BIBLIOGRAPHIC SERVICE

ISSUES

AUTHORS' ABSTRACTS

of all papers appearing in the journals listed below prior to publication of the articles in full. By this advance information biologists may familiarize themselves with contemporary research in a minimum of time.

Advance Abstract Sheets are issued twice a month, each sheet containing ten or more authors' abstracts. Subscription rate is $3.00 per year.

Bibliographic Service Cards, following the Advance Abstract Sheets, are also issued twice a month. In addition to the authors' abstracts, the cards provide subject headings and complete bibliographic reference. The cards are convenient for filing and library records. Price, $5.00 per year.

At regular intervals the authors' abstracts are assembled and published in book form with complete authors' and analytical subject indices. Price, $5.00 per volume. Liberal discount to subscribers to the Bibliographic Service Cards.

LEADERS IN EDUCATION

A BIOGRAPHICAL DIRECTORY

Edited by J. McKeen Cattell

The Biographical Directory of Leaders in Education contains biographies of over 11,000 of those in America who have done the most to advance education, whether by teaching, writing, research, or administration, a careful selection from the million educational workers of the United States. They are those to whom daily reference is made in the press, from whom all positions of importance are filled. It is a work essential to all who have relations with those engaged in educational work, necessary to every reference library.

Over 1,000 pages Over 11,000 biographies Price $10.00

By

Willem De Sitter
Director of the Observatory, Leiden, Holland

"Dr. Willem De Sitter has contributed so much to modern theories of our universe that any book from his pen must command the attention of the scientific world and of the intelligent reader who would keep in touch with the rapid expansion of astronomical concepts. This new volume is a scholarly treatment of the evolution of ideas regarding the structure of the universe, from ancient times to the present day... The closing chapter gives an excellent summary of the contributions of Einstein and of the author with regard to the more theoretical aspects of the properties and distribution of matter and space."—Scientific Book Club Review.
