Two New Books for Nature Lovers

The second in the series of monographs sponsored by the American Society of Mammalogists. The first comprehensive work on the beaver issued in fifty years, Mr. Warren’s study is based on long, close personal observation of the beaver in its natural environment. While scientifically correct, the book is written in non-technical style that every amateur naturalist can understand and enjoy.

FOGS AND CLOUDS—By W. J. Humphreys, U. S. Weather Bureau, Author of “Weather Proverbs and Paradoxes”; “Rainmaking,” etc.

“A very remarkable book presenting a system for specific cloud identification. Contains the best collection of cloud photographs ever assembled in one book.”

—The Nautical Gazette.

“All who have occasion to watch the sky will enjoy the photographs and accompanying text.”

—Science News Letter.

“Very few people can have any idea of the fascination and scientific importance of cloud study. Mr. Humphreys gives us 93 remarkable pictures to illustrate his account of fogs and clouds.”

—The Forum.

Just one of our Superior Methods

In producing Analysis-Certified Chemicals, we are determined to adopt every reasonable expedient that will give our customers unusual quality or convenience.

An example is our new square-necked wax bottle for Hydrofluoric Acid. This sensible shape for the opening gives the user—no matter how he happens to pick up the bottle—a groove through which he can pour the acid just where it is wanted, without waste or danger of spattering this corrosive acid on the user. Square stopper fits snugly.

You will be delighted with Sterling’s service on Analysis-Certified Chemicals.

Sterling Products Company, Dept. 8
Easton, Pa.
Marine Biological Laboratory
Woods Hole, Mass.

INVESTIGATION
Entire Year
Facilities for research in Zoology, Embryology, Physiology, and Botany. Fifty-two private laboratories $100 each and ninety-four private laboratories $250 each for not over three months. Fifty-six tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for each such a table is $50.00.

INSTRUCTION
June 28 to August 8, 1927
Courses of laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology, and Morphology and Taxonomy of the algae. Each course requires the full time of the student. Fee, $75.00.

SUPPLY DEPARTMENT
Open the Entire Year
BIOLOGICAL SUPPLIES
For the classroom, museum or collector.
First class preparations.
Send for new (1926) Catalogue No. 1, Zoological and Embryological material, Life Histories and Habitat Groups.
Catalogue No. 2, Botanical material.
Catalogue No. 3, Microscopic slides.
Address all correspondence regarding material and catalogues to: Supply Department, GEO. M. GRAY, Curator, Woods Hole, Mass.
The annual announcement will be sent on application to The Director, Marine Biological Laboratory, Woods Hole, Mass.

The Biological Laboratory
Cold Spring Harbor, Long Island, N. Y.

Investigation
Facilities for research in Physiology, Protozoology, Embryology and other branches of Zoology, and Botany. Fee for private room $75.
Special equipment for mammalian work.
Opportunities for beginning investigators. Fee $50.

Instruction
Six weeks, June 26th to August 9th. Courses in Field Zoology, Physiology, Experimental Surgery, Endocrinology, Field Botany and Plant Ecology. Tuition $75.
Situated in a region rich in marine, fresh water, woodland and meadow life. One hour from the center of New York City. For information, address the Biological Laboratory, Cold Spring Harbor, Long Island, N. Y.

LIVING BULLFROGS
Safe delivery guaranteed
We are just recovering from the acute shortage due to the unprecedented droughts of 1924 and 1925. Be sure to reserve your next year's supply while in season, March, April or May. Correspondence solicited.
Also headquarters for living and preserved specimens of all types, microscopic slides, life histories, demonstrations, insect collections. We specialize in many important southern species not obtainable elsewhere.
All material guaranteed without reservations.

Johns Hopkins University
SCHOOL OF MEDICINE

The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

COURSES FOR GRADUATES
In addition to offering instruction to students enrolled as candidates for the degree of Doctor of Medicine, the School also offers Courses for Graduates in Medicine. In each of the clinical departments opportunity for advanced instruction will be offered to a small number of physicians, who must satisfy the head of the department in which they desire to study that they are likely to profit by it.

Students will not be accepted for a period shorter than three academic quarters of eight weeks each, and it is desirable that four quarters of instruction be taken. The courses are not planned for purposes of review but for broad preparation in one of the lines of medical practice or research. The opportunities offered will consist in clinical work in the dispensary, ward-rounds, laboratory training, and special clinical studies.

The academic year begins the Tuesday nearest October 1 (October 4, 1927), and students may be admitted at the beginning of any academic quarter. The charge for tuition is $50 a quarter, payable in advance.

Inquiries should be addressed to the Executive Secretary of the School of Medicine, Johns Hopkins University, Washington and Monument Streets, Baltimore, Maryland.

School of Tropical Medicine
of the
University of Porto Rico
under the auspices of
COLUMBIA UNIVERSITY

San Juan, P. R.

An institution for the study of tropical diseases and their prevention.

New building containing well equipped laboratories and library. Clinical facilities in general and special hospitals. Field work in cooperation with Insular Department of Health.

Courses in bacteriology, mycology, parasitology, pathology, food chemistry, public health and transmissible diseases, open to graduates in medicine and others having equivalent preparation. Number of students limited.

First term of second session begins Oct. 1, 1927; second term, Feb. 1, 1928. Special students and investigators admitted at other times as space and circumstances permit. In all cases arrangement in advance is advised.

For further information apply to
Director
School of Tropical Medicine
San Juan, Porto Rico.
