More Detail and
Clearer Vision

If you are accustomed to using a monocular microscope, the Bausch and Lomb FFSE will surprise you with its superior detail and clearness of the image.

Then too, the binocular feature divides the effort of observation and eliminates all eye-strain. This instrument is ideally suited for continuous use without fatigue.

NEW YORK UNIVERSITY
Fellowships in Physics

The Department of Physics of New York University offers each year several teaching fellowships in the University College of Arts and Pure Sciences and the College of Engineering. These fellowships are intended for students prepared for graduate work in physics and the holders are accepted as graduate students in the University with remission of tuition fees.

Teaching fellows are expected to give ten hours a week to teaching or other departmental work, usually in the laboratories of the courses in general physics given in the two colleges. They are appointed for one year but those whose work in teaching and graduate study is satisfactory may expect reappointment during the time of their graduate course. The stipend is $1,050 for the academic year.

Applications for fellowships or requests for further information may be addressed to the Chairman of the Physics Department, New York University, University Heights, New York, N. Y.
