BORN THAT WAY

By JOHNSON O'CONNOR, describes a group of aptitude tests which have proven successful in predicting success in industrial applications. Vocational guidance experts, psychologists, geneticists, employment managers—all have vital interest in this new book, just off the press. An extension of the Kent-Rosanoff table is included. $6.00.

THE INVERT

Most books on homosexuality are written from the viewpoint of morbid psychology. This, by an invert, is written for inverts or for those whose work obliges them to deal with inverts as students or proteges. Carefully wrought study of inversion in its relations to society. Introduction by ROBERT H. THOULESS. $2.00.

THE HARVEY LECTURES—

Series XXIII

A new annual series of the well-known Lectures including some papers of especial value, among which may be mentioned Minot's lecture on Pernicious Anemia; Francis on Tularemia; Cohn on Harveian Circulation. $4.00.

THE STORY OF MODERN PREVENTIVE MEDICINE

By SIR ARTHUR NEWSHOLME. A narrative of modern triumphs over infectious diseases. Portions also on environmental and physiological conditions of health. Told easily. An example of good reading in scientific literature. $4.00.

JOHNS HOPKINS UNIVERSITY

SCHOOL OF MEDICINE

The School of Medicine is an Integral Part of the University and is in the Closer Affiliation with the Johns Hopkins Hospital.

ADMISSION

Candidates for admission must be graduates of approved colleges or scientific schools with two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent at any time during the academic year but not later than June 15th.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

INSTRUCTION

The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and special emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION

The charge for tuition for 1929-30 will be $600 per annum, payable in two installments. There are no extra fees except for certain expensive supplies, and laboratory breakage.

Inquiries should be addressed to the Executive Secretary of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Graduates in Medicine who satisfy the requirements of the heads of the departments in which they desire to work are accepted as students for a period not less than three quarters. Tuition charge is $30 a quarter.

The Wistar Institute Bibliographic Service
is of invaluable assistance to
Librarians—Investigators—Teachers
It brings to them, in AUTHORS' ABSTRACT form, a brief review of all original papers on Biological Subjects which appear in the following journals:
- Journal of Morphology and Physiology
- The Journal of Comparative Neurology
- The American Journal of Anatomy
- The Anatomical Record
- The Journal of Experimental Zoology
- American Journal of Physical Anthropology
- The American Anatomical Memoirs
- Folia Anatomica Japonica (Tokio, Japan)
- The Australian Journal of Experimental Biology and Medical Science (Adelaide, South Australia)
- Stain Technology (Geneva, N. Y.)
- Physiological Zoology (Chicago, Ill.)

Advance Abstract Sheets issued every few days, bearing Authors' Abstracts without bibliographic references, offer a practical means of making research immediately available in abstract form and of purchasing articles of special interest in reprint form without the necessity of subscribing to all the journals. Subscription, $3.00 per year.

Bibliographic Service Cards with complete bibliographic references, printed on Standard Library-catalogue cards, are of value and assistance to Librarians and Investigators. Subscription, $5.00 per year.

Abstracts in Book Form referred to above, are brought together periodically, with Authors' and Analytical Subject Indices. Price $5.00 per volume.

Subscriptions to the Bibliographic Service and orders for reprints should be sent to

LIFE OF INLAND WATERS
AN ELEMENTARY TEXT-BOOK
OF FRESH-WATER BIOLOGY
By James G. Needham, Prof. of Limnology and Entomology, Cornell University. (Co-author, John T. Loyd, Ph.D.)
1928 Revised Edition. $3.00

GUIDE TO THE STUDY OF FRESH-WATER BIOLOGY—Needham.
An indispensable collection of illustrations, keys, and tables. $1.00

GENERAL BIOLOGY—Needham.
A comprehensive study of the principles of biology. A text-book fully illustrated. $2.50

An analysis of the sources of agriculture. Fully illustrated. $1.50

PHOTO-ELECTRIC CELLS

THE BURT CELL

Without Fatigue—Highly Sensitive
Absolutely Reproducible—Instantaneous in Response

The BURT-CELL is made by a new method and should not be confused with any other photo-electric cell. By a special process of electrolysis, the photo-electric metal is introduced into a highly evacuated bulb directly through the glass wall of the bulb, giving photo-electric material of absolute purity. The superiority of the BURT-CELL is due to these features, making possible results never before obtainable.

Described in Bulletin No. 271

QUARTZ CELLS—We are pleased to announce that we are manufacturing reproducible quartz photo-cells for measurement of ultra-violet.

We also manufacture the STABILIZED OSCILLOSCOPE—the only VISUAL OSCILLOGRAPH having a linear time-axis and no inertia—giving an accurate picture of high frequency wave forms. This is a most powerful tool for the study of periodic phenomena.

Blood Chemistry Outfits

THE physician’s desire to apply the well established principles of blood chemistry clinically in diagnosis and treatment of disease, has led to the development of the following approved outfits. Their simplicity recommends them to the general practitioner as well as the technician. Full instructions with each set.

BLOOD UREA  BLOOD SUGAR
Price—$15.00  Price—$25.00

BLOOD CALCIUM  ICTERUS INDEX
Price—$35.00  Price—$7.50

BLOOD pH  URINE pH
Price—$20.00  Price—$30.00

BLOOD BROMIDE
Price—$12.50

All prices are f. o. b. Baltimore. When remittance accompanies order, transportation charges will be prepaid in U. S. A.

Baltimore, Md., U. S. A.

The Printing of SCIENTIFIC PUBLICATIONS

The Science Press Printing Company has been established and equipped for printing scientific literature in the best way, with compositors, pressmen and proof-readers trained for technical work. It is a business corporation but it has been founded to provide facilities essential for the advancement of science.

The corporation owns its building at Lancaster, Pennsylvania, over 14,000 square feet of floor space lighted on all sides, with space for printing a hundred scientific journals. It has the best obtainable presses, composing machinery and binding equipment. What is more important, it has the most competent pressmen and compositors in a city which since “Science” was first printed there in 1894 has become a center for fine scientific printing. The costs are much less than in the large cities.

The press prints “The Scientific Monthly,” “Science,” “School and Society,” “The American Naturalist” and some twenty other scientific journals and publications. The typography and presswork of these journals will bear comparison with any weekly or monthly publication, although, for example, “Science” must be printed mostly in one day in an edition of over 13,000. The new edition of “The Biographical Directory of American Men of Science” is an example of the work of the press. It can to special advantage print scientific monographs and doctorate dissertations.

Samples of work and estimates of costs will be supplied on application.
