Books Recently Issued

No. 382. **Willis, Bailey.** Studies in Comparative Seismology: Earthquake Conditions in Chile. Quarto. Pp. xi + 178, 75 pls., 19 text-figs. \$5.50

No. 391. **Papers from the Tortugas Laboratory of Carnegie Institution of Washington.** Vol. XXVI. Octavo. 257 pp., 4 pls., 97 text-figs. \$2.50

This book contains the following papers:

Tennent, D. H., C. V. Taylor, and D. M. Whitaker.—An Investigation on Organization in a Sea-Urchin Egg.

Tennent, D. H.—Activation of the Eggs of *Echinometra mathaei* by the Sperms of the Crinoids *Comatula pectinata* and *Comatula purpurea*.

Tennent, D. H.—Early Development and Larval Forms of Three Echinoids of the Torres Strait Region.

Boschma, H.—On the Postlarval Development of the Coral *Maeandra areolata* (L.).

Gudger, E. W.—On the Morphology, Coloration and Behavior of Seventy Teleostean Fishes of Tortugas, Florida.

Pearse, A. S.—Observations on Certain Littoral and Terrestrial Animals at Tortugas, with Special Reference to Migration from Marine to Terrestrial Habitats.

Pearse, A. S.—Two New Mites from the Gills of Land Crabs.

Lipman, C. B.—Further Studies on Marine Bacteria with Special Reference to the Drew Hypothesis on CaCO₃ Precipitation in the Sea.

Lipman, C. B.—The Chemical Composition of Sea-Water.

No. 394. **Contributions to Embryology, Vol. XX.** Nos. 109 to 117. Quarto, vi + 257 pp., 52 pls., 33 text-figures \$5.50

This book contains the following papers:

Heuser, C. H., and G. L. Streeter.—Early Stages in the Development of Pig Embryos, from the Period of Initial Cell Cleavage to the Time of the Appearance of Limb Buds. (Contribution No. 109.) Pp. 1-29, 12 plates, 8 text-figures.

Flexner, L. B.—The Development of the Meninges in Amphibia; a Study of Normal and Experimental Animals. (Contribution No. 110.) Pp. 31-49, 3 plates.

Wislocki, George B.—On the Placentation of Primates, with a Consideration of the Phylogeny of the Placenta. (Contribution No. 111.) Pp. 51-80, 7 plates, 2 text-figures.

Corner, G. W.—A Well-Preserved Human Embryo of 10 Somites. (Contribution No. 112.) Pp. 81-100, 7 plates, 9 text-figures.

Cummins, H.—The Topographic History of the Volar Pads (walking pads: Tastballen) in the Human Embryo. (Contribution No. 113.) Pp. 103-126, 8 plates, 2 text-figures.

Langworthy, O. R.—A Correlated Study of the Development of Reflex Activity in Fetal and Young Kittens and the Myelination of Tracts in the Nervous System. (Contribution No. 114.) Pp. 127-171, 8 plates.

Lewis, W. H.—The Effect of Various Solutions and Salts upon the Pulsation Rate of Isolated Hearts from Young Chick Embryos. (Contribution No. 115.) Pp. 173-192.

Lewis, W. H.—Macrophages and Other Cells of the Deep Fascia of the Thigh of the Rat. (Contribution No. 116.) Pp. 193-212, 7 plates.

No. 397. **MacDougal, D. T., J. B. Overton, and Gilbert M. Smith.** The Hydrostatic Pneumatic System of Certain Trees: Movements of Liquids and Gases. Octavo. 99 pp., 22 figs. \$1.25

CARNEGIE INSTITUTION OF WASHINGTON
WASHINGTON, D. C.

Shipways to the Sea

Is the inviting title of ERNEST S. CLOWES, careful study of our inland and coastal waterways; a narrative of first economic importance, particularly to the Middle West. Past history and present problem are briefly traced; then the author goes forward to detailed discussion of the Mississippi and her floods; of the Great Lakes; of the St. Lawrence; of Canal outlets; of the western rivers; of the future.

Scheduled for publication April 30

Price \$5.00

Medicine: Its Contribution to Civilization

A splendid presentation, by DR. EDWARD B. VEDDER, of the knowledge gained in practical and preventive medicine in the last fifty years, for general rather than professional reading. It tells a lot about medicine that even well informed people do not know—and corrects a lot of misinformation upon which even well informed people rely.

Scheduled for publication May 7 Price \$5.00

Studies in the History of the Statistical Method

HELEN M. WALKER here presents for the first time the historical background of educational statistics, and thus places all students of the science of education in her debt. The illustrations are a distinctive adjunct. The author is Associate in Educational Statistics of Teachers College, Columbia.

Scheduled for publication May 15 Price \$5.00

The Toxemias of Pregnancy

An outstanding study by H. J. STANDER, of the Johns Hopkins Medical School and Hospital. A monograph which cannot fail to be of value to any physician whose practice includes obstetrics.

Scheduled for publication April 16 Price \$3.00

JOHNS HOPKINS UNIVERSITY SCHOOL OF MEDICINE

The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION

Candidates for admission must be graduates of approved colleges or scientific schools with two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent any time during the academic year but not later than June 15th.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

INSTRUCTION

The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and especial emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION

The charge for tuition for 1929-30 will be \$600 per annum, payable in two installments. There are no extra fees except for certain expensive supplies, and laboratory breakage.

Inquiries should be addressed to the Executive Secretary of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Graduates in Medicine who satisfy the requirements of the heads of the departments in which they desire to work are accepted as students for a period not less than three quarters. Tuition charge is \$50 a quarter.

School of Medicine and Dentistry THE UNIVERSITY OF ROCHESTER

Medical School, Strong Memorial Hospital, School of Nursing and Out-Patient Department of the University of Rochester and the Municipal Hospital of the City of Rochester, all under one roof. Medical, Surgical, Obstetric, Pediatric, Contagious and Neurological patients admitted. Unusual opportunities for school and hospital cooperation in medical and dental teaching.

Admission

Medical and dental candidates must have completed three years of college work with special requirements in chemistry, physics and biology. The entering class will not exceed 45, men and women being admitted on equal terms.

Tuition

Charge for tuition will be \$300 per annum, payable in equal installments at the beginning of each semester.

AMERICAN MEN OF SCIENCE

A Biographical Directory

Edited by

J. McKeen Cattell and Jaques Cattell

New Impression now ready

The fourth edition of the Biographical Directory of American Men of Science contains about 13,000 sketches and extends to 1,132 pages. It is an invaluable work of reference for scientific men. It is useful for libraries, newspapers, educational executives and all who have relations with those engaged in scientific research.
