BOSTON UNIVERSITY
SCHOOL OF MEDICINE
ORGANIZED IN 1873

ANNOUNCEMENT
may be obtained by application to

THE REGISTRAR
80 East Concord Street,
Boston, Massachusetts

Johns Hopkins University
SCHOOL OF MEDICINE

The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION
Candidates for admission must be graduates of approved colleges or scientific schools with at least two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent any time during the academic year but not later than June 15th.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

INSTRUCTION
The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and special emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION
The charge for tuition is $300 per annum, payable in three installments. There are no extra fees except for certain expensive supplies, and laboratory breakage.

The annual announcement and application blanks may be obtained by addressing the Registrar of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Owing to an extensive building program about to be inaugurated at the Hospital and Medical School it has been deemed necessary to withdraw, for the next two years at least, post-graduate instruction during the year as well as the summer course formerly given during June and July.

School of Medicine and Dentistry
THE UNIVERSITY OF ROCHESTER

Medical School, Strong Memorial Hospital and Out-Patient Department of the University of Rochester and the Municipal Hospital of the City of Rochester, all under one roof. Medical, Surgical, Obstetric, Pediatric, Contagious and Neurological patients admitted. Unusual opportunities for school and hospital cooperation in medical and dental teaching.

Admission
Medical and dental candidates must have completed three years of college work with special requirements in chemistry, physics and biology. The entering class will not exceed 40, men and women being admitted on equal terms. Instruction will begin September 23, 1926.

Tuition
Charge for tuition will be $300 per annum, payable in equal installments at the beginning of each semester.

The Dean—School of Medicine and Dentistry, Elmwood Avenue, Rochester, N. Y.

Vitresil
Pyrometer Protection Tubes

Gas-tight, unbreakable with sudden temperature changes, unaffected by corrosion. Can be used continuously up to about 1000° C. and intermittently at much higher temperatures.

Transparent vitresil tubes, while more expensive initially, give longer life under extremely severe conditions and will frequently be found more economical than cheaper materials in the long run.

Vitresil tubes are also useful accessories for radiation and optical pyrometer sets.

Formal Logic (1847)
By Augustus De Morgan. Edited by A. E. Taylor, Professor of Moral Philosophy at the University of Edinburgh.
A trustworthy reprint of a classical work of great value to students of logic and history of logical doctrine. Cloth. Pages 392.
Price $3.50

The Mathematical Theory of Limits
By J. G. Leathem. Bell's Advanced Mathematical Series.
A general outline of the theory of limits which brings together the elements of this fundamental subject in one volume. It will greatly facilitate the study of infinite series and the infinitesimal calculus.
Price $4.50

Functions of a Complex Variable
By David Raymond Curtiss, Northwestern University.
Second Carus Mathematical Monograph. Now Ready.
Price $2.00

THE NERVOUS MECHANISM OF PLANTS
By SIR JAGADIS CHUNDER BOSE
Director, Bose Research Institute, Calcutta.

This work establishes the fact of the existence of a nervous system in plants. It begins with the problems of the conduction of excitation in the Sensitive Plant (Mimosa Pudica) and shows that it is not a physical process affected through the liquid in the vessels of the plant, as either a hydro-mechanical disturbance or a movement of the sap, but is a physiological process of the protoplasm. This conclusion is based on the experimental evidence that stimulation can be effected by means of involving no mechanical disturbance or wounding of the tissues, and that the velocity of conduction is much higher than that of any movement of liquid in the plant.

With 82 Illustrations. 8vo. $6.40
LONGMANS, GREEN & CO.
55 Fifth Avenue New York

Marine Biological Laboratory
Woods Hole, Mass.

INVESTIGATION
Entire Year
Facilities for research in Zoology, Embryology, Physiology, and Botany. Fifty-two private laboratories $100 each and ninety-four private laboratories $300 each for not over three months. Fifty-six tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is $50.00.

INSTRUCTION
June 29 to August 9, 1926
Courses of laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the Algae. Each course requires the full time of the student. Fee. $75.00.

SUPPLY DEPARTMENT
Open the Entire Year
Catalogue No. 1, Zoological and Embryological material, Life Histories and Habitat Groups.
Catalogue No. 2, Botanical material.
Catalogue No. 3, Microscopic slides.
Address all correspondence regarding material and catalogues to:
Supply Department,
GEO. M. GRAY,
Curator, Woods Hole, Mass.

The annual announcement will be sent on application to The Director, Marine Biological Laboratory, Woods Hole, Mass.
Hydrogen Ion Control

LaMotte Hydrogen Ion Testing Set
(Model 3B)

Only 1 drop of material needed for a test. A single test made in a few seconds. Results accurate to 0.1 pH.

New illustrated catalog sent free on request.

LaMotte Chemical Products Co.
McCormick Building Baltimore, Md., U. S. A.

P B L SPECIALS include

Our illustrated catalog, listing these and many other specimens, microscopic slides, botanical exhibitions, lantern slides, etc., will be sent free to any biology instructor who has not already received a copy.

COLEMAN & BELL
Laboratory Reagents are Dependable!

Our List Includes:
C. P. Inorganic Chemicals
C. P. Organic Chemicals
Chemical Indicators (dry). Including Hydrogen Ion Indicators of Clark & Lubs and Sorensen
Biological Stains (dry)
Reagents and Solutions—Stains in Solution Indicators in Solution Blood Reagents Diagnostic Reagents Fixing Solutions Mounting Media Volumetric Solutions Test Papers

"Coleman & Bell Products may be secured from the principal dealers in laboratory supplies in the United States and in Foreign Countries, or may be ordered direct. Catalogue sent upon request.

THE COLEMAN & BELL COMPANY
(Incorporated)
Manufacturing Chemists
Norwood, Ohio, U. S. A.

The vital importance of correct and reliable analysis on reagent chemicals is recognized by the manufacturers of Sterling's Analysis-Certified Reagents.

An expert chemist signs and certifies the analysis on the label of each package of C. P. chemicals sold under the Sterling trade-mark.

Analysis-Certified Chemicals are packed in metric units.

Send for price list and other information. Orders are invited for all classes of C. P. chemicals and for chemicals to your own specifications.
