INTERNATIONAL COOPERATION IN GEOGRAPHICAL WORK

By Dr. WILLIAM BOWIE

U. S. COAST AND GEODETIC SURVEY

In my capacity as a delegate from the United States I am representing the National Geographic Society of Washington, D. C., as well as the Department of Commerce of the United States government. The officials of the National Geographic Society requested me to extend to this assembly their most cordial greetings and their best wishes for a bright and distinguished career for this institute which we are now bringing into existence.

The officials of the National Geographic Society are deeply interested in all phases of geographical science. They have done much to bring the nations of the world into closer touch with each other by the dissemination of accurate geographical information supplemented by a remarkable series of pictures in their splendid National Geographic Magazine that is known to every educated man in the world. The officials have expressed to me the hope that they may have very close contact with the officials of the Pan-American Institute of Geography and History in order that the science of geography may be carried even further than it has been in the past.

They expressed the hope that the government agencies of the various American nations which are engaged in any phase of geographical science will receive the support of those officials of the government who have to do with the allotment of funds for these official geographical services. They also expressed the hope that non-official agencies, such as geographical societies or geographical departments of universities, may be stimulated by the organization of the Pan-American Institute of Geography and History to
