GEO. M. GRAY,
Curator, Woods Hole, Mass.
The annual announcement will
be sent on application to The
Director, Marine Biological Labora-
tory, Woods Hole, Mass.

The Biological Laboratory
Cold Spring Harbor, Long Island, N. Y.

INVESTIGATION
Facilities for research in Physiology, Protozoology,
Embryology and other branches of Zoology, and Bot-
any. Fee for private room $75.
Special equipment for mammalian work.
Opportunities for beginning investigators. Fee $50.

INSTRUCTION
Six weeks, June 26th to August 9th. Courses in
Field Zoology, Physiology, Experimental Surgery,
Endocrinology, Field Botany and Plant Ecology.
Tuition $75.
Situated in a region rich in marine, fresh water,
woodland and meadow life. One hour from the cen-
ter of New York City. For information, address the
Biological Laboratory, Cold Spring Harbor, Long
Island, N. Y.

LIVING BULLFROGS
Safe delivery guaranteed
We are just recovering from the acute shortage
due to the unprecedented droughts of 1924 and 1925.
Be sure to reserve your next year’s supply while
in season, March, April or May. Correspondence
solicited.
Also headquarters for living and preserved speci-
mens of all types, microscopic slides, life histories,
demonstrations, insect collections. We specialize
in many important southern species not obtainable
elsewhere.
All material guaranteed without reservations.

Coleman & Bell
Biological Stains

Are recognized throughout the United
States and foreign countries as being
DEPENDABLE. This is due to the
high standards of quality enforced in the
manufacture, purification and testing of
these products.

A number of the common stains are
now available with the certificate of the
Commission on Standardization of Bio-
logical Stains.

Complete catalogue of Laboratory Re-
agents upon request.

THE COLEMAN & BELL COMPANY
(Incorporated)
Manufacturing Chemists
Norwood, Ohio, U. S. A.

JAGABI RHEOSTATS
meet a definite need in Educational, Research
and Industrial Laboratories.

By means of sliding-
contacts the resistance
values can be varied
from zero to full rat-
ing, in exceedingly
small steps. We find greatest de-
mand for Rheostats
with tubes 16" long, as
illustrated above.

IMPORTANT SCIENCE TEXTS IN PREPARATION
(New texts and revisions ready for summer school use or for the coming fall.)

ROSE:  Foundations of Nutrition
        By Mary Swartz Rose, Teachers College, Columbia University
A text for the basic college course in Nutrition or Dietetics, presenting fundamental
principles, with a wealth of illustrations and important charts and tables. Will be supple-
mented admirably by the Rose: Laboratory Handbook for Dietetics.
Ready July 1st, 12mo, about 460 pages.

WALTER:  Comparative Anatomy
        By Herbert E. Walter, Brown University.
This carefully prepared text will have the breadth of viewpoint, the clearness of style,
the teaching qualities, and the human touch which have characterized his other writings.
Ready in late summer.

NOYES and BRAY:  Qualitative Analysis for the Rare Elements
        By Arthur A. Noyes, California Institute of Technology, and
        William C. Bray, University of California.
Bringing together the results of investigations during the past thirty years, this new
work provides the chemical analyst and advanced student with a simple, accurate pro-
cedure for the detection of practically all the metal-forming elements.
Ready July 1st, 8vo, about 470 pages.

CREW:  General Physics
        By Henry Crew, Northwestern University.
An extensive revision of this standard text, presenting enough of the modern physics
for the beginning college courses, and stressing in addition the important contacts of
physics with chemistry, astronomy, and other sciences.
Ready June 14th, 8vo, about 700 pages.

LOVE:  Analytic Geometry
        By Clyde E. Love, University of Michigan.
New problems, an increased number of suggestions to students, references and worked
examples, and the omission of some minor or difficult material mark this revision. Em-
phasis is placed on an understanding of principles rather than mechanical drill.
Ready July 1st, crown 8vo, about 330 pages.

WOODRUFF:  Foundations of Biology
        By Lorande Loss Woodruff, Yale University.
Third edition

BAITSELL:  Manual of Biological Forms
        By George Baitsell, Yale University.
Revised edition

        By George Baitsell, Yale University.
Revised edition

YOUNG and BAXTER:  Mechanics of Materials
        By George Young, Jr., and H. E. Baxter, Cornell University
A basic text for the course on Strength of Materials or Mechanics of Materials, assum-
ing an elementary knowledge of physics and mathematics, written in a simple, direct,
and unusually teachable style. The visual appeal is made throughout, and graphical
solutions are freely used.
Ready in August, 8vo, about 530 pages.

Teachers interested in considering the
above books for class use will gladly
be mailed examination copies on pub-
lication. Write now.

THE MACMILLAN COMPANY
60 Fifth Ave.
New York City
School of Medicine

NEW ADMISSION REQUIREMENTS
At least three years of approved college work including specified requirements in the sciences.

DEGREE OF B.S. IN MEDICAL SCIENCE
This degree may be awarded at the end of the third or fourth year to students fulfilling certain conditions including the preparation of a thesis.

DEGREE OF DOCTOR OF MEDICINE
Upon satisfactory completion of prescribed four-year course.

For catalogue and information, address
THE DEAN, Washington University
School of Medicine, St. Louis, Missouri

Johns Hopkins University
SCHOOL OF MEDICINE
The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

COURSES FOR GRADUATES
In addition to offering instruction to students enrolled as candidates for the degree of Doctor of Medicine, the School also offers Courses for Graduates in Medicine. In each of the clinical departments opportunity for advanced instruction will be offered to a small number of physicians, who must satisfy the head of the department in which they desire to study that they are likely to profit by it.

Students will not be accepted for a period shorter than three academic quarters of eight weeks each, and it is desirable that four quarters of instruction be taken. The courses are not planned for purposes of review but for broad preparation in one of the lines of medical practice or research. The opportunities offered will consist in clinical work in the dispensary, ward-rounds, laboratory training, and special clinical studies.

The academic year begins the Tuesday nearest October 1 (October 4, 1927), and students may be admitted at the beginning of any academic quarter. The charge for tuition is $300 a quarter, payable in advance.

Inquiries should be addressed to the Executive Secretary of the School of Medicine, Johns Hopkins University, Washington and Monument Streets, Baltimore, Maryland.

School of Tropical Medicine
of the
University of Porto Rico
under the auspices of
COLUMBIA UNIVERSITY
San Juan, P. R.

An institution for the study of tropical diseases and their prevention.
New building containing well equipped laboratories and library. Clinical facilities in general and special hospitals. Field work in cooperation with Insular Department of Health.
Courses in bacteriology, mycology, parasitology, pathology, food chemistry, public health and transmissible diseases, open to graduates in medicine and others having equivalent preparation. Number of students limited.
First term of second session begins Oct. 1, 1927; second term, Feb. 1, 1928. Special students and investigators admitted at other times as space and circumstances permit. In all cases arrangement in advance is advised.
For further information apply to
Director
School of Tropical Medicine
San Juan, Porto Rico.

School of Medicine and Dentistry
THE UNIVERSITY OF ROCHESTER
Medical School, Strong Memorial Hospital and Out-Patient Department of the University of Rochester and the Municipal Hospital of the City of Rochester, all under one roof. Medical, Surgical, Obstetrical, Pediatric, Congenital and Neurological patients admitted. Unusual opportunities for school and hospital cooperation in medical and dental teaching.

Admission
Medical and dental candidates must have completed three years of college work with special requirements in chemistry, physics and biology. The entering class will not exceed 40; men and women being admitted on equal terms.

Tuition
Charge for tuition will be $300 per annum, payable in equal installments at the beginning of each semester.

For information address
The Dean—School of Medicine and Dentistry, Crittenden Blvd., Rochester, N. Y.
