*A Steady  
Stream of  
Bubbles*

*with the*

*Hoke-Phoenix  
Regulator*

With a Hoke-Phoenix Regulator (pressure reducing valve) you can have exactly the pressure you want—high or low—all the time. No spurting, no sucking back, no waste of time or reagents.

Valuable in pH work, spraying, combustions, calorimetry, etc. Used by Columbia, Edgewood Arsenal, various U. S. laboratories, etc.

Ask us about commercial-size tanks; you will be surprised at their availability everywhere, and their economy even for small users.

Mention type of work you are doing.

## COLEMAN & BELL

Laboratory Reagents are Dependable!

Our List Includes:  
C. P. Inorganic Chemicals  
C. P. Organic Chemicals  
Chemical Indicators (dry). Including  
Hydrogen Ion Indicators of  
Clark & Lubs and Sorensen  
Biological Stains (dry)  
Reagents and Solutions—  
Stains in Solution  
Indicators in Solution  
Blood Reagents  
Diagnostic Reagents  
Fixing Solutions  
Mounting Media  
Volumetric Solutions  
Test Papers

Coleman & Bell Products may be secured from the principal dealers in laboratory supplies in the United States and in Foreign Countries, or may be ordered direct. Catalogue sent upon request.

# Every laboratory should be equipped with *enough* of these test tubes

**F**OR many laboratory operations the use of PYREX test tubes is not only desirable, but essential. Their resistance to heat and to sudden cooling, their high chemical stability, and their *dependability* under exacting conditions far more than justify a somewhat higher initial cost.

Experienced chemists always keep on hand an adequate supply of PYREX test tubes to meet such conditions. For they realize the wastefulness in time and effort of test tubes breaking during an important or delicate experiment.

But even for everyday, routine work, PYREX test tubes are more satisfactory and dependable—eliminating the annoyance of constant glassware breakage.

PYREX test tubes are obtainable in standard shapes and sizes to meet different laboratory requirements. Like all PYREX laboratory ware, they will still be giving service long after ordinary glassware has been replaced several times. Write for latest catalog.

## \*PYREX Industrial Equipment

Wherever visibility or chemical stability is desirable—or where corrosion or heat resistance is a factor, PYREX equipment is replacing metal installations in more and more industrial plants.

The services of specially trained engineers are available without cost or obligation. Write for information.

### CORNING GLASS WORKS

Laboratory Glassware Division, Corning, New York

NEW YORK OFFICE: 501 FIFTH AVENUE

Largest Makers of Technical Glassware in the World

Every PYREX test tube is identified by the trade-mark PYREX, which designates a product of Corning Glass Works and as such carries Corning Glass Works' guarantee against defects of workmanship and material

## \*PYREX equipment for general laboratory use:

Beakers	Condensers
Flasks	Graduated Cylinders
Test Tubes	Funnels
Combustion Tubes	Graduates

\* Trade-Mark Reg. U. S. Pat. Off.
