The Bausch & Lomb Permanently Aligned Compact Micro-Projector

This new instrument has been designed to meet the demand for a compact and permanently aligned Micro-Projector. All optical parts are accurately precentered and are vertically and laterally aligned. The only centering adjustment necessary on the part of the user is to bring the light source [either a Mazda unit or an Automatic Feed Arc Lamp] into alignment with the optical axis. This adjustment is easily made by two screws on the rear of the illuminating unit support.

The substage is arranged with three condensers and a heat absorbing filter glass. The condensers—on swinging arms—take care of a range of objectives from a 72 mm Micro-Tessar to a 4 mm objective.

May we send descriptive literature?

Bausch & Lomb Optical Co.
632 St. Paul Street, Rochester, N. Y.
BIOLOGIST (Zoologist), Ph.D., 35, five years' graduate study American universities and Paris, desires new location in College or University on basis of record of 10 years' successful teaching experience and constructive service. Experienced in premedical education and museum work. Member of professional societies. Professional success as indicated by appointments held, papers published, unusual references. Interview desired. Address "T. N.," Science, 2939 Grand Central Terminal, N. Y. City, N. Y.

SCIENTIFIC PERIODICALS
We wish to purchase complete files of Bound and Unbound Magazines such as Journal of Experimental Zoology, American Journal of Physiology, Biochemical Journal, as well as other Scientific Magazines. Odd volumes and copies also interest.

INVENTIONS-PROCESSES
We have responsible clients in the Industrial field who desire to secure rights to inventions and processes of proven or potential commercial value.
We invite correspondence from Physicists and others who desire to profit by their inventions, and we make no charge for consultation and advice.

N.U.
Northwestern University
MEDICAL SCHOOL
Situated in Chicago in close proximity to important Hospitals with an abundance of clinical material.

ADMISSION REQUIREMENTS—Two years of College credit, including a satisfactory course in Physics, Chemistry, Biology or Zoology, and French or German.

COURSE OF STUDY—leading to the degree of Doctor of Medicine—Four years in the Medical School and a fifth year either as Intern in an approved hospital or devoted to research in some branch of Medical Science.

GRADUATE INSTRUCTION—in courses leading to the degree of Master of Arts or Doctor of Philosophy.

RESEARCH FOUNDATION—The James A. Patten Endowment for Research affords unusual opportunities for advanced students of Medical Science to pursue special investigations.

RESEARCH FELLOWSHIPS—Four fellowships of the value of $500 each are awarded annually to promote scholarly research.

TUITION FEES—The tuition fee for undergraduate students is $215.00 a year. Next session begins September 28, 1926.

Just one of our Superior Methods

In producing Analysis-Certified Chemicals, we are determined to adopt every reasonable expedient that will give our customers unusual quality or convenience.

An example is our new square-necked wax bottle for Hydrofluoric Acid. This sensible shape for the opening gives the user—no matter how he happens to pick up the bottle—a groove through which he can pour the acid just where it is wanted, without waste or danger of spattering this corrosive acid on the user. Square stopper fits snugly.

You will be delighted with Sterling Service on Analysis - Certified Chemicals.
Send for Price List. Sterling Products Company, Dept. 8 Easton, Pa.
