PRELIMINARY ANNOUNCEMENT OF THE FIFTH NEW YORK MEETING OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE AND ASSOCIATED SOCIETIES

THE ANNOUNCEMENT AND THE GENERAL PROGRAM

This special issue of SCIENCE is devoted mainly to the preliminary announcement of the approaching New York meeting of men and women of science in all its branches. This meeting will be the eighty-fifth meeting of the American Association and the fifth association meeting to be held in New York. It promises to surpass all earlier meetings in scope, in attendance and in importance to American science.

Those planning to attend the fifth New York meeting should arrange for lodging accommodations at once. A list of New York hotels and their prices has appeared in SCIENCE for November 9. The headquarters hotels for the various societies are shown in the section on associated and invited organizations in the present announcement. Requests for the reservation of hotel rooms should be addressed directly to the hotels.

All who are to present papers at New York should immediately send two copies of each manuscript to Mr. Austin H. Clark, association news manager, American Association for the Advancement of Science, Smithsonian Institution Building, Washington, D. C. Send a third copy to the society or section secretary in whose program the paper is to be presented. If the full manuscript is not sent, be sure to send an abstract.

When you purchase your railway ticket to New York secure a certificate for the New York meeting of the American Association for the Advancement of Science and Associated Societies, and bring the certificate with you to the registration offices for the meeting. (See the section on Railway Transportation in this announcement.)

Members should bring with them their salmon-colored membership cards, showing them to be enrolled for 1928–29.
