathology, Steel and Iron, Brasses and Bronzes, Textiles, Paper, Rubber, Vitreous Enamels, Refractories, Glass, Abrasives, etc.
