THE WISTAR INSTITUTE

BIBLIOGRAPHIC SERVICE

ISSUES

AUTHORS' ABSTRACTS

of all papers appearing in the journals listed below prior to publication of the articles in full. By this advance information biologists may familiarize themselves with contemporary research in a minimum of time.

Advance Abstract Sheets are issued twice a month, each sheet containing ten or more authors' abstracts. Subscription rate is $3.00 per year.

Bibliographic Service Cards, following the Advance Abstract Sheets, also are issued twice a month. In addition to the authors' abstracts, the cards provide subject headings and complete bibliographic reference. The cards are convenient for filing and library records. Price, $5.00 per year.

At regular intervals the authors' abstracts are assembled and published in book form with complete authors' and analytical subject indices. Price, $5.00 per volume. Liberal discount to subscribers to the Bibliographic Service Cards.

LEADERS IN EDUCATION

A Biographical Directory

Edited by J. McKEEN CATTELL

The Biographical Directory of Leaders in Education will take a place among the most important works of reference. Material for the book has been in course of collection for a number of years along the lines of the Biographical Directory of American Men of Science, which in successive editions has been a standard work for twenty-five years. The two directories are under the same editorship, as are also Science and School and Society, weekly journals, the former of which since 1895, the latter since 1915, have maintained the highest position in the fields of science and of education.

The Biographical Directory of Leaders in Education contains biographies of more than 11,000 of those in America who have done the most to advance education, whether by teaching, writing, research or administration, a careful selection from the million educational workers of the United States and Canada. They are those to whom daily reference is made in the press, from whom all positions of importance are filled. It is a work useful to all who have relations with those engaged in educational work, essential to school executives and members of school boards, necessary to every reference library.

Not only on the editorial side but also in mechanical production, the book maintains the standards of American Men of Science, being well printed and well bound, a book satisfactory for any student or any library to own, to show and to use.
