FISHES

Their Journeys and Migrations

By LOUIS ROULE

"In this charmingly written, colorful narrative, Professor Roule presents the essential known facts about the life histories and migrations of a representative series of European fishes, applicable to fishes of the world in general."—*John T. Nichols, American Museum of Natural History.* Illus. \$3.75

Nature and Nurture

By LANCELOT HOGBEN

In this book the author interprets modern methods of research in human genetics. He discusses the methods available for detecting differences due to heredity and to environment, more especially as the problem arises in connection with the study of disease and mental defects, keeping to the forefront the new concepts which have emerged from the latest research into the physiology of the gene and its rôle in development. \$2.75

W. W. NORTON & COMPANY,

FREUD brings his psychoanalysis up to date

"After a silence of more than fifteen years, I have brought you together again in order to discuss with you the new developments, or it may be improvements, which have taken place in psychoanalytic theory during the interval." With these words Dr. Freud opens his new book.

This is not a revised edition to any former work, but an entirely new book. Addressed as much to the layman as to the specialist, it can be used as an independent introduction to the subject. \$3.00

New Introductory Lectures on PSYCHOANALYSIS

By DR. SIGMUND FREUD

A Biographical History of Medicine

"The first attempt, at least on such comprehensive lines, to humanize the history of medicine by presenting it in a series of biographies, and so successfully has the author accomplished his task that it will not need redoing for a long time."—*New York Times.* Profusely illus. \$4.00
