NEW JAGABI RHEOSTATS—

wound on porcelain tubes instead of porcelain-enameled iron tubes, have high insulation and low inductance. They meet an ever increasing demand by Educational, Research and Industrial Laboratories for better and more rugged Jagabi Rheostats.

Write for *New Bulletin 1215-S*, listing 57 Standardized ratings, which are carried in stock.

JAMES G. BIDDLE, 1211-13 ARCH ST., PHILADELPHIA

JOHNS HOPKINS UNIVERSITY SCHOOL OF MEDICINE

The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION

Candidates for admission must be graduates of approved colleges or scientific schools with two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent any time during the academic year but not later than June 15th.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

INSTRUCTION

The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and especial emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION

The charge for tuition for 1929-30 will be \$600 per annum, payable in two installments. There are no extra fees except for certain expensive supplies, and laboratory breakage.

Inquiries should be addressed to the Executive Secretary of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Graduates in Medicine who satisfy the requirements of the heads of the departments in which they desire to work are accepted as students for a period not less than three quarters. Tuition charge is \$50 a quarter.

MOUNT DESERT ISLAND BIOLOGICAL LABORATORY

Summer Course. Problems in Field Natural History.
July 1st-August 23rd, 1929.

Work of advanced college undergraduate or of graduate grade may be undertaken with insects, arachnids, fishes, amphibians, birds or mammals.

The enrollment will be confined to a limited number of students each of whose applications will be considered individually.

Course work will be in charge of Dr. C. C. Little, University of Michigan, Ann Arbor, Michigan, to whom requests for further information should be made.

Allegheny School of Natural History

In Allegheny State Park, Quaker Bridge, N. Y.

Third Season—July 5 to August 24, 1929.

Registration limited to fifty (50)

Field studies in Botany, Zoology, Geology

Natural conditions favorable in richness and variety, suitable laboratories and equipment, comfortable living in a stimulating climate, guidance from experienced teachers and investigators.

Sponsored by the Buffalo Society of Natural Sciences, the New York State Museum, and the University of Buffalo (with college credit).

For circulars or registration, address until June 15:

DR. ROBERT E. COKER, Director
Box 95

Chapel Hill, N. C.

INDUSTRIAL RESEARCH POSITIONS

in

Department of Physics, University of Michigan

Full time industrial research positions are open for men who would desire to work on the following problems: (1) development of new methods of measuring temperatures of molten metal; (2) measurement and reduction of noises in machinery, involving the design and use of vacuum tube amplifiers and associated apparatus. Preference will be given to men who have attained the Doctorate and have had additional research experience. Budgets are ample, facilities good, hours flexible. One month's vacation with pay. If interested, state experience, salary expected, when available, and send photograph.

LaMOTTE-MORGAN SOIL TESTING SET

This handy outfit is especially designed for rapid, accurate work in determining soil reactions. Tests can be made in from 2 to 5 minutes with an accuracy of 0.2 pH. The set covers the pH range 4.0-8.4 and this range can be extended on either end.

Complete with instructions, color chart and LaMotte Soil Handbook containing an extensive list of plants with their soil preferences.

Price \$10.00 f.o.b. Baltimore.

LaMotte Chemical Products Co.

418 Light St.

Baltimore, Md., U. S. A.

This book is a practical treatise on color photography

Write for your copy —and it is free to all engaged in scientific research.

Inasmuch as it is the actual instruction book for the Agfa Color Plate process, explaining the methods of photographic procedure and finishing the natural color transparencies for record or projection, it contains a wealth of photographic information invaluable to anyone engaged in scientific photography.

Our technical staff will be glad to advise how Color Photography can be adapted to any specific field.
