ANNOUNCEMENT

may be obtained by application to

THE REGISTRAR

80 East Concord Street

Boston

Massachusetts

**filter membranes\***

... for fine filtrations  
 ... of given porosity  
 ... of tested porosity  
 (bacteria, albumen, tested, etc.)

for use in:  
**Preparative Chemistry**  
**Colloidal Chemistry**  
**Biology & Medicine**  
**Chemical Analysis**  
 etc.

*Send for a copy of Catalog U3 (32 pages) describing the membranes, apparatus, giving a summary of results, bibliography, etc.*

\* Membranes made according to Zsigmondy-Bachman & Kratz. Made from Cellulose Esters. Porosities are determined by the rate of flow of water. Tested membranes are tested by actual filtrations of materials of known micron size.

**Pfaltz & Bauer, Inc. S. 12-21**  
**300 Pearl St., N. Y. C.**

Please send me copy of Cat. U3. I am interested in:—

# Advanced Research Problems

Simplified through the use of this new and powerful tool. Its use now makes available a higher order of accuracy in the measurements of Hydrogen Ion Concentration.

## A Glass Electrode pH Apparatus

Patent  
Applied For

No. 5277

A high degree of accuracy.

No "poisonings" or other limitations as to solutions.

Quartz insulation throughout.

Adequate metallic shielding prevents static disturbances.

Potentials measured with a Lindemann quadrant electrometer.

Method of substitution prevents possible terminal errors.

Small amounts of solutions may be measured as small as 1.001 m.l.—just enough to fill a very fine capillary tube.

Complete with electrometer, microscope, aluminum shielding box with switches, rheostats, double scale millivoltmeter, and complete glass electrode assembly including calomel half cells.

*Send for Complete Description of the Possibilities of this New Development.*

# MANUAL OF THE SOUTHEASTERN FLORA

ILLUSTRATED

Being Descriptions of the Seed-Plants growing naturally in North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Tennessee and Eastern Louisiana

By

JOHN KUNKEL SMALL

**T**HIS Manual replaces the author's Flora of the Southeastern United States, published in 1903 (second edition 1913), for the Southern States east of the Mississippi River. It embodies the results of continued exploration and study, thus bringing up to date our knowledge of this floral region.

The Manual is the only complete illustrated work on the flora of the Southeast by a recognized authority.

In addition to analytical keys to the various plant groups, and descriptions of the orders, families, genera, and species, regional or altitudinal and geographic distribution, there are xxii + 1554 pages and over 1500 illustrations, one illustration of a species of each genus.
