CAROTOTENE
Primary Vitamin A
\( \text{C}_{40}\text{H}_{56} \)

For your vitamin A investigations, carotene (primary vitamin A) of known potency and definite purity is now available at minimum cost in the following products:

Smaco Crystalline Carotene
Smaco Caritol (0.3\% carotene in oil)

Carotene satisfies the minimal vitamin A requirements of the rat when fed at a level of one-half gamma (0.000005 gram) daily. One gram of pure carotene, therefore, supplies two million Sherman units of vitamin A.

Price of crystalline carotene—$5.00 a gram.
Special quotations for large quantities.

100 milligram vacuum-packed tubes of carotene are available for demonstration purposes at 75c each.

For further information, write to Department H.
