Marine Biological Laboratory
Woods Hole, Mass.

INVESTIGATION
Entire Year

Facilities for research in Zoology, Embryology, Physiology, and Botany. Fifty-two private laboratories $100 each and ninety-four private laboratories $300 each for not over three months. Fifty-six tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is $50.00.

INSTRUCTION
June 29 to August 9, 1926

Courses of laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the algae. Each course requires the full time of the student. Fee, $75.00.

SUPPLY DEPARTMENT
Open the Entire Year

BIOLOGICAL SUPPLIES
For the classroom, museum or collector.
First class preparations.
Send for now (1926) Catalogue No. 1. Zoological and Embryological material, Life Histories and Habitat Groups.
Catalogue No. 2, Botanical material.
Catalogue No. 3, Microscopic slides.
Address all correspondence regarding material and catalogues to:
Supply Department,
GEO. M. GRAY,
Curator, Woods Hole, Mass.

The annual announcement will be sent on application to The Director, Marine Biological Laboratory, Woods Hole, Mass.

BIOLOGICAL STAINS
A handbook on the nature and uses of the dyes employed in the biological laboratory.

By H. J. CONN

NEW MICROSCOPE SLIDE CATALOG
Several hundred new preparations are described in the new and enlarged 1926 edition of the Turtox Microscope Slide Catalog.

Johns Hopkins University
SCHOOL OF MEDICINE
The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION
Candidates for admission must be graduates of approved colleges or scientific schools with at least two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.
Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent any time during the academic year but not later than June 10th.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

INSTRUCTION
The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and special emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION
The charge for tuition is $300 per annum, payable in three installments. There are no extra fees except for certain expensive supplies, and laboratory breakage.

The annual announcement and application blanks may be obtained by addressing the Registrar of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Owing to an extensive building program about to be inaugurated at the Hospital and Medical School it has been deemed necessary to withdraw, for the next two years at least, post-graduate instruction during the year as well as the summer course formerly given during June and July.

Hydrogen Ion Control

LaMotte Hydrogen Ion Testing Set
(Model 3B)

Only 1 drop of material needed for a test.
A single test made in a few seconds.
Results accurate to 0.1 pH.

New illustrated catalog sent free on request.

LaMotte Chemical Products Co.
McCormick Building
Baltimore, Md., U. S. A.
Research Chemists

Prefer WHATMAN No. 5 for fine precipitates.
Even the finest sulphides cannot seep through this close, tough paper.
Excellent for use in Büchner Funnels.

BECBRO
LABORATORY RHEOSTATS

Screw Adjustment Type

"BECBRO" Rheostats carried in stock include numerous different ratings. Included in the stock sizes are tubular types of lengths 20"; 16"; 8"; the resistance element being Wire or Ribbon.

Each tube has a slider adjustment which varies the resistance by very small steps from Zero to total value of the unit.

The approximate total resistance of these stock rheostats vary from 0.3 ohm to 30,000 ohms per unit, and have corresponding current capacities of 25 amperes down to 0.1 amperes.

Rheostats of more or less special construction include the Single Tube equipped with two rods and two sliders; Single and Double Tube equipped with Screw Adjustment (see cut); Double and Triple Tubes mounted as a Unit; Non-Inductive Wound Tubular and Stone Types.

"BECBRO" Carbon Compression Rheostats with corresponding Normal Ratings of 250; 1000; 1500; 3000 Watts.

COLEMAN & BELL
Laboratory Reagents are Dependable!

Our List Includes:
C. P. Inorganic Chemicals
C. P. Organic Chemicals
Chemical Indicators (dry). Including
Hydrogen Ion Indicators of Clark & Lubs and Sorensen
Biological Stains (dry)
Reagents and Solutions—
Stains in Solution
Indicators in Solution
Blood Reagents
Diagnostic Reagents
Fixing Solutions
Mounting Media
Volumetric Solutions
Test Papers

Coleman & Bell Products may be secured from the principal dealers in laboratory supplies in the United States and in Foreign Countries, or may be ordered direct. Catalogue sent upon request.

HUMAN EMBRYO SLIDE PREPARATIONS
Both microscopic and lantern slides of the 12 mm human embryo are still available. It will be a great coincidence, and the result of much good luck, if we succeed in obtaining another small embryo fixed and preserved as beautifully as that from which we are still distributing preparations. Therefore instructors are urged to procure now—if they expect ever to need material of this sort—what may never be available again.
