NEW SCIENTIFIC BOOKS

A SOURCE BOOK IN ASTRONOMY. Harlow Shapley and Helen E. Howarth. pp. xvi + 412. Illustrated. $4.00.

A synopsis of the great contributions to astronomy of the past four hundred years. Many of the quotations are essentially complete articles. More than sixty contributions are included.

These two volumes contain practically all Bateson's contributions to purely scientific journals, together with portions of his earlier books. Volume I is concerned chiefly with problems of variation, volume II with that of heredity.

The Macmillan Company, New York

TESTING INTELLIGENCE AND ACHIEVEMENT. A. J. Levine and L. Marks. pp. viii + 599. $2.00.

A textbook designed to serve teachers, social workers and students of psychology as a compact and rapid survey of the field of testing.

VERTEBRATE ZOOLOGY. G. R. DeBeer. pp. xx + 505. 185 illustrations. $5.50.

Paul B. Hoeber, Incorporated, New York

WILLIAM HARVEY. Archibald Malloch. pp. xi + 103. Illustrated. $1.50.

An attempt is here made to show how a knowledge of the circulation was painfully and slowly won in the centuries before Harvey and exactly how the latter discovered the circulation of the blood.

INDUSTRIAL CARBON. C. L. Mantell. 410 pp. $4.50.

In preparing this book, the author has attempted to cover the technological applications of elemental carbon, aside from its use as a fuel. A chapter on charcoal as a fuel is included for reference in connection with the many applications of charcoal as an adsorbent.

Yale University Press, New Haven

A series of popular lectures delivered at the University of Missouri, which deal with the nature of growth its statistical, nutritional and morphological aspects and its physiological regulation.

INCOMES AND LIVING COSTS OF A UNIVERSITY FACULTY. Yandell Henderson and Maurice R. Davie. pp. viii + 170. $2.00.

This study covers such questions as modes of living and their costs; size of families; income from salaries and from supplementary earnings; expenditures, insurance, savings; incomes in other callings, and economic levels of professors' neighbors.

JOHNS HOPKINS UNIVERSITY

SCHOOL OF MEDICINE

The School of Medicine is an integral part of the University and is in the closest affiliation with the Johns Hopkins Hospital.

ADMISSION

Candidates for admission must be graduates of approved colleges or scientific schools with two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent any time during the academic year but not later than June 10th. If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

INSTRUCTION

The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and special emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION

The charge for tuition for 1929-30 will be $500 per annum, payable in two installments. There are no extra fees except for certain expensive supplies, and laboratory breakage.

Inquiries should be addressed to the Executive Secretary of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Graduates in Medicine who satisfy the requirements of the heads of the departments in which they desire to work are accepted as students for a period not less than three quarters. Tuition charge is $50 a quarter.
