The Package Reflects the Product

WHATMAN Filter Papers are all packed in boxes at the mill to exclude dirt and dust and to provide a handy storage receptacle in the laboratory.

In addition, the acid washed grades are wrapped in transparent material to exclude fumes and reduce the chances of contamination to a minimum.

WHATMAN Filter Papers are worthy of this extra added protection. They are manufactured under chemical control in a variety of grades to rigid specifications that assure the adaptability of each grade to specific analyses.

Leading Laboratories in all lines of industry have standardized on WHATMAN Filter Papers because they are uniformly dependable, immediately available, carefully packed and modestly priced.

Standardize your Laboratory on WHATMAN and forget about Filter Papers

Samples await your request.
